

CHAPTER 1617

A bloodthirsty killing intent flashed in Jiang Haozhe's eyes!

The arrival of Levilia seriously affected his position in Wushuang City.

"Master, get up!"

Several younger brothers and sisters helped him up.

"I really didn't expect that Master would beat you for an ordinary person!"

Others are also very puzzled.

The arrival of Levilia also made them fall out of favor.

Status plummeted.

Fu Qiufeng didn't guide them anymore.

"Big brother, this little kid must not stay in Wushuang City! Otherwise, we will have no status!"

The second apprentice Zuo Yan said coldly. ..

"Yes, she must not keep it!"

Everyone else has the same idea.

“Okay! Get rid of her then!”

Jiang Haozhe took a deep breath.

At this moment, Levi Garrison is with Levilia.

I am very happy to see Levilia grow up.

He is also very happy.

Sometimes you don't have to keep Levilia by your side.

Give the child more space to let her play.

“If you are unhappy or dangerous, tell your father! Father will show up right away!”

Levi Garrison also asked Levilia to use the rescue device he gave Levilia face to face.

This is a chip rescuer that can be embedded in the body.

As long as Levilia uses it, Levi Garrison will know it even thousands of miles away, and he will also lock Levilia's position.

After Levilia used the rescue device, Levi Garrison's phone immediately sensed it.

The position is also quickly locked.

Levi Garrison and Levilia stayed for almost half a day.

For a long time, people around have been staring at them.

Levi Garrison didn't take it seriously, because when he first arrived in Wushuang City, many people were staring at him.

Little did they know that the person staring at this time was Jiang Haozhe.

They are discussing how to get rid of Levilia.

"If you kill her directly, I'm afraid it's Master and they will find a clue and find us!"

Jiang Haozhe twisted his brows into the word Sichuan.

"Should we ask someone to kill her?"

The second senior sneered.

In the world of their warriors, people are indifferent and respect the strong.

Each is cold-blooded and ruthless.

They never feel guilty about killing a child.

“No, it’s better not to get rid of her through our hands! According to the master’s level of affection, if you want to know, you can’t forgive us!”

Jiang Haozhe shook his head.

Everyone looked at Jiang Haozhe: “Big brother, did you think of a way?”

Jiang Haozhe smiled: “Well, no mistake. Wait and see!”

...

In the evening, Levilia was very obedient and said: “Dad, Levilia has to go to martial arts! Time is up!”

“Good boy, hurry up!”

Despite Levi Garrison’s reluctance, the child always has to sail.

The next meeting will be another month away.

Levi Garrison stood there, looking at the direction Levilia was leaving, and looked away for a long time.

It’s like ordinary parents sending their children to school.

That feeling is only known to parents.

“Don’t watch it anymore, Levilia is very happy! See you again in a month!”

Zoey patted Levi Garrison.

It was found that his eye sockets were slightly moist.

“As long as you are wronged here, I will surely calm down!”

Levi Garrison took a deep breath.

“Okay, I know you’re great! You go back quickly too!”

Zoey was afraid that if Levi Garrison stayed here too long, it would be dangerous.

Levi Garrison left Wushuang City and returned to Jiangbei.

Along the way, Levi Garrison saw many supreme-level powerhouses.

No one at this level could be seen before.

Now it’s the same as the big explosion.

Messiah is actively looking for the emergence of the supreme-level powerhouse.

At present, there are several supreme-level powerhouses who are willing to work for Messiah, but they also pay a huge price accordingly.
