

CHAPTER 1391

Linda remembered that before, Levi Garrison had said that the conditions for him to join the Western Shumen Clan were very simple.

It is to let him be the master of the Western Shu family.

They also think this is an extremely absurd statement.

Didn't think it was realized today?

Levi Garrison has really become the master of the Western Shu family!

"Anyone who has an opinion can come to me! Fist can always convince everyone, right?"

Levi Garrison smiled.

"You... are you the king of the word side by side?"

Kingsley suddenly realized something and couldn't help exclaiming.

In the duny world, there is such a terrifying power.

He can only think of one person!

The four main gates are regarded as taboos.

“What? One word side by side?”

The eyes of the Emperor Xishu are about to fly out.

Why didn't he think of such a possibility?

In the duny world, with such strength, besides the word side by side, there will be other people?

“One word side by side...”

Linda said silently.

That is a name that the four gate valves must be afraid of...

Levi Garrison smiled: “Well, it's me, you are smart!”

While speaking, Levi Garrison turned the ring on his hand.

“Yanlong Ring?”

Everyone recognized it.

“Kingsley is willing to serve one word side by side as the king!”

Kingsley knelt in front of Levi Garrison and shouted.

He was completely impressed by Levi Garrison's identity and strength.

"My Erudia is going to be a Erudia Five Dragon level character again, it is Erudia's blessing!"

Although the Western Shu Emperor on the other side was unwilling in every possible way, he still knelt on the ground: "The Emperor Tang serves as the king of one word side by side! From now on, you will be the helm of the Western Shu gate!"

"I'll wait for the word to be the king, side by side!"

Linda and others also knelt to the ground.

From then on, Levi Garrison was the master of the Western Shu family!

"well!"

"It's a waste of the strength of the Xishu clan to not work for Erudia!"

Levi Garrison was very satisfied with this result.

He had never thought of solving problems in this way before.

It was Kingsley's appearance that suddenly aroused his thoughts.

If you have such a terrifying force as the Western Shu gate clan, Erudia would be even more powerful.

What's more, after controlling the clan of Xishu, you can find out the secret forces.

Not to mention a little more power, the West Shu gate clan is an ancient hidden power, and in some respects it may know more and understand more in detail.

In this regard, his intelligence army is incomparable.

"Since I am your master, then listen to my orders!"

Levi Garrison said coldly.

"I'm waiting!"

Everyone looked at Levi Garrison in unison.

"First, although I am the master of the Western Shu family, I have to keep it secret. You still control it in name."

"Secondly, give me the detailed list and resume of each member of the Western Shu gate clan!"

The move is very simple. Levi Garrison investigates the traitors who have Erudia within the clan of Xishu.

Secondly, it is also to completely control this huge organization.

“Third, I will use the Western Shu gate clan secretly! You must not ask, just listen to the order!”

“Fourth, take half of the ancient medicine of the Western Shu gate clan and come out with the prescription, I want to use it!”

“Fifth, take out the combat skills and hidden weapons of the Western Shumen clan as well!”

These two, Levi Garrison is to strengthen the strength of Xia Warrior.

“understand!”

Of course, everyone has no objections.

Levi Garrison looked at Tangbei again: “Old man, you should go out of the mountain! Lead you to do big things!”

“Okay, I will follow you!”

CHAPTER 1392

Kingsley chose to follow.

First, I was convinced.

Second, he wanted to see how far Levi Garrison could go.

How could Levi Garrison let go of such a powerful master?

With him, many things will get twice the result with half the effort.

“Don’t be frustrated! You are contributing to Erudia! Erudia will remember you!”

“With faith you will find that life is meaningful!”

Levi Garrison glanced at everyone.

The Western Shu Emperor looked at Levi Garrison hesitantly and asked, “Master, what should I do next?”

Levi Garrison smiled: “You don’t need to do anything, you can do what you used to be.”

Levi Garrison also hoped that he would protect Zoey. ..

Zoey and Levilia are safe with them.

“Understand!”

The Emperor Xi Shu nodded.

At this time, Linda pushed the emperor of Xishu.

The emperor of Xishu immediately asked: "I wonder if you are married to the king of the word side by side?"

Levi Garrison shook his head helplessly. It seemed that this guy really didn't know his identity.

"Well, yes, there are even children."

Levi Garrison said.

"Huh? What? The kids are there?"

The Emperor Xi Shu and Linda were shocked.

Originally hoped that Linda could become the princess.

It turned out to be like this...

"Then prince, I will leave first!"

The Western Shu Emperor left with a large number of people.

Kingsley stayed with Levi Garrison.

In the ancestral home of the Lopez family.

The old lady and others were dumbfounded.

what happened?

When the Western Shu Emperor and his party left in front, they were excited and smiling.

He shouted that Mr. Xiao would definitely join the clan of Xishu.

I should have been happy, how come back one by one, I'm sad.

What's going on?

“Big brother, even the senior Kingsley are here, isn't the young gentleman joining me in the Western Shu family?”

The old lady asked curiously.

The Emperor Xi Shu sighed: “Hey, joining means joining. But...”

“What is it?”

The old lady asked.

The Western Shu Emperor waved his hand: “There is nothing wrong, this kind of thing is secret.”

Not only did he join, he also became the master of the Western Shu family.

Linda was also very depressed.

In addition to everyone's depressing things, what is also depressing is that he actually has a wife and children?

"What the hell is Miss Tang?"

Songkui asked curiously.

"It has nothing to do with you, do your own thing!"

In fact, Linda looked down on people like Lopez and Black.

"Understood, Miss Tang!"

Speaking of their own business.

At present, it is how to get the magic medicine from Levi Garrison's hands.

They have been planning for several days.

Ready to start with Emma.

Emma forced Levi Garrison to hand over the medicine.

The old lady hurriedly gathered everyone together.

“Did you see it today? Brother is in a bad mood. Maybe something happened.”

“If you get the magic medicine from Levi Garrison at this time and offer it to your eldest brother, will he be upset?”

“When he is happy, one sentence will make you prosperous, at least there will be no problems with the prosperity of the Lopez and Black family for a century.”

The old lady reminded.

Hearing this, everyone’s eyes lit up.

This is a great opportunity.

Better than usual opportunities!

The Western Shu Emperor is in a bad mood, if he sees the medicine, he will definitely be very excited.

Then their future will be there.

But they would never have thought that the Xishu clan who had tried so hard to fudge was already Levi Garrison at this moment.

CHAPTER 1393

Levi Garrison was the one who made them fly!

Not anyone else!

The March period has become a joke!

The ban under the Western Shumen clan-Levi Garrison could not see his wife and daughter.

But Levi Garrison is the master of the Western Shu gate...

Levi Garrison can't limit himself!

Levi Garrison didn't even think of this.

After becoming the master of the Western Shu family, all the problems were easily solved.

"Old lady, don't worry, you must give the medicine before tomorrow!"

Meredith promised.

This time the opportunity is very important, they must win it. m.bg.

After everyone left, they began to act.

Although Levi Garrison arranged for someone to guard Emma.

But Meredith and the others would not refuse Emma in the name of Levilia.

Immediately rushed from South Hampton to North Hampton.

As a result, they fell into their trap.

The people guarding Emma didn't care too much, after all, they were all relatives.

But how did they know that Emma had been controlled by these "relatives".

"What are you going to do? Didn't you let me see Levilia?"

Emma looked at everyone in panic.

"You don't need to be nervous, we won't do anything, just take you and Levi Garrison for another medicine!"

Logan smiled.

Emma reacted immediately.

After all, she knew that Levi Garrison was rewarded.

"Don't you think it's despicable?"

Emma looked at a few people and said angrily.

“Why is it mean? We are also Levi Garrison’s elders, so we should give this medicine to us!”

“Yes, Levi Garrison doesn’t respect the elders at all! This medicine is hidden!”

Everyone spoke plausibly.

Emma said dissatisfied: “This is the reward that Levi has received. How to distribute it is his own business and his right. No one else can make the decision for him!”

“Today, we will make the decision for him! I think he wants the magic medicine or his mother?”

Meredith has already been cruel, so naturally they won’t stop.

“Go, let’s go and find Levi Garrison!”

Just as everyone was about to set off, they met Zoey.

“What are you doing?”

Zoey looked at everyone.

“Who told the secret?”

Meredith shouted sharply.

How did Zoey know?

“Zoey has nothing to do with you! You quickly get out of the way and don’t delay us!”

Concubine Jennie scolded.

“No! I’m here today, don’t you want to bully my mother!”

Zoey is tit-for-tat.

“Your mother? Isn’t this your mother, okay? Get out of the way!”

Logan said angrily.

Zoey looked resolute: “I won’t let go!”

She guarded the door tightly.

Everyone didn’t dare to make a loud noise. If the old lady knew, it would be a big trouble.

“Zoey’s purpose is very simple! Let Levi Garrison hand over the magic medicine, and then we will give it to the Emperor Xishu!”

“We are also considering the future of Lopez and Black’s family. Your grandma also said that as long as the magical medicine is offered, our two will have no worries in the next hundred years!”

Everyone said.

“Zoey, think about it. Actually, this magical medicine is not very useful for Levi Garrison now, but what if it were used to exchange the fate of the two families? Wouldn’t it be more cost-effective?”

Meredith persuades her way.

Sure enough, Zoey hesitated.

“Yes, and the Emperor Xishu is very unhappy now, what if one is unhappy to deal with us? The magic medicine is very important at this time!”

Robert also echoed the Tao.

Zoey glared at everyone and said, “Okay, don’t talk about it! Don’t make things difficult for my mother, I’ll go back with Levi Garrison!”

CHAPTER 1394

“Okay, we promise you!”

“Zoey, we also consider the future of you and Levilia. I hope you can distinguish it!”

Everyone was happy.

Plums dye horses, that’s absolutely fine.

This matter can be considered a certainty.

Zoey looked at everyone in despair, Wan Wanwan thought that they would do such a thing for the benefit of the family.

It's really hateful.

If there is a chance to have a choice, she will never choose Li Zhao's family.

Now if she doesn't come forward to solve it.

One of Levi Garrison or Emma was definitely hurt.

Which side is hurt is the result she doesn't want to see. ..

So it is best if she solves it by herself.

In the villa.

Levi Garrison also didn't expect Zoey to come.

He was taken aback.

"Zoey, did you forgive me?"

Levi Garrison asked immediately.

Zoey's face was cold and shook his head: "No, I don't forgive you!"

"Then what are you doing here?"

Levi Garrison asked.

Zoey looked at Levi Garrison, hesitated for a long time, still raised the courage to ask: "Can you give me the rewards you got?"

"it is good."

What made Zoey think that Levi Garrison actually agreed.

"Huh? Don't you ask why?"

Zoey looked surprised.

Levi Garrison smiled: "Because it is you! I don't need to know the reason, as long as you speak."

"Oh....."

Zoey's surface was calm, but he was actually moved.

A warm current surged through my heart.

In an instant, Zoey forgave Levi Garrison.

Such a valuable thing

You can change things from one island to another city, but he didn't even ask, just gave it to himself?

Originally, Zoey was still thinking about how to conceal it.

But when Levi Garrison heard that she was asking, he gave it directly.

"Xiao Bei, bring the medicine!"

Levi Garrison ordered.

Soon, the Northern Heavenly King brought things.

Packed in a delicate box.

The box is specially made and requires a password to open it.

Levi Garrison handed the box to Zoey and told her the code again.

Zoey took the box with a complicated expression, and just walked out a few steps before turning around to look at Levi Garrison and said, "I'll wait three months for you to pick me up and Levilia!"

Levi Garrison smiled.

Don't worry, I'll watch you two at any time.

After Zoey successfully brought the magic medicine back to Li's house.

Lopez and Black's family was completely boiling.

A good opportunity to become a leader is here!

They promised to let Emma go, and a group of people went to the old lady excitedly.

Under the leadership of the old lady, everyone came to see the Western Shu Emperor.

"Brother, they have something for you!"

The old lady laughed.

The emperor of Xishu was taken aback: "What good thing?"

"Elder Tang, you should have heard about Erudia giving rewards to heroes recently, right?"

Meredith asked with a smile.

The eyes of the Emperor Xishu lit up: "Could it be the magic medicine that saves lives at that critical time?"

Although there are many ancient medicines in the West Shumen Gate, they also envy the magic medicine that Messiah has developed this time.

“Yes, we just got it, and I dedicated it to you!”

Robert immediately handed over the box.

Then after entering the password, the box pops up automatically.

There is a tube of blue medicine inside.

It is the legendary magic medicine.

In Erudia, only the important ministers of the country are worthy of it.

After seeing the medicine, the emperor of Xishu was very happy.

I can't put it down holding the potion.

This is equivalent to giving him another life.

Can you not like it?

“I like this gift very much! You guys have done a good job!”

The Emperor Xi Shu laughed.

CHAPTER 1395

“Speak? What reward do you want?”

The Emperor Xi Shu looked at everyone and asked.

The gift is valid, and the Lopez and Black families are happy.

The old lady is also very happy.

Harry and Meredith glanced at each other and said: “Old Tang, we don’t ask for anything else! Only the Lopez and Black families can become the clan within the Western Shu gate! We will follow the Western Shu gate for generations to come and follow your orders!”

This is the biggest wish of the two companies.

If successful, the Lopez and Black family will take off completely.

They belong to the Western Shu family.

The Emperor Xishu replied subconsciously: “Okay, I promised this trivial matter! From now on, you will be members of the clan of Xishu!”

“Come on, announce this message!”

“Really? Thank you, Don!” m.bg.

“The Lopez and Black families are willing to go through all kinds of fire and water for the clan of Western Shu, and they will do it!”

Lopez and Black’s family fell to the ground one after another, thanking the emperor of Western Shu.

The dream of a few old people’s life has been achieved.

Pushed their family to the highest point.

Efforts are in vain...

But at this time, Linda stepped forward and pulled the Emperor Laxi Shu.

“What’s wrong? Yan Ran?”

The Emperor Xishu asked.

“Grandpa, don’t make decisions so quickly...this matter has to be considered...”

Linda persuaded.

The Western Shu emperor said angrily: “What? Can I not do this little thing?”

Linda was anxious: “Grandpa, have you forgotten to find out about the situation of the clan in Xishu?”

“boom!”

When he was awakened, the body of the Emperor Xishu trembled.

correct!

He is not the one who is in charge of the Western Shu family.

Although this is a trivial matter, it must be told to him!

The Emperor Xi Shu patted his forehead and said in surprise: “I forgot this!”

“Wait a minute, don’t let this message go out yet! As for you to join the Western Shumen Clan, you need to take a long-term view!”

“what?”

The sudden change of the Emperor Xishu left everyone in Lopez and Black’s family in a daze.

Including the old lady too.

The emperor of Western Shu clearly agreed!

Why did you suddenly change your mind?

Listening to Linda's tone, it seems that he can't be the master now?

How is this going?

Even the old lady is very curious.

This thing is difficult for others, but isn't it a one-sentence thing for the Western Shu Emperor?

How come you have to make a long-term plan?

How did they know that the master of the Western Shu gate was Levi Garrison.

The Western Shu Emperor really couldn't be the master.

"What's the matter with Big Brother?"

The old lady asked quickly.

If this matter can't be done, he won't be able to survive.

The Xishu clan was also very disgraced.

"Don't ask, it has nothing to do with you!"

The Western Shu emperor left angrily.

Linda followed.

The Lopez and Black family members were left looking at each other, completely unaware of what was going on.

“What the hell is the old lady? Shouldn’t we offend Elder Don?”

Meredith asked.

The old lady explained: “No! Let’s put it this way! There are many families and organizations in the Western Shumen clan! But they all have strict rules!

Letting you join in is actually going to be assessed. You can only enter if you are qualified. Most of the eldest brother went to discuss it! “

The old lady thought of a reason to deal with it casually.

In fact, even she herself didn’t know what was going on.

“Grandpa, I think this should be discussed with him! Otherwise, let him know, if you blame it, it will be a big trouble.”

Linda reminded the remote place.

“Okay, then we hurry up and find him!”

He was determined to accept the medicine, so he had to agree to the demands of Lopez and Black's family.

Otherwise, where will he put his face?
