

The Return of the God of War [The Protector] Chapter 1855

Since the Warhawk Nation issued this initiative, it has received support from many forces!

The international momentum is growing.

Many people have long regarded Levi Garrison as a thorn in the flesh.

In particular, Levi Garrison, as the king of Erudia, puts great pressure on other countries and regions.

With Levi here, they can't eat well and sleep well.

I wanted to kill it a long time ago!

But there is no chance at all!

Now that Levi Garrison had something to do, they knew that the opportunity was coming.

As for what Tiance Mansion thought, it would be impossible for the major foreign forces to recruit Levi Garrison!

Tiance Mansion didn't even understand Levi Garrison at all.

On the contrary, it was Levi Garrison's enemy, Richard, who knew Levi Garrison best!

They firmly believe that Levi Garrison was framed!

This person will not do anything harmful to Erudia anyway!

So it's impossible to recruit him and let him join another country!

The best way is to kill him!

How could Richard let go of this opportunity?

It is impossible for Messiah to stop them!

Their reasons are unassailable!

You can't refuse at all!

In Tiance Mansion's view, this is a good thing.

First, they will not recruit Levi Garrison.

Second, the power to encircle Levi Garrison has increased.

After getting permission, Richard actively recruited troops, calling as many masters as he could.

One day later, he will lead all the masters into Erudia to encircle and suppress Levi Garrison.

The situation is grim.

All forces joined the team to encircle and suppress Levi Garrison.

Levi Garrison's old department was completely controlled.

Hearing that Richard and the others had formed an international encirclement and suppression team, even the East Island forces were stunned.

Although this is a good thing!

The bigger the trouble, the better.

But they felt something was wrong...

before they suspected that Richard and others had captured Levilia and the others.

But now they came to encircle Levi Garrison.

So who was the one who captured Levilia ?

This is puzzling!

& But what they have to do now is to intensify the conflict.

Levilia , this child is not important.

On the other side, Xu Zhengjie brought Zoey and the others back to the Shenlong Science and Technology Base.

“Zoey I will conduct experiments soon. Do you expect to have a strong power and be used by me alone?”

Xu Zhengjie laughed.

“You devil! You are not a human!”

Zoey cursed angrily.

“Yes! Strictly speaking, I am indeed not a human being!”

Xu Zhengjie laughed.

He is now composed of pure energy, so he doesn't need to be considered a human being.

“You...”

“Come here, keep them locked up with Wen Lei!”

“I'll go and clean up Levi Garrison!”

Seeing Xu Zhengjie's incredible appearance, the elites of the Shenlong Science and Technology Alliance are all regretful.

Why didn't Levi Garrison kill him with a single knife?

Why bring him back?

How did they persuade you?

It was they who insisted on going their own way and forcibly brought Xu Zhengjie back.

Raising tigers is now in trouble.

Can't control it at all.

They have seen how strong Xu Zhengjie is!

Who can stop him?

This guy is now an energy body, he can't kill him!

Wen Lei asked Zoey quietly: "Do you know where Levi Garrison is?"

"I don't know!"

Zoey shook his head.

"Now he is the only one who stops Xu Zhengjie! Xu Zhengjie is more threatening than anyone!"

Zoey looked helpless: "But after the accident, he never contacted me again!"

"Hey!"

Wen Lei clutched her hair, thinking about countermeasures.

After Xu Zhengjie left the base, he joined the team searching for Levi Garrison.

At this time, after Levi Garrison discussed with everyone, he was about to make a decision.

"In any case, we can't hide from hiding! Let's face them head-on!"

"Give me my order-I, Levi Garrison, will be waiting for fellow fellows at Tiandang Mountain in the south!"

Levi Garrison issued a summoning order.

Suddenly the summer is boiling.
