

CHAPTER 1407

Black Phoenix's eyes were full of expectation and madness.

Heihu and others were also interested.

""really?""

Everyone asked.

""Of course! Otherwise, the leader will not go to the East Island himself! Going to the East Island is to plan this event!""

The tone of the black phoenix was full of pride.

It shows her confidence in this matter.

""How big is it?""

Heihu's eyes are hot.

“Black Phoenix smiled: “If this happens, it will be enough to shock Erudia's vitality, and the self-confidence of Erudia people will be devastating...””

""hiss!"" ..”

Heihu took a breath.

They know that the chief planning is definitely a big event.

But I didn't expect it to be so big...

""Speaking of which, I would also like to thank the four main gates. It is they who broke the agreement and let all the hidden forces come out. We have this opportunity!""

The corners of Hei Fenghuang's mouth rose.

""Yes! The situation is in our favor now!""

Black Tiger also laughed.

"Levi Garrison in the dark clenched his fists, his eyes flickering."

These people are crazy!

This time they are coming to the big one.

Listening to their plan should be a huge blow to Erudia.

"Fortunately, Levi Garrison designed such a bureau."

They entered.

Otherwise it is impossible to know this kind of plan.

“Although I don’t know what it is, at least we can prepare in advance.”

“”””What about the specific plan?””””

Black Tiger asked.

“”””Huh? This is confidential, you want to know?””””

“Hei Fenghuang suddenly raised his pitch, and Heihu was so scared that he could not speak.”

“Seeing this, Levi Garrison has invented the horror of this organization.”

The system is too strict.

“You know that Heihu also wears a black mask, but he still doesn’t know the big plan.”

“Soon after, the envoy of Prince William of the Warhawk Kingdom came.”

“”””Well, Prince William said, you did a good job! What he promised you will also be fulfilled! Thirteen islands are permanently owned by you!””””

“”””You can completely break away from Erudia and form your own domain!””””

The messenger said with a smile.

""""Thank you Prince William!""""

Hei Fenghuang and others were very excited.

“After receiving the potion, the messenger looked at it a few times and said: “”Prince William knows that you have to plan a major event next. If you have any needs, Prince William will fully support it!”””

""""Thank you so much, Prince William! If we succeed in this matter, it will have a lot of benefits for the Eagle Nation and Prince William!""""

""""Well, happy cooperation!""""

“Subsequently, the envoy of Prince William left.”

“Levi Garrison sent someone to follow him, and all their trading and conversations were filmed just now.”

This is the evidence!

“In the future, if he wants to use certain people in the War Eagle Nation to operate, that is the reason!”

“Now he is sending people to follow Prince William’s messenger, just to dig out all these people from the Eagle Nation.”

Levi Garrison believed that this group of people was the same group who killed his brother back then.

He wants to do it now.

“But for the sake of the overall situation, I still have to bear it.”

“As for the people like Black Phoenix, Levi Garrison still sent elites to follow.”

He wants to control the entire Avengers alliance in his hands.

“Even more, they must be found out one by one.”

Levi Garrison and the Northern Heavenly King went back. He had to make preparations quickly to prevent the huge plan of the Avengers.

It's not good if something big happens.

“At this time, the King of Northern Heaven suddenly raised a question: ““Hall Master, has the medicine been taken away by Prince William's people?”””

“““correct!”””

“““Is that potion real?”””

The Northern Heavenly King suddenly became nervous.
