

The Return of the God of War [The Protector] Chapter 1860

“What? Xu Zhengjie???”

Levi Garrison’s face changed drastically when he heard this name.

It’s him?

It turned out to be Xu Zhengjie!

A thousand precautions still allowed Xu Zhengjie’s disaster to take shape!

Xu Zhengjie had a plan before, but he didn’t take any action because he wanted to guard himself.

This must have happened while he became the enemy of Erudia!

But shouldn’t he produce weapons?

How did you become a master of magic spells?

correct!

It must be a powerful weapon that makes him look like a master of spells.

In Levi Garrison’s understanding, Xu Zhengjie had invented a powerful weapon, but he did not expect that he had transformed himself.

not good!

Plum dye!

Xu Zhengjie will definitely not let Zoey go.

Levi Garrison immediately sent someone to search for Zoey's whereabouts.

Three more hours passed.

The forces of Cthulhu are all assembled!

They lined up in a team, one by one in front of Levi Garrison.

Levi Garrison was shocked by the battle.

The Cthulhu power is really strong.

No wonder it used to be called the Age of Cthulhu.

Not only is Huoyun Evil God powerful, but also his followers are extremely powerful.

Among the leaders of the heretical gods, Levi Garrison found dozens of powerful men who were comparable to the five dragons of the heavenly ranking list.

There are even six or seven people who are obviously better than the Wulong Taoist group.

Most likely it is the legendary Eighth Heavenly Powerhouse!

No wonder even the Tiance Mansion and Baolong clan are so jealous.

If you add so many powerhouses, it would be enough to pose a big threat to Erudia.

“Well, yes, there is the

demeanor of the evil god!” A white-clothed swordsman, with a sword hanging on his waist, holding a folding fan, is handsome.

In particular, a handsome face is even more deceptive.

Laughing makes people feel like spring breeze.

Don't be fooled by his appearance!

This guy is known as the Evil Sword God!

The murderous demon!

“Yes! If you take time to reach the realm of the evil god!”

A person hidden in a black robe had a hoarse voice as if he was scratching his nails across the glass.

The Seven Evil Gods Black Evil God under Huoyun Cthulhu!

... The

seven evil gods are all the strength of the eighth heaven!

After the Evil God Huoyun disappeared, the seven immediately hid with their subordinates.

In order to retain strength and look forward to this day.

These seven people appeared together, and few could stop them!

That's why Tiance Mansion was so jealous of the Heretic God's power, and only invited the strongest in the sky list one by one.

On the top of Tiandang Mountain.

There were seven evil gods standing opposite Levi Garrison.

They all obeyed Levi Garrison unconditionally.

At this time, Levi Garrison was wondering if the cheap master was Huoyun Cthulhu?

How does he feel not!

And who is the person impersonating himself?

Why does he use the same technique as himself?

What's the secret in this?

Levi Garrison didn't tell the seven evil gods about this, what if he stunned the snake?

He should check it slowly!

"Little master, all our forces have now assembled! Also, all our whereabouts have been exposed to them!"

"Yes, if nothing else, Tiandang Mountain would have been surrounded by hundreds of miles long ago!"

"This It's a great opportunity for them to catch us all!"

"Soon the army of the Tiance Mansion will attack! At that time, we will be tough? Or something else?"

... the

seven evil gods each express their views, but all look at Levi Garrison, looking forward to Levi Garrison's decision.

This battle is crucial.

If you are not careful, you may be wiped out!

Levi Garrison smiled: "Actually, I have planned!"

"Listen to me..."

Levi Garrison leaned in front of the seven and whispered his plan.

"What? How can

this work?" "Yes, this is definitely not possible!"

... The

seven evil gods immediately opposed.

"Are you not listening to my orders?"

"Little Master, I will wait for everything to follow your arrangements!"
