

CHAPTER 1489

Tang Wansheng laughed.

This is a trade that makes a profit without losing money.

You don't have to do anything by yourself.

"The son's life is saved, and he will gain supreme glory."

Tang Mufeng will become a hero of the Great Xia in the future.

Their wishful thinking is really good.

""Next, we just need to wait for the victory to come!""

Everyone is proud.

Songkui and the others also smiled.

I was really afraid that Levi Garrison would turn over because of this.

"Fortunately, Levi Garrison bleeds desperately, and the credit is all Tang Mufeng's."

"Zoey clenched his fists tightly, gritted his teeth."

But she only hoped that Levi Garrison could come back alive safely.

There is no use for anything that is glorious or not glorious.

Especially seeing the four little dragons now leading the death squad in an invincible posture.

The more she felt relieved.

“““Four little dragons, come on! Must win! Bring my husband back alive!”””

Zoey prayed silently.

In the Tianshan base.

The four dragons led the death squad to be more courageous.

Sweep the enemy with a destructive momentum.

“Soon, the Northern Devil army could not stop them.”

It’s very close to the North Devil.

“““Can you run away from the North Devil?”””

The four little army gods looked at the North Demon contemptuously.

“““Where are the masters of the Avengers? How about them? I let them lie in ambush on the right. Why can’t they see?”””

North Demon asked angrily.

“According to his deployment, there are a large number of masters of the Avengers on the right.”

“If you encircle with his men, I am afraid that no one will survive the death squad.”

It’s just that this group of people disappeared.

“““We don’t know, the Avengers are unreliable!”””

“The North Demon nodded: ““I knew they were unreliable.”””

Little did they know that Levi Garrison and others were fighting the Avengers now.

They dragged the masters of the Avengers.

“In a disguised form, they saved this group of death squads.”

“Looking at the defeated situation, the North Demon snorted coldly: ““A bunch of trash!”””

“Although there are many people under him, they are all mobs.”

“Dong Beast snorted coldly: ““Don’t talk about others, you are also a waste!”””

“Hearing this, the North Demon laughed instead of anger.”

How ridiculous a stupid and ignorant person is!

“““Today, we will kill you here! Tell the world that the Northern Devil can’t do it!”””

The four Xiaojunshen moved.

Kill the North Demon successively.

Everyone shook the sky and the mountains collapsed.

They showed their true strength.

All four of them are the true transmission of the Great Xia Wulong.

“““boom!”””

“““boom!”””

...

But the North Demon all took it one by one.

““““Sure enough!””””

““““If we fight alone, none of us will be his opponent!””””

““““But we will join forces, and there will be a combined attack!””””

The four Xiaojunshen laughed.

““““North Demon, your end is here!””””

The four teamed up to attack the North Demon.

““““boom!””””

““““boom!””””

““““boom!””””

...

“The strongest fought against each other, and the world broke and the earth broke, and the mountains and rivers flowed backwards.”

“However, no matter how overbearing the four men’s combat skills, how powerful they are.”

The North Devil can easily take it.

Even predicting their every step.

This surprised the four of them.

“As everyone knows, the North Devil knows each of them very well.”

Know more than they themselves.

“““No way! Activate the slaying magic combat technique!”””

The four of them looked at each other and nodded one after another.

Zhu Mo’s combat skills are what their master has studied for decades to deal with Northern Demons.

“““Rumble...”””

“As soon as Zhu Mo’s combat skills were displayed, the Tianshan Mountains collapsed and shattered, and the heavens and the earth were killed.”

As if the end is coming...
