

## CHAPTER 1613

Levi Garrison's words angered Wang Xing and several others.

"Okay, you guys have a seed!"

"But you have to remember that they asked me to repair the Martial Arteries, not by themselves!"

"Then we'll leave. If we want to repair the martial arteries, this kid has to kowtow!"

Wang Xing and several people left directly.

They were right Messiah.

Since Levi Garrison's martial art needs to be repaired at all costs.

Will never let them leave easily.

Sure enough, few people took a few steps, and Messiah immediately chased it out.

"Master, calm down, his character is like this! He is malicious towards you!"

"Also ask the master to take action and help him repair his martial arteries!" m.bg.

Several Messiah arched hands.

“No, no one has ever dared to speak to Master like this!”

“I want to repair the martial art, unless the kid kneels and asks!”

Several apprentices sneered.

“Yes, he asks for it himself, I will do it!”

Wang Xing left a word and left with his apprentice.

In his opinion.

Messiah did not hesitate to pay any price.

They just mentioned that condition, letting Levi Garrison kneel to ask for the simplest condition.

But what he didn't think was that Levi Garrison would never be like this.

Don't say he is invincible now.

Even an ordinary person, he would not do anything to lay down his dignity.

After returning to the villa.

“What’s the matter with you in Levi? Everyone is good for you! If you don’t agree with you, you lose your temper and leave the master!

The senior officials of Messiah bury the grievance a bit.

Levi Garrison smiled: “I know you are good for me, but they are just a bunch of liars!”

“They couldn’t even find out my martial arts, so they threatened to fix it. The purpose is to deceive you and get rich benefits!”

Hearing Levi Garrison’s explanation, naturally no one believed it.

It is said that he heard the conversation between Master Wang and the others, and no one would write it.

“Levi, your hot temper has changed!”

“Look, you have offended the master, people want you to kneel and beg, only then promised to repair your martial arteries!”

“But we all know that your character must never kneel down!”

...

Messiah left.

It is absolutely impossible for Levi Garrison to kneel and beg for help.

They can only use other conditions to ask Master Wang to agree to repair the martial arteries.

Levi Garrison didn't think that Messiah would bow down to ask Master Wang.

He obviously doesn't need to repair the martial art.

What's more, these crooks can't fix it.

On the other side, Master Wang knew that Levi Garrison could not kneel and beg him. Messiah wanted to use other conditions to let him take

action.

He has been hanging on Messiah's appetite.

The longer the delay, the greater the benefits they will get.

In a blink of an eye, a month's time came.

It was when Levi Garrison came to visit Levilia.

When the time came, Levi Garrison immediately followed Zoey and Mia to Wushuang City.

The two are the registered disciples of the Three Elders, and they are familiar with Wushuang City.

Wushuang City is an ancient city in the depths of the bamboo forest in Shuzhong.

If it weren't for someone to lead the way, you wouldn't find it.

Because the ancient city is full of institutions and formations.

Coming to the nearby area will only drive you far, unable to approach Wushuang City.

After coming to Wushuang City.

There are many people inside.

When I saw Zoey and Mia, many people gathered around.

Because of their beautiful faces and extremely high talents, the two are deeply loved by the men of Wushuang City.

If it hadn't been for hearing that Zoey had a husband, there would be many suitors.

"Sister Zoey has such a high talent and such a beautiful face, why did she follow an ordinary person?"

...

Everyone's eyes fell on Levi Garrison.

Say something bad.

“Shut up! Whoever talks nonsense, I smash someone’s mouth!”

Levi Garrison suddenly became angry.
