

## CHAPTER 1670

Shock!

So shocked!

No one would have thought that the nerd of the past would betray Erudia and become Erudia's greatest enemy!

The weapon he invented became the biggest obstacle to Erudia!

After Levi Garrison heard the message, he instantly understood.

Why is Xu Zhengjie a mortal, so many supreme-level powerhouses follow.

But he asked Messiah to investigate, where did he find it? ? ?

Messiah was dumbfounded after receiving this message.

Not long ago, Levi Garrison asked Xiao Feng to ask them to thoroughly investigate Xu Zhengjie.

Due to lack of manpower, they handed this task to Wang Qingyu from the family of medical kings.

Obviously Wang Qingyu didn't regard it as the same thing at all. ..

Now it seems that Xu Zhengjie may become the biggest risk factor on the battlefield.

It is very likely that Erudia will fall into a situation where it will be impossible to recover...

“Ahhhhh! Wang Qingyu, you!”

All the popularity has deteriorated.

Can't wait to slap Wang Qingyu a few times.

If it was discovered and resolved early, this situation would not happen in the East.

After Wang Qingyu heard this message, he also didn't expect that an ordinary person would be like this.

This also teaches everyone a truth-don't despise everyone, even if they seem small.

Levi Garrison personally energized Xiao Feng, telling him to hold on for a while, after he settled the battle in the southern border, he immediately went

to support.

...

At this moment, Erudia and the Domination Alliance were also handed over in the northern and western theaters.

Although the strength to dominate the alliance is very strong.

But Erudia almost gave it all, and was able to contend for a while.

The Eastern Territory Theater is the most tragic.

The army dominating the Alliance came over.

They suffered heavy casualties.

Don't dare to be tough, you can only retreat steadily.

Xu Zhengjie's super weapon is too threatening.

Xiao Feng did not dare to counterattack on a large scale, nor did he dare to defend himself.

Seeing the compatriots who keep falling, everyone feels really uncomfortable.

"Master called just now, let us hold on for a while! He will come to support us!"

"We have to think of a way to deal with it!"

...

Xiao Feng and the top executives began to discuss countermeasures.

On the other side, the dominating alliance forces continue to persecute.

Xu Zhengjie looked excited.

“Who would think I’m a nerd? Ah? I’m a god!”

Xu Zhengjie shouted.

“Are there any flaws in this weapon, Mr. Xu?”

Someone asked curiously.

“There are no shortcomings!”

“But the energy box is limited, it’s like a bullet to a gun, there are few bullets!”

“Thirty weapons, each equipped with thirty energy boxes!”

“In theory, a total of 900 energy boxes can kill 900 supreme powerhouses!”

...

Listening to Xu Zhengjie’s analysis, everyone laughed.

“Then there are no shortcomings at all! Can kill 900 supreme-level powerhouses, basically can push the Great Xia East Realm horizontally!”

“Yeah, nine hundred supreme-level powerhouses? We only have two to three thousand in total!”

Xu Zhengjie nodded: "That's true! But the energy box must be used on the right path, and it can only be used when you must kill the supreme-level

powerhouse! It can't be wasted on other people!"

"Continue to oppress! Force out their supreme powerhouses! Then kill them!"

...

Xiao Feng and several people are discussing.

"Report, according to our spies in the enemy camp, the energy box of this super weapon is actually limited..."

All that Xu Zhengjie said just passed to Xiao Feng.

"Nine hundred is enough to kill all of our supreme powerhouses..."

"We still can't stop it!"

Xiao Feng sighed.

At this moment, the West Heavenly King of Zhentian Temple suddenly said: "I have a way!!!"
