

The Return of the God of War [The Protector] Chapter 2051

After Rex got the news, he contacted Richard as soon as possible.

One hundred billion more is a small amount for Blackwater.

The right of use has changed from permanent to five years, which is a bit difficult to accept.

So he has to ask Richard.

“Five years? Add 100 billion? Haha, this is in line with the style of the big summer people and money fans! If this thing goes too smoothly, I suspect fraud. If there are more conditions, then it is true!”

” Although five years are not long, our experts have assessed that as long as our machines are in place, we will definitely be able to mine all the sunstones within two years! Five years are too much!”

Richard laughed.

“This condition is acceptable, let someone do it right away!”

“In addition, once you get the right to use these six pieces of land, send all the instruments and technicians to enter and mine immediately, the sooner the better. Now you can arrange it.”

Rex Nodded, “Understood!”

Richard laughed and said, “Erudia, Erudia, for the sake of a mere 100 billion, dare to give this to me? You really don’t know how much the loss is! Hahaha...there will be you at that time Regret it!”

...

After receiving Rex’s promise and a subsidy of 100 billion yuan, the four young masters immediately signed an agreement with related personnel and the Wen family.

The literary family is also dumbfounded.

They didn't know what was going on. Suddenly the deadline was changed to five years, which was 100 billion more.

It seems that some experts who talked about cooperation helped them win it.

But why not do it?

So many benefits.

The four young masters brought the agreement and brought them back like crazy.

Looking at the agreement, everyone at Rex was overjoyed.

It was the first time to send the news back to the Gods Laboratory.

Subsequently, Rex signed a cooperation agreement with the Big Four on behalf of the Blackwater Company.

The Four Young Masters will become the spokesperson of Heishui Company in Erudia in the future.

To put it bluntly, it is a puppet!

The Four Great Young Masters and everyone understand it in their hearts.

But countless people wanted to be this puppet, but there was no chance.

The Four Great Young Masters completely became famous in the circle, attracting the envy of countless people.

Rex was not idle.

All kinds of machinery and equipment and technicians were transported from the other side of the ocean in the first time.

The Four Great Young Masters do everything they can.

In less than eighteen hours, the personnel of the mining facilities in the six production areas were all ready.

Mined directly.

Speed and efficiency shocked the world!

Richard's philosophy is to mine all the sun stones in the shortest time.

Richard used video and cloud to supervise the mining site.

Rex Jimson and others directly supervised the scene. After all, it is the first time to mine, and there must be no mistakes.

"Mr. Richard, three days later, our first batch of mining is over! It is estimated that all the quantities in the six major producing areas will be more than what you sneaked into Erudia with someone before!"

Rex laughed.

Richard also smiled.

"Yeah, at that time, we took advantage of our busy schedule for a long time, and it was better to mine now! It will be fine in the future. We will mine as we want.

The Return of the God of War [The Protector] Chapter 2052

I don't know if Levi Garrison brought too much shadow to him, or he was afraid of being beaten.

Jimson is now the shadow of the cup bow snake.

As long as there is a little bit of wind and grass, Jimson will be terrified.

It seems to be a persecuted delusion.

Now looking at the darkness around him, Jimson felt cold all over, and an uneasy feeling was exposed on his face.

Rex and others saw him strangely.

"What's wrong with you?"

everyone asked.

"I feel someone is staring around! Are your safety measures in place?"

Jimson panicked.

"Look, I said you were scared by Levi Garrison. Now you can't stand the darkness. Don't worry, the surroundings are safe. I will send someone to check it out!"

Rex sent someone to check around. Circle, did not find anything unusual.

"Look, it's okay!"

"You were scared by Levi Garrison! Come, protect him!"

Rex ordered.

The masters of the Lab of the Gods followed Jimson every step of the way.

Jimson felt relieved.

But his feeling still didn't disappear.

I always felt that someone was watching him in secret.

I have to say that this kind of sensitive person has a very accurate hunch.

Levi Garrison has indeed been in this base.

He just wanted to figure out what the sun stone was.

Before coming, he observed this area.

Comparable did not feel the strong energy fluctuations, although there are energy materials, it can not be said to be of the level of the sun stone.

has a problem!!!

Soon Levi Garrison discovered that it was an instrument in the Lab of the Gods that could actually isolate most of the energy fluctuations.

As long as this instrument is on, no one will notice strong energy fluctuations.

That's why they can mine with confidence.

Levi Garrison discovered that this is an instrument that affects the magnetic field.

Not only can it isolate energy fluctuations, it even has an impact on warriors and superpowers.

Entering this area, Levi Garrison felt that all aspects were suppressed.

It is impossible to fully display the strength.

horrible!

Is the technology of the Gods Laboratory to this level?

What's more, this is only used to isolate energy fluctuations.

If it is used exclusively as a weapon and put into battle, it is even more terrifying.

Only one instrument can suppress the martial artist!

Levi Garrison felt the horror of the Lab of the Gods.

This alone is enough to shock people.

It seems that dealing with the Gods Laboratory is still a long-term thing.

Don't worry, you have to come bit by bit.

The Lab of the Gods showed only a little bit now.

If the Lab of the Gods showed true strength, Levi Garrison would be afraid.

At this time, Levi Garrison had already sneaked into the mining site.

“Boom!!!” At

this time, he already felt a strong energy fluctuation.

Too strong, too strong!

Sun Stone! ! !

Levi Garrison also saw it.

It is indeed a stone.

It is just a kind of transparent crystal, which contains extremely strong energy.

If ordinary people get close, it is estimated that they will be obliterated invisibly by the energy contained in it.

Can't bear this terrible energy directly, it will be squeezed into meatloaf

The Return of the God of War [The Protector] Chapter 2053

Mining sunstone!

It will definitely cause the loss of sun stone and the loss of energy.

If the technology is immature, this loss is extremely large.

What's more, the emission of energy may cause disaster.

However, the instruments in the Lab of the Gods actually achieved almost zero loss.

This is also terrible.

Finally, the instrument installed with the sun stone is the most terrifying, and it completely retains the energy of the sun stone.

...The

Lab of the Gods is terrifying! ! !

After one night, Levi Garrison had understood everything about mining.

Including the storage and transportation of sun stone.

The next thing is to wait for the transportation in three days...

With Zoey's crazy efforts these days, her strength has been improved again.

She can even draw inferences from one another to unlock the potential of her body more and more. .

"The Blackwater Company has signed a contract with the Big Four. It seems that they have some conspiracy to come to Erudia. All the leaders are here! Jimson, the young owner, is here!"

"I remember that Jimson brought the news that his brother was on Golden Harbor Island. It was passed to the Lab of the Gods, and he was also one of the murderers who murdered his brother!"

"He was right! He was indeed a murderer!"

...

Wen Lei and Mia (Zhou Nanyan) were discussing about the Blackwater Company.

Zoey, who had just left the customs, heard all this in his ears.

“The murderer who killed King’s Landing came to Erudia?”

Zoey asked.

Wen Lei nodded, “You can say that! Heishui Company has an unshirkable responsibility! They are one!”

After saying this, Wen Lei immediately realized something.

“Zoey, calm down, don’t think about killing them! This is not the time!”

Wen Lei immediately persuaded.

Zoey nodded, “Don’t worry, I have a sense of measure.”

Her sense of measure is not just as simple as that of the Blackwater Company. She wants to uproot the laboratory of the gods.

..... The

past few days have been difficult for anyone.

Especially for Richard and the others.

He would not be at ease if he did not see the Sun Stone.

So in the past two days, he put down everything and kept an eye on the mining situation.

In the past two days, the various forces in Erudia have been vigilant and began to inquire about what the Blackwater Company is doing.

Including Messiah and Tiance Mansion and so on.

The Four Great Young Masters and their families have already understood that the Heishui Company is for the new energy sources in these production areas.

They are already mining frantically.

It's not like I said before, start cooperating with them.

not at all.

This is basically deceiving them.

But they have no complaints.

Whatever Heishui Company wants to do, it's up to them.

They are already a cooperative relationship anyway.

The name of the Blackwater Company is enough.

They responded quickly in Tiance Mansion.

It has gradually become known that the Blackwater Company is mining materials on these six plots.

I don't know what it is, but it will be exposed soon.

But it's useless to know it.

You can't get the Heishui company out, right?

...

Soon the time of three days came.

In these three days, people like Richard and Rex basically didn't even blink their eyelids.

The first sunstones mined finally recovered.

The Return of the God of War [The Protector] Chapter 2054

Even in Richard's analysis, Tiance Mansion will be escorted secretly accordingly.

After all, something went wrong, and they couldn't hold back their face.

Apart from other things, Erudia's reputation is also to be considered.

Richard was indeed right.

Tiance Mansion really arranged for someone to watch it in secret, and was afraid that someone would do it.

The matter is small, but the face is great.

Six transport teams from six major regions arrived at the port safely.

As Richard expected, no one stopped or snatched it.

No accidents at all!

Rex, Jimson and others specially escorted six batches of sun stones to the port.

Watching all the sun stones move onto the ship.

They all breathed a sigh of relief.

As long as you leave Erudia, you will be safe everywhere.

“Mr. Richard’s mission is complete, you can wait to accept it!”

Rex talked to Richard.

“The biggest hidden danger lies in Erudia. Once Erudia is out, who would dare to move the things in my Gods’ laboratory in the whole world?”

Richard laughed.

This is not just casual talk, it stems from the hegemony of the Warhawk Nation and the terrible nature of the Lab of the Gods.

The name of the person, the shadow of the tree.

Who dares to move the things in the laboratory of the gods in the world?

It's too late to hide!

That is to say, Levi Garrison and Erudia dared to oppose the laboratory of the gods before, and the others didn't have the guts at all.

Therefore, Richard has this confidence that as long as the Sun Stone leaves Erudia, it is absolutely safe to transport it from the sea to the Eagle Nation.

No one dared to move at all.

What's more, there are many masters on the escort.

This is safe.

"Now that Uncle Rex has completed the mission, I will celebrate with a few friends!"

Jimson said.

After the task was completed, Jimson became confident as a whole.

The shadow of Levi Garrison is getting smaller and smaller.

"Okay, no problem! The completion of the first batch of sun stones is a milestone for us and it is worth celebrating!"

Rex laughed.

...

“Dip!!!”

Accompanied by the whistle, the ship slowly left the harbor and completely left the territory of Erudia.

Just when everyone thought it was stable, a voice uttered, “It’s time to make a move!”

Levi Garrison had been staring at the Sun Stone.

How could Sun Stone leave Erudia easily?

Since I started in Erudia and affected my reputation, then I would do it outside Erudia.

A few hours later, the ship transporting the sun stone had arrived on the high seas.

This is also the time when everyone relaxes their vigilance the most.

The first few hours, Blackwater has issued a worldwide notice “anyone who dared to touch these things! So Blackwater and laboratory gods will die with him endlessly! Warhawk and even anger throughout the country!”

This As soon as the announcement was made, no one dared to make the idea of this batch of things.

Even some people, including some pirates, remove obstacles on the sea in advance to show their courtesy.

On the ship, the crew and the master escorts began to celebrate.

Either drinking or dancing.

The Return of the God of War [The Protector] Chapter 2055

Ackles and Van der Sek were taken aback by the movement in front of them.

“God, shouldn’t there be anyone who is not afraid of death, right?” the

two exclaimed.

“Boom!”

“Boom!”

.....At

this time, black shadows flew out from under the sea and jumped directly onto the ship.

A small boat appeared around...

“Someone did it! Must protect it!”

Van der Sek called up the masters and prepared to meet him.

It’s just that he just got out of the cabin, and saw a person standing on the highest point, carrying his hands on his back, like a god.

“Kill!”

“No one can take Erudia’s things!”

Levi Garrison gave an order.

The killing began.

...

Originally, the Lab of the Gods didn't pay much attention to this escort, and felt that no one dared to move.

So the escorts are not very powerful.

I just met Levi Garrison.

Soon the whole army was wiped out, and no one was left.

I also borrowed these people to experience Azure Dragon (Qinglong) and them.

Let their strength be improved again.

“Remove all the sun stones! Remember, transport them to the place arranged in advance, and do not expose or leave flaws!”

Levi Garrison personally directs them, and Azure Dragon (Qinglong) is very efficient and efficient.

Everything is done within three minutes.

No one was left, and all the Sun Stones were taken away.

And the speed was so fast that these people didn't even send out the distress signal.

It is the same as they disappeared from the sea.

However, Levi Garrison did not transport the Sun Stone to Erudia. Now the eyes of the whole world are on Erudia, but they will be exposed.

Levi Garrison always stood at the highest point, observing everything.

“In the future, if you bring a sun stone back from Erudia, I will give your last name!”

Levi Garrison sneered and gradually disappeared into the night.

the other side.

Jimson followed the four young masters to the nightclub Hippy, releasing all the recent pressure.

Rex was not idle either, and had dinner with the two beauties.

All worries are left behind.

They don't even want to ask about the transportation, just waiting for Richard's award.

The same is true for Richard. He carefully checked the transport ship a few hours ago.

But later he was completely relieved.

Looking at the world, no one dares to move.

Richard also went to sleep in peace.

When I wake up, the transport ship will almost arrive.

...At

this time, the major forces in Erudia, especially those headed by Tiance Mansion and Yanlong Guard, had gone through a long period of investigation.

Finally know about the sun stone.

Also understood all the conspiracies of Richard and the Lab of the Gods.

They aimed at Erudia in this way because of the abundant sunstone of Erudia.

After Levi Garrison was framed some time ago, Richard had already brought someone to take away the Sun Stone.

It's just that everything is too late!

Today, the six major areas rich in sun stones are owned by the Blackwater Company for five years.

Everything is legal and reasonable.

They can only watch and can't stop the mining...

Regret!!!

It's just that their reactions are too slow!

The attention was all on Levi Garrison, and he hadn't thought about other things.

Only Levi Garrison was at the forefront of this aspect.
