

The Return of the God of War [The Protector]

Chapter 1801

Levi Garrison wants to know who is An Shiqi?

Let him return to Erudia!

“My identity? Hahaha...you only need to wait a few minutes to find out!”

An Shiqi smiled.

Looking at Levi Garrison’s eyes, it was like looking at a prey.

“Okay, I’ll wait!”

Just in time, Levi Garrison wanted to pull up from the source.

A few minutes later.

There were hundreds of black cars outside the cemetery.

With the accompanying bodyguards, there are at least a thousand people.

Obviously, this is a family sacrifice.

Their background is also great.

The first consortium of Fengtian City settled down.

When Erudia was in crisis, they were very close to the battlefield in the East, and they chose to leave Erudia

for the first time and went to the East Island.

Today, Erudia is back to normal.

Anjia came back quietly again.

The first thing that comes back is to worship the ancestors.

After all, they knew in their hearts that leaving Erudia at the beginning was an act of betraying their ancestors.

After returning, he quickly came to worship the ancestors.

As a junior, An Shiqi came first.

Unexpectedly, I met Levi Garrison.

Soon, everyone in Anjia entered the cemetery.

“Grandpa, save me!”

An Shiqi started shouting from a distance.

This voice shocked everyone in the An family.

Soon, thousands of people gathered around.

Seeing An Shiqi and his party kneeling on the ground, everyone in the An family was extremely angry.

It is strange that Levi Garrison saw many warriors dressed in Dongdao from among them.

Everyone is still a master!

Especially when these Toshima warriors saw Levilia, their expressions changed drastically.

Obviously recognized Levilia.

After all, Levilia is now famous.

Her information, photos and other materials were passed out early.

It is not surprising that these people know each other.

“Who made you kneel?”

A white-haired old man headed by, leaning on a cane, shouted at Levi Garrison and his group.

“It’s me!”

Levi Garrison said lightly.

“Grandpa is him, he wants to know who I am! Please tell him!” After

An Shiqi had a backing, his

words were a lot harder.

“Kid, listen well, we are the first family of Fengtian City! This is my grandson of An Xianglong, do you dare

to tell him to kneel down? I make you go around

without eating !” An Xianglong roared.

“Then I ask you, did you leave the Erudia nationality and go abroad some time ago when you settled down?”

Levi Garrison asked.

An Xianglong argued against each other: "Yes, that's right! We went to the East Island, what happened?"

"Then you dare to come back recently? Don't you know the ban?"

Levi Garrison's tone was cold.

Everyone in the Anjia laughed: "Of course I know! The ban is only for the weak! It doesn't take care of my

Anjia! Erudia, we will return as soon as we want. Who can take us?"

"Who let you enter Erudia? Yes?"

Levi Garrison asked.

"Boy, who the hell are you? You can ask about my settlement?"

Someone in the settlement was already angry.

"I made the ban! I will investigate this matter to the end, and I will follow you when you settle down!"

Levi Garrison said coldly.

"What? You...you are the king of the word side by side?" An

Xianglong's expression changed.

I didn't expect to meet Levi Garrison here.

The expressions of other people in Anjia also changed drastically.

The Higashishima Samurai in the team looked solemn after hearing this.

He even started to make An Jia apologize.

This was something Levi Garrison had never expected.

An Jia would listen to the Toshima Samurai, and the Toshima Samurai subdued so quickly.

There must be a conspiracy.

Levi Garrison's expression became serious.

Chapter 1802

“Hurry up and apologize! This matter is your fault! Erudia is a respectable country! These are Erudia's heroes, how can you insult?”

Several Dongdao warriors hurriedly urged.

So is An Xianglong.

“I apologize...”

An Shiqi also apologized again.

In the end, Anjia’s attitude changed a lot, and Anjia apologized again and again.

No one thought of this.

An Jia even said that he could leave Erudia immediately, and everything would obey Levi’s ban.

This made Levi Garrison more and more sure that they must have a conspiracy.

She was so fast that she had to leave Erudia immediately.

Obviously, there is something afraid of him knowing.

Thinking of quickly clarifying the relationship.

Don’t let their own purpose be exposed.

“Forget it, since I’m back, just stay honestly! They also apologized, it’s okay!”

Levi Garrison stopped punishing them, just to see what tricks this group of people were trying to do.

After the panic worship of Anjia, they all went back.

“Staring at them, especially those on the East Island! Pay attention to their movements!”

Levi Garrison instructed the Western Heavenly King.

Levi Garrison always feels uneasy.

Plus these people’s reactions when they saw Levilia.

Levi Garrison was very disturbed.

But luckily I ran into it.

Otherwise, these people might do something big.

Now that the Western Heavenly King is staring, there will be no mistakes.

After doing this, Levi Garrison returned to Jiangbei with Levilia.

This way, Levi Garrison hid his whereabouts and walked extremely fast.

Nowadays, there are many people who are eyeing Levilia.

He is not afraid of accidents, but of trouble.

It's all small, it's too troublesome to kill.

It's not as good as not encountering one.

“Levilia, before going home, my dad will take you to see my dad’s master! He gave dad two chances to rebirth!”

Levi Garrison decided to go to the prison to meet his master.

“Okay! Okay!”

Levilia nodded his head.

The big eyes are full of expectation!

&

Soon, the father and daughter came to Jiangbei Prison.

Levi Garrison came to Master Qi’s cell.

“What about people?”

Levi Garrison was surprised that the cheap master had disappeared.

“Come here, where’s the person?”

Levi Garrison hurriedly called to the prison manager to ask.

“Prisoner 49 has been released from prison a few days ago! His date has arrived!”

“It’s not easy for him. After a full twenty-year prison term, he has finally gotten out of his head!” the warden exclaimed.

Levi Garrison frowned tightly: “I

’m out of prison? Shouldn’t it!” Levi Garrison thought that the cheap master would stay here forever.

“Master, do you want to check his information? Or I will read it to you?” the

warden asked, bowing.

“No need!”

Levi Garrison had no intention of listening anymore.

According to the elder's ability, how he went to jail and other information must be false.

It can't be found at all!

Levi Garrison guessed that if Master Chei went to prison, he was actually living in seclusion.

To avoid things or people.

If such a capable person is in jail, who can catch him?

I have to say that the place he chose to live in is really good.

Few people think of living in prison in seclusion!

He lived in seclusion for twenty years!

There must be a reason for this!

It is probably hiding something, or for what promise to live in seclusion here.

Now he has been released from prison.

That means that he is about to face it, or something has happened...

But Levi Garrison is not worried. With the power of the cheap master, who can hurt him?

“You go out!” After

Levi Garrison let the warden out, he looked around in the old man’s cell.

Levilia also followed him around in the cell.

Very curious about everything.

At this time, Levi Garrison stroked the wall.

Suddenly he found that the wall was empty.

After he opened up the wall, something was hidden inside.

After Levi Garrison saw it, his face changed drastically...

Chapter 1803

There are three ancient books and a broken sheepskin map.

There is also a black token!

This is clearly reserved for myself!

Levi Garrison tremblingly picked up the ancient book and the sheepskin map.

The mutilated sheepskin map seems to be a map, but it is incomplete.

And depending on the material and the degree of damage, it should be very early.

Levi Garrison, the black token, didn't see any fame either.

As for the three ancient books, Levi Garrison flipped through his eyes, almost shining in his eyes.

Good things, all good things!

Although the cheap master wouldn't let himself call him master, but he passed everything on to himself.

"Master, I hope I can see you again!"

Levi Garrison took away these things and erased the traces of being in prison.

After returning home with Levilia, Levi Garrison was scolded.

"At this juncture, you are taking Levilia around, so you are not afraid of accidents?"

“What if Levilia is in danger?”

...

But since everyone only cares about Levilia, Levi Garrison didn't say anything.

These days, everyone is actively looking for the backer of the teacher for Levilia.

Zoey and the others have selected several major forces and even contacted them.

Now the era of the strong like clouds.

Wushuang City hadn't looked at them long ago.

“This doesn't seem to work, only the Sixth Heavenly

Powerhouse is in charge !” “Yes, Levilia's master must have at least the

Seventh Heavenly Heavenly Powerhouse to sit on the guard! Only this way can he

protect him and let him have a good future!”

...

The family was full of quarrels.

Of the few major forces they selected, only the Sixth Heavenly Power was in charge.

They want to be strong in the Seventh Heaven, but where is it so easy?

Now the Seventh Heavenly Powers are all illusory existences!

“Yes, it would be great if the strong on the big summer list can accept the king as an apprentice, even if the king of LEvi’s Squad at the end is fine! Then the future of the king must be boundless!”

.....

&

Seeing the family discussing, Levi Garrison didn’t have any interest.

Back in his room, Levi Garrison began to study the ancient books left by the cheap master.

At this time, Xiao Feng sent a message.

It is said that on the dark web, there will be more than a dozen groups of masters coming to Erudia, either

to capture Levilia or kill Levilia.

“Master, the situation is urgent, maybe they have already arrived!”

Xiao Feng said worriedly.

“Don’t worry, when they come, they will catch them all in one go!”

“Xiao Feng is staring at these people’s movements!”

Levi Garrison was waiting for them to gather together.

It is too much trouble to come one by one.

On the other side, in the base of the Shenlong Science and Technology Alliance.

Xu Zhengjie’s plan is proceeding in an orderly manner.

Xu Zhengjie has completed nine experiments these days.

These experiments, which seem to be a contribution to Erudia, were planned by Xu Zhengjie.

Even Wen Lei, who had been staring at Xu Zhengjie, didn’t notice it at all.

After returning to his residence, Xu Zhengjie put a check mark again.

In his schedule, only the last experiment is left.

After the experiment is completed, Xu Zhengjie will carry out his ultimate plan.

After completing the experimental data, Xu Zhengjie's eyes revealed extreme madness.

“Levi Garrison is coming soon, and soon you will see a different me! I will personally blow you under my feet

at that time!”

“And Zoey and that child can't escape!”

Crazy!

Xu Zhengjie looked crazy.

Not only can he develop weapons of killing gods, but he can also use modern technology to turn himself

into a god killer.

“Tomorrow will be the last experiment! It will also be the time when I will shock the world!” A

smile appeared on Xu Zhengjie's mouth.

He looked at his colleagues at the base with a trace of regret in his eyes.

Because in his eyes, these people are all dead bodies and experimental products.

Wen Lei looked at Xu Zhengjie's eyes, and she felt a little scary.

"Have you noticed that Xu Zhengjie's eyes are terrible?"

Wen Lei asked.

Chapter 1804

The others shook their heads.

Everyone was very confused about Wen Lei's questions.

"No, Xiao Xu has done nine amazing experiments during this time! Isn't it okay for this kind of genius to

look domineering?"

"Yes, geniuses are always withdrawn or abnormal! Little Licensing is not abnormal! He This terrible look is

instead an investment in science..."

Others retorted.

Wen Lei rubbed her head: "Is it true that I think too much? No! I have to look at him!"

She checked Xu Zhengjie's recent experiment.

The more I think about it, the more things are wrong.

"What if something goes wrong in the experiment tomorrow? I have to promise that it won't happen!
But

how can I stop or make sure? By the way!"

She thought of a person in her entanglement.

Levi Garrison, who was far in Jiangbei, received a call.

After being connected, Wen Lei actually called.

"I think Xu Zhengjie is abnormal. There may be problems in tomorrow's experiment! Can you come?"

Wen Lei expressed his meaning directly.

"Okay! Then I'll go there as soon as possible! If you have any news, contact me as soon as possible!"

Levi Garrison has always felt that Xu Zhengjie is potentially dangerous.

Hearing Wen Lei's words, Levi Garrison became more worried.

He wants to immediately go to the base of the Shenlong Technology Alliance.

As for Levilia's safety, he doesn't need to worry.

Not to mention that Levilia himself possesses certain strength.

The team he has secretly trained can protect Levilia comprehensively.

What's more, there are Xiao Feng and the others.

So he doesn't need to care about Levilia's safety.

After arranging Levilia, Levi Garrison set off.

"It keeps saying that he will protect the safety of Levilia. Look at the critical moment, he ran away!"

"Although he is in a high position, he is still unreliable! Let's find a solution by ourselves!"

"I heard about foreign masters We are going to deal with Levilia, we have to protect Levilia!"

...

Lopez and Black complained.

The situation is indeed urgent.

Batch after batch of foreign masters have arrived in Erudia.

It's about to start with Levilia.

Levi Garrison rushed to the base of Shenlong Technology overnight.

&

Wen Lei received him quietly.

And disguised Levi Garrison as a technician in the science and technology base.

Wearing protective clothing, no one recognized it.

In this way, Levi Garrison successfully blended into the base.

But it is still very difficult for him to get close to Xu Zhengjie.

You have to go through a password door, biometric identification and so on.

Even if Wen Lei is there, it won't work.

Levi Garrison can only wait for the experiment tomorrow to observe Xu Zhengjie's

movements.

This night, Xu Zhengjie barely slept.

His face was full of excitement and madness.

The next day, Xu Zhengjie and his team got the permission of Lab No. 2.

Today, the experiment conducted by Xu Zhengjie's team is energy matter.

If the experiment is successful, it can be used on a new type of weapon such as the killing weapon.

The entire Shenlong Science and Technology Base attaches great importance to this, and all the most powerful talents or resources will assist Xu Zhengjie.

Levi Garrison mixed in with Wen Lei.

Today, once Xu Zhengjie has any ideas, Levi Garrison will stop it on the spot.

The second laboratory occupies a large area, the size of eight footballs.

The facilities inside are almost the most advanced in the world.

Xu Zhengjie and the team prepared everything.

Next, is the beginning of the tenth experiment.

Xu Zhengjie glanced at the audience and started with inexplicable excitement...

Levi Garrison in the crowd waited nervously...

Don't get into trouble!

Must be blessed!

Wen Lei prayed in her heart!

The experiment finally began.

Xu Zhengjie devoted himself wholeheartedly.

"From today onwards, I will shock the world!"

... The

experiment was carried out, and Wen Lei, as an assistant, was completing her task in

a cold sweat.

Levi Garrison always stared at everything.

Time passed by every minute and every second.

One hour.

Two hours.

...

Seven hours.

Finally, the most important moment has arrived.
