

CHAPTER 1483

The highest point of the Tianshan base in the north.

“The Northern Demon stood here, looking into the distance.”

It seems that the mountains and rivers of Erudia Wanli are all in his eyes.

“”Master Northern Demon, according to the message from the Avengers?the apprentices of the four Erudia Five Dragons and the East Demon, leading a thousand death squads, are coming here!””

“”It is said that the East Demon Four have developed a combined attack technique specifically for you for decades, and the four apprentices have already mastered it! They want to use this combined attack technique to kill you!””

...

“After listening, the North Demon smiled.”

“”East Monster, the four of you are afraid that I am still in the realm of that year? I am now more than three times stronger than before! The combined attack technique is useful to me?””

“”They have been studying and thinking about me over the past few decades. Am I thinking about them? Let’s put it this way, I have thoroughly studied all the tricks and combat skills of the four of them! I also know the equivalent of their apprentice!””

“”I basically guessed what their combined attack technique is, ridiculous! Just want to defeat me with this?””

??Mi.ÿc

This is something that no one thought of.

The North Demon was also studying the Four Eastern Demon.

He even guessed their combined attack technique.

“The combat effectiveness of the four little army gods is in front of the North Devil, which is probably not much higher than that of Ray and his like.”

“The so-called knowing oneself, knowing the enemy is never end.”

Messiah and Erudia Xiaosilong just thought they knew the Northern Devil.

“In fact, I don’t understand at all.”

The fact that the four little dragons of Erudia rushed to the north with the death squad quickly spread throughout Erudia.

“Because the four little dragons practiced the combined attack technique against the Northern Demon, it seemed to everyone that they could defeat the Northern Demon 100%.”

So it is a national celebration.

“The Northern Devils have not yet been defeated, and the Four Little Dragons have been portrayed as heroes of the country.”

The voices for them are getting louder and louder.

Even more than one word side by side king!

Many places have planned to build statues for the Four Little Dragons to commemorate them.

The haze of Erudia these days has been swept away.

There are joyous scenes everywhere.

The ancestral home of the Lopez family in North Hampton.

“Everyone began to persuade Zoey: “”Did Zoey see it? Levi Garrison might be able to come back alive.”””

“””The Four Little Dragons of the Great Xia are specifically aimed at the Northern Devil! They can definitely defeat the Northern Devil! Then the death squad will not have to die, and Levi Garrison will also come back.”””

“Hearing this, Zoey clenched his fists tightly and prayed: “”All hope is placed on the four little dragons of Erudia. You must defeat the Northern Devil!”””

“””You are Erudia’s heroes! You must win! I, Zoey, are willing to build statues for you!”””

Zoey prayed for a long time.

It was for Levi Garrison to come back safely.

Little did they know that Levi Garrison was still the strongest in this team.

“If you want to defeat the Northern Devil, it must be Levi Garrison.”

It’s not useful to rely on other people!

“After Messiah released the message of the four little dragons, Erudia’s morale was hotter than ever.”

Even overseas are scared.

“I thought that after the North Demon was released from prison, Erudia would have nothing to do.”

But there is no expectation of Erudia Wulong’s apprentice.

Everyone thought that the North Devil would lose.

“As everyone knows, the situation is completely opposite.”

“Soon, the four little dragons brought thousands of death squads to the north.”

The Tianshan base is less than two hundred kilometers away.

""From now on, all of you must follow my orders!""

Several people from Dong Beast spoke to thousands of people.

""Thousands of you will consume the North Demon first, and wait for you to finish it. Then we will go up again, so we can be more confident.""

The little army god ordered.
