

## CHAPTER 1649

Ok?

Levi Garrison was taken aback.

This is completely different from the previous one who was only a promise.

Through the chat, I learned that Xu Zhengjie was not satisfied with his appearance and went to the star country where the plastic surgery industry is

developed.

“I think everything can be changed. There is nothing to hide about my plastic surgery!”

Xu Zhengjie expressed his views.

“Zhengjie, what are you doing now?”

Someone asked.

“After graduating from university, I entered a science and technology institution, and then I went it alone. Now I run a science and technology

enterprise, mainly researching and producing ultra-new weapons, and have cooperation with many large foreign consortia!”

When Xu Zhengjie finished speaking, everyone was amazed.

In terms of achievements, Xu Zhengjie is second only to Zoey, right? ..

“Our classmates, you and Zoey are the most prosperous. Do you know the martial artist? Zoey is now a supreme powerhouse, the kind of

destroying the world!”

But Xu Zhengjie smiled contemptuously: “This kind of warrior is exaggerated, and modern technology is not incapable of defeating them!”

“How is it possible? The Supreme Martial Artist can compete with small nuclear weapons...”

...

Then everyone fell into arguing.

Levi Garrison frowned.

He felt that Xu Zhengjie was bragging.

Even what he said is true.

He is too confident.

Judging from his demeanor, he knows the supreme-level powerhouse very well.

An ordinary person actually ignores the supreme-level powerhouse.

this is too scary.

But Levi Garrison didn't care how much.

After the banquet, Levi Garrison hugged Levia to drive.

When they came out, Zoey and Xu Zhengjie were arguing.

Plum dyed angrily and got into the car.

Through the car mirror, Levi Garrison saw Xu Zhengjie's gloomy eyes.

It turned out that Xu Zhengjie actually confessed to Zoey.

Frankly does not care about her past, willing to accept Levia.

Said that Levi Garrison was no longer worthy of her.

"Crazy! Xu Zhengjie was such an honest child when he was in school, how has he become like this now?"

"I look a bit like a demon!"

Zoey was still angry.

Levi Garrison nodded: "I think so too, maybe his career has grown bigger and his personality has changed too!"

"Well, let's not mention him! I don't want to see him in the future!"

In the meeting room of the 100-story building in the headquarters of Sanxing Group, the capital of Star City.

They received a mysterious guest today.

"Not much nonsense, I just want to invite Sanxing Group to join the Alliance Army! This is the list of people and organizations that have already

joined!"

The mysterious guest handed everyone a mysterious list.

"What? They all participated too?"

...

When they saw the list, everyone was shocked.

The sound of cold air was endless.

“We Sanxing Group join!”

Almost without hesitation, Sanxing Group considered joining.

In fact, Sanxing Group is not a consortium on the surface.

In fact, it is a super powerful force.

The horror and mystery have always been hidden.

It wasn't until the covenant of the gods was torn apart that they gradually became visible.

“But I have only one request from Sanxing Group!”

“what?”

That person is puzzled.

“When the time comes, leave Levi Garrison to me!”

Requirements of Sanxing Group.

After listening to that person, he was amused: “What exactly did Levi Garrison do? So many people have to target him! Everyone's requirements are

surprisingly consistent, as long as Levi Garrison!”

Everyone in Sanxing Group was taken aback, and couldn’t help saying: “What? Is there anyone else who wants Levi Garrison?”

“It’s too much. According to incomplete statistics, there are no less than 30 forces in the Alliance Army who want Levi Garrison to die, and there are at

least hundreds of people who want Levi Garrison to die!”
