

CHAPTER 1626

The language is not surprising and endless.

Levi Garrison said this.

Thunder billowed.

The entire square was silent.

Everyone looked at the apprentices beside Fu Qiufeng subconsciously.

No one thought of this.

Jiang Haozhe and the others were in a good mood.

Successfully shifted my attention to this group.

But Levi Garrison pointed out them directly!!!

Several people were dumbfounded.

They were all trembling subconsciously.

“what did you say?”

Even Fu Qiufeng was dumbfounded.

“My apprentice is a spy? How can it be?”

Of course Fu Qiufeng didn't believe that he was his apprentice.

These four apprentices usually obey him.

The equivalent of a good student in a school, how could it be a spy?

“Yes, you are spitting blood!!!”

“How could we be spies? We are Master's most beloved disciples, and the hope of Wushuang City in the future. We will not do things like shooting

ourselves in the foot!”

Jiang Haozhe's analysis is right.

Everyone also thinks it makes sense.

Even Zoey and Mia are very strange, why did Levi Garrison point to Jiang Haozhe?

Levi Garrison smiled: “The reason is very simple! Because of Levilia's arrival, your position has plummeted! Originally Wushuang City spoiled you, but

now all this belongs to Levilia. You are jealous of Levilia and want to get rid of her, this Only revealed the information...”

Hearing that, Jiang Haozhe and the others were terrified.

Levi Garrison is too scary.

Analyze the main points all at once.

Get a clear picture of their practices and ideas.

After listening to Levi Garrison's analysis, everyone just felt terrified to think carefully.

It seems so!

When Levilia arrives, these people have suffered the most.

Even Fu Qiufeng and the four elders felt that what they said made sense.

"Master! Injustice, we can learn from the world of loyalty to Wushuang City!"

"What's more, we are very good to Levilia and Junior Sisters, you are all in your eyes!"

...

Jiang Haozhe immediately knelt on the ground and began to defend.

“Yes, it’s wrong! Since Levilia started, they have been caring for Levilia and behaved like brothers and sisters everywhere. I can’t imagine them

starting with Levilia!”

Fu Qiufeng told a fact.

Everyone nodded loudly.

indeed so.

Secretly, how many people don’t know.

But on the surface, they are really good to Levilia.

No matter how you look at it, it doesn’t look like you would treat Fu Levilia.

Even Zoey and Mia said, “Levi, are you wrong? Several of them are very good to Levilia. Some people say bad things about us and

Levilia, and they all go to educate others.”

“Yes, how can people from Wushuang City deal with Wushuang City?”

“Are they so jealous? They are already supreme powerhouses, don’t they need to be jealous of a child?”

...

Everyone present began to defend Jiang Haozhe.

While several people breathed a sigh of relief, Jiang Haozhe suddenly said, "Isn't it the information you leaked out yourself?"

He suddenly pointed the finger at Levi Garrison.

Levi Garrison smiled: "Am I stupid? Deal with my daughter?"

"You are not stupid, you are rather smart! From the very beginning, you looked down upon Wushuang City and felt that Wushuang City was not

worthy of nurturing your daughter. Is this true?"

Jiang Haozhe asked.

"Yes, it's wrong."

Levi Garrison admitted to this point.

"So you want to find more powerful characters to train your daughter. It is not difficult to find the Black God Sect in your previous identity! You

want to send your daughter to the Black God Sect to train, and you have created such a scene!"

Jiang Haozhe said it was right.
