The Return of the God of War [The Protector] Chapter 1875

The rescue team looked at the ruins in front of them, their legs trembling with fright.

too frightening!

Never seen such a miserable scene!

Not only was the base razed to the ground, it was almost destroyed.

No ruins were left.

Before the powerful energy, any matter was dissolved and disappeared…

not only that, but there was also residual energy, covering the entire base, which could not be dispersed for a long time.

Although the current energy is very weak, it is not something ordinary people can challenge.

If it enters the energy field, it will be minced on the spot.

"No, the energy fluctuates too much ahead! This energy is not something our body can bear! Don't enter it rashly!"

"Request support! Request support!" The

rescue team hurriedly asked for support!

If these energies are not dissipated, they will not be able to launch rescue.

At this time, Levi Garrison rushed to the Shenlong Technology Base.

In fact, at the moment of the energy bombardment, Levi Garrison felt it from a distance!

His face changed drastically at that time!

Because that energy is so terrible, terrible!

Even Levi Garrison sighed!

If he was bombarded by the energy just now, he would either die or be injured.

What a terrible energy bombardment!

According to the direction, it seems to be the Shenlong Technology Base.

Levi Garrison quickly speeded up!

He prayed silently that there would be no accident! Don't have an accident!

If something happens, he will not be able to forgive himself!

When Levi Garrison came to the Shenlong Technology Base, he was frightened by the scene before him.

How could this be?

too frightening!

The entire base was destroyed!

"Zoey!"

Levi Garrison rushed into the base.

The remaining terrifying energy began to strangle Levi Garrison.

"Ah!!!"

Levi Garrison roared wildly, blasting all the energy away!

He rushed into the ruins to find someone!

The rescue team behind him was also shocked by Levi Garrison's crazy behavior.

But seeing that the energy was blown away by Levi Garrison abruptly.

They immediately began to rescue!

A rescue team of thousands of people rushed into the base immediately to start rescue.

&   Levi Garrison digs the ruins with his bare hands crazy!

Just digging a place is disappointed.

Disappointed by digging a place!

Not to mention that the plum was dyed, but there is no sign of life.

In the face of this kind of energy, let alone a living person, there will be no trace of blood left behind.

You can understand this terrible burst of energy as a super high temperature, enough to evaporate everything.

So even if Levi Garrison digs three feet into the ground, he couldn't find a living one.

After the rescue team joined, they excavated the ruins with Levi Garrison.

Attempt to find survivors!

Time passed by every minute and every second.

Almost a fifth here.

No one was found!

"It's terrible! Under this level of bombing, even the highest density armor can be shattered. How can people live?"

"Yes, I have never seen an accident of this level! No one can live! "

Several rescue team members are discussing where.

After Levi Garrison heard it, he was furious.

"Impossible! Someone must be alive! Impossible to die! Impossible!!!"

…

Everyone was taken aback by Levi Garrison, who was stunned.

Immediately dodge aside.

Don't dare to speak any more.

Say a few more words, Levi Garrison can kill them!

"Look! Keep looking for them!"

Levi Garrison yelled.

He searches with the rescue team!

Shenlong base is too big!

Only half of the search took an hour.

The result was desperate.

There are no signs of life.

Levi Garrison didn't see any clues about Zoey either!

Anxious!

He was sweating anxiously, and his body was trembling.

His face was pale, and his eyes flew out.

If something happens.

He couldn't imagine what it would be like!

Find!

Keep looking!

At this moment, the rescue team heard a message: "I have discovered it, I have discovered it!"

Levi Garrison heard the news and rushed up immediately.
