

The Return of the God of War [The Protector] Chapter 1890

In fact, what just happened made Richard understand everything instantly.

Why did Xu Zhengjie disappear and still have consciousness?

Why does Zoey seem to be okay, but this happens frequently?

In fact, there is a close relationship between the two, even closely dependent!

That's right!

Xu Zhengjie is dead!

Death is thorough!

The former flesh and blood body is long gone!

Now the pure energy body was defeated in an instant!

There is no possibility of restoration!

As for why consciousness still exists?

That's because Xu Zhengjie's consciousness partly exists in Zoey's mind.

Consciousness can be understood as information and transmitted to Zoey's mind.

Before the particles collided, Xu Zhengjie's experiment was to let his consciousness enter Zoey's mind, thereby controlling her and turning her into a puppet.

But it failed at the last second.

Despite the failure, most of Xu Zhengjie's consciousness was transferred into Zoey's mind as a stream of information.

There is more or less the second person's consciousness in his mind.

This is extremely scary!

This is why Zoey has a splitting headache.

And in the Shenlong Science and Technology Base, why Zoey has images of various laboratories in his mind.

She has never been to other laboratories either!

How come there are records of these laboratories?

This is Xu Zhengjie's memory at all!

Why did Richard and the others test Xu Zhengjie's consciousness and Zoey would have a headache?

That's because Xu Zhengjie's consciousness is in Zoey's mind, which stimulates Zoey's brain.

Therefore, Richard's men will receive intermittent signals subsequently.

That is when the two consciousnesses of Zoey's brain stimulate each other, it will be strong and weak.

Sometimes consciousness doesn't exist, it's because Zoey fainted.

The onset of Zoey's symptoms was because Xu Zhengjie's consciousness squeezed and stimulated her brain nerves.

Two kinds of consciousness exist in the mind, and they collide and stimulate each other, which makes Zoey like this.

Even Zoey would make some strange behaviors from time to time, exaggerating to say that Zoey's temperament changed drastically.

This is why Zoey has changed so much!

Currently, only Richard knows.

It was also discovered by chance.

The Xu Zhengjie he was looking for was dead, and only the consciousness was in Zoey's mind.

The only way to get Xu Zhengjie back is to let Xu Zhengjie's consciousness occupy Zoey's brain.

This is easier said than done, but it is more difficult to do than to climb to the sky.

Almost infeasible!

If Richard brought Zoey to the War Eagle Nation, he might be able to study it slowly.

But Wen Lei refused.

Richard's plan fell through, so he had no choice but to make a desperate move.

Maximize the stimulation of plums to dye the brain!

Or let Xu Zhengjie's consciousness dominate!

Or let Zoey's consciousness be completely confused!

Regardless of the result, Richard would like to see it.

The more the stimulation, the greater the pain of plum dyeing.

Zoey is like a beast, going crazy.

"Boom..." At

this time, the earth was shaking, shaking everyone in a hurry.

Even Richard had a bad feeling in his heart.

He was scared.

Put on the invisible armor.

“The biggest!!!”

Richard ordered.

The instrument is turned on to the maximum state.

The most irritating to plum dyeing.

Wen Lei felt that if this went on, Zoey’s head would explode.

She wanted to stop it.

“Don’t stop it, victory or defeat depends on this!”

Richard shouted.

Everyone can only watch and maximize the stimulation.

A bad premonition flashed in Wen Lei’s heart!

She couldn't judge whether it was good or bad now...

"It's just this moment!"

Richard also shouted.

"Uh!!!"

Zoey's scream became louder when the stimulation reached its maximum.

"Rumble..."

"Crack!!!"
