

## The Return of the God of War [The Protector] Chapter 2061

Senseless.

Everyone was dumbfounded.

Even the Lab of the Gods was dumbfounded.

This kind of thing has never been encountered.

Richard thought that everything was perfectly arranged.

Those who have covered inspection guards will not miss a single place.

There is an escort!

There is an ambush!

There is also ready to support at any time!

...

Everything is properly arranged, ready to invite you to enter the urn.

But who can think of it.

Everything he arranged was destroyed at the same time.

This is also terrible!

The key is how does the other party know all this?

The transportation team is resolved to understand!

The detection stations in the sea area failed to understand!

.....

But how did the eighteen teams in ambush discover it?

How did the instruments hidden on the seafloor discover it?

And how did the seven support bases in the sea area be discovered?

This is the first question.

The second question is how to destroy these at the same time?

This strength is a bit too scary, right?

How many can you do in the world?

Desperate!

Richard and the Lab of the Gods were completely hit this time.

The loss is not only the Sun Stone, but the reputation of the Gods Laboratory.

Everything was rubbed on the ground.

shame!

Great shame!

Two times in a row!

“Hurry up and send someone to investigate! Go and see the scene!!!”

Richard screamed angrily.

The whole person is going crazy.

The Lab of the Gods sent a supersonic vehicle to check the situation.

Whether it was the inspection station, the island, or the transportation team, they were completely destroyed.

No clues were left.

It's exactly the same as the first time.

The other party has calculated everything.

No key useful things will be left.

If you don't want to leave evidence, then the best way is to destroy everything.

You can't even find it at the scene.

Let alone any evidence.

As for the sun stone, it has long since disappeared.

Let alone detected.

Richard's plan to lure the snake out of the hole ended in failure.

This time, apart from the lack of sunstone, the loss was too great.

It is invisibly weakening the power of the Gods Laboratory.

Just the seven islands and which inspection stations cost a lot.

It was so ruined, it was almost pierced with a knife.

The master also lost a lot.

More importantly, the Lab of the Gods has become a joke.

This is too shameful!

At this moment Erudia began to cheer.

Sure enough, the Gods Lab didn't let the Sun Stone be taken away...

He Qingxue from Golden Harbor Island was also cheering.

Someone finally inherited Levi Garrison's mission before his death and was stopping them.

But who will it be?

Are Levi Garrison's men?

It seems that the strength is not enough?

On the other side, Tiance Mansion and the others had already begun to doubt the people who did it.

"Do you think it was the hands of a major force in our Erudia?"

This guess is not unfounded.

I did it for the first time, and everyone believes it was not done by Erudia's forces.

Mainly it is too obvious.

But the second time it was different.

Except Erudia

## **The Return of the God of War [The Protector] Chapter 2062**

"The master doesn't know who it is! However, the master said that it is not necessarily Erudia! It may be outside Erudia!"

said the person.

"Huh?"

This surprised Richard.

"The master said that there are many terrorist forces! For example, the Bible organization! For example, the Emperor Organization!"

"The Bible Organization?"

Richard's expression changed.

He has heard of the name of the Bible Organization.

Very mysterious!

The dark god and the eighteen dark angels are all too strong.

Emperor organization? ? ?

Known by a small number of people as the enemy of the Gods Lab.

They are also known for their science and technology, and they are the top scientific and technological forces in the Western Continent.

It's just that the Lab of the Gods has never paid attention to the imperial organization.

In their view, the imperial organization and the Blackwater Company are at the same level.

Where can you become the enemy of the Gods Lab.

So this is not in the consideration of the Lab of the Gods at all.

Now that Huoyun Cthulhu's men reminded him, Richard realized something.

Opponents that are often overlooked will give you a fatal blow at the critical moment.

“Okay, I see! This is a bit of a direction!”

Richard said with a gloomy look. “The opponent made two consecutive shots and showed such a strong strength! It roughly means that they are going to the end with us! The third time they are still Will make a move!”

Huoyun Cthulhu’s subordinate said, “By the way, the master also told me to tell you that you can try to find the sun stone! Even though they make a quick move, but in such a short time, so many sun stones are not far away. Yes!”

Richard’s eyes lit up when he heard it.

“Yes! The amount of Sun Stone is huge! Even if it’s luck, it won’t be too far away! The only possibility is to hide it nearby!”

Richard exclaimed.

“Look, find them for me!”

Richard and his brows finally stretched out.

At least there is a clue.

At least know the direction.

And not surprisingly, the opponent will still act next time.

They still have a chance!

It's just that this time the loss is too heavy!

Richard called out distressed.

This has become his responsibility!

The next arrangement must be foolproof, otherwise he would not be able to raise his head in the Gods Laboratory.

After all, this shame must be washed away!

If the humiliation is added again, I am afraid that Richard's position will be difficult to maintain.

"Quickly check it out for me and prepare it for me!" The

Huoyun Cthulhu promptly reminded the confused Richard to have directions and plans.

Instead of being immersed in the dumbfounded state as before.

The Huoyun Cthulhu is indeed powerful, and he can even stare at the commoner to kill the god.

But he didn't expect Levi Garrison to be alive.

Everything was done by Levi Garrison.

At this moment, Levi Garrison is with Zhuque Azure Dragon (Qinglong) and the others.

“Yes, yes. You didn’t practice in vain these days!”

Levi Garrison smiled and praised.

Levi Garrison is powerful, but in such a wide range, it destroys everything at the same time.

He can’t do it alone anyway.

Therefore, this is a collective action.

It was also Levi Garrison’s early thinking that he wanted to detect Azure Dragon (Qinglong) and they are now

“Dragon Cavalry Forbidden Army, let all of them come to see me!”

Levi Garrison ordered again.

Shortly after.

All the dragoons came.

After getting Levi Garrison’s task arrangement, they left one after another, not knowing what to do.

Zhu Que and the others looked at Levi Garrison curiously, “Boss, what exactly did you arrange for them?”

“You will know this at the time. It is kept secret for now!”

Levi Garrison smiled.

“It’s too difficult for the boss to want to steal the Sun Stone for the third time. Richard must use all his strength to look after it.”

“Yes, again and again, let alone Richard?”

“Boss what do we do this time?”

Everyone looked worried.

Levi Garrison smiled and said, “It doesn’t matter, you can just wait and see when the time comes!”

...

evil door!

It is really rare to succeed in the

first two times in the laboratory of the gods , and the second time it caused the laboratory of the gods to lose so much.

In Erudia’s Rex, Jimson and others were completely dumbfounded.

Not to mention the loss of this wave.

That is, the money they use to mine the phone bill is astronomical.

The cost of these two mining operations was too great.

But all the sun stones were robbed.

They fetched a basket of water for nothing.

“I don’t believe it, this sun stone can’t be shipped back?”

Jimson didn’t believe in evil.

I haven’t slept well these days.

After finally squinting for a while, I dreamed of Levi Garrison... I

dreamed that Levi Garrison was still alive!

He did everything!

“Uncle Rex, I think there is a possibility that I can tell Mr. Richard!”

Jimson said.

Rex froze for a moment, "Huh? That possibility?"

"I think Levi Garrison is still alive! He did all this! I can dream of him after taking a nap in these two days, and he did it in my dream!"

Jimson said very positively.

His hunch is getting stronger and stronger.

"Puff!"

Hearing this, let alone Rex, even the four young masters almost laughed when they heard it.

Can it be like this?

Rex was directly angry, "Jimson, you are crazy! You are really scared by Levi Garrison! I didn't expect a dead person to give you such a big shadow!"

"It's not me..."

Jimson still wanted to explain , he was interrupted by Rex "nonsense! now the whole world who does not know the monarchs of dead leaves, their bodies were dissolved! this is what you know, right? how could he still alive?"

"I ....."

a Timson was speechless.

“But my premonition is very strong, I feel that Levi Garrison is still alive! He often appears in my dreams, I feel...”

“Okay, don’t feel it! If this goes on, I’m sure you will be crazy! If you don’t want to Stay, I can send someone to take you back!”

Rex was already furious.

“That’s not

true ! But I think I can talk to Mr. Richard...” Rex glared at Jimson fiercely. ?”

## **The Return of the God of War [The Protector] Chapter 2064**

These five days have exhausted everyone in the six major sunstone producing areas!

Since entering the station, it hasn’t been idle for a day.

First it was three days of mining, the next day of mining, and now five days of mining...9

consecutive days of high-intensity work, the body can not stand the iron.

Even the masters who protect the production area, they can’t stand it.

It’s not the body, but the will and the spirit are a little broken.

In addition, all the sunstones mined in the first two batches were robbed.

Everyone's mental pressure is very great.

Almost no one has ever rested, even sleeping is a problem.

Even Rex, Jimson and the others did not close their eyes and kept staring.

All personnel in the six major sunstone producing areas are exhausted to the extreme.

Some people even fainted during work.

All areas showed a state of extreme fatigue.

Jimson yawned, "Why are you so tired? I can't hold on anymore!"

"Yes, I don't know what's going on, I feel so tired? Where is the problem?" The

four young masters are also in the same state.

"Something is wrong, why are everyone listless?"

Qin Shao realized something was wrong.

There is an indescribable weird feeling.

There seems to be a problem.

“Can you be energetic? Who can withstand such high-intensity work?”

“Yes, for nine days in a row, it’s no wonder that I can’t be sleepy. I can’t take it anymore!”

...

after listening to other people’s statement.

Qin Shao felt that there was no problem.

Indeed, nine days of high-intensity work is terrible.

Enough to make everyone collapse.

...

“It doesn’t seem to work, this kind of high-strength is too useless! You have to get some laboratory enhancement potions to use!”

Rex also found the problem, and must use special potions to enhance physical strength and mental will.

.

He yawned and commanded Sunstone to load the truck.

Even the people loading the truck are extremely exhausted.

It could have installed all the sun stones in one hour, but it took three hours.

It shows how tired everyone is.

The transportation team starts to set off...

Richard is ready for everything!

Whether it's the transportation team, or everything along the way, there are also support teams.

All to the point of perfection.

Especially after learning from the previous experience.

Richard spent a full five days doing more detailed work. The additional masters, various machines and resources and money he sent out were ten times the previous one.

And Richard led the masters of the Gods' Laboratory to sit in the sea in person.

Richard didn't believe it.

Can the goods be robbed this time?

This is impossible!

In addition, the Fire Cloud Cthulhu and his Black Sun organization also agreed to assist.

Either shoot directly, or help Richard find clues...

Richard and the others have prepared everything.

Waiting for the mysterious forces to take action.

Soon after, the transportation team arrived at the seaport.

After loading the cargo ship easily, set off and headed to the war eagle country.

The eyes of the whole world gathered again, and everyone's breathing became sharp.

Will the mysterious forces make a third move?

Will it be successful after a shot?

After all, everyone knew that Richard had arranged everything.

"Okay, let's start, all teams pay attention! Be vigilant and contact at any time! Report once every three minutes!"

Richard started everything.

**The Return of the God of War [The Protector] Chapter 2065**

Why still no one shot.

Not even the slightest fluctuation was detected in every area he arranged.

This is not normal.

The first two shots were taken after the transportation team sailed for seven or eight hours.

That is the best time.

But now this time has long missed the best time.

According to the speed of the transport team, the agreed location will be reached in a few hours.

At that time, it was already within the scope of the war eagle country.

In any case, it will not be robbed.

“Mr. Richard, did you say that the other party is afraid? After all, we are in such a big posture! Who is not afraid when we meet?”

“Yes! This time it is estimated that the other party expected that it would be impossible to succeed! So just gave up?”

“It’s very possible! If the other party wants to make a move, they have already made a move! It won’t be delayed until now!”

...

In fact, everyone said it makes sense, and Richard thinks so.

“But for us, every second is dangerous! Everyone should be vigilant and not ignore every second!”

Richard still ordered the ministries to stare firmly.

The Huoyun Cthulhu also sent back news in real time.

They did not find anything.

Somewhere outside of Erudia.

Levi Garrison was with Zhuque and them.

Everyone looked at Levi Garrison in amazement.

Levi Garrison was drinking tea with a relaxed expression.

“Boss, are you sure you don’t need us to take action? How long will the Sunstone be transported to the Warhawks? Are you sure we won’t take

action ?” “Yes, boss let us take action? In another four hours, everything is too late! “

“Yes, boss, we can’t give up!”

...

At first everyone thought Levi Garrison had some earth-shattering plans.

Unexpectedly, Levi Garrison stayed still.

Seeing that the sun stone is about to be transported to the war eagle country.

Levi Garrison was still drinking tea leisurely without panic at all.

What is he waiting for?

Everyone is anxious.

Anxiously sweating.

Levi Garrison looked up at everyone, "No one can act without my order!"

"But the boss..."

"Shut up! Listen to the boss' order!"

Azure Dragon (Qinglong), Xuanwu scolded.

Suzaku also coldly yelled, "Richard has already set up a net for the sky and the earth, who of you can break through?"

Everyone was silent.

Stop talking.

.....

Everyone on Richard's side is highly focused and staring at all times.

But the mysterious forces do not appear to live or die.

Richard was helpless.

Time is disappearing a little bit.

The sky is gradually getting brighter.

But the person still didn't show up.

Time continues to pass.

Six hours passed.

The mysterious forces did not take action.

The transportation team entered the waters of the Eagle Nation without any risk.

Completely reunited with the team led by Richard.

Looking at the intact transport team in front of him, Richard was in a daze.

Is this true or false?

Isn't it a dream?

Really shipped back? ? ?

Not just him, everyone has such doubts.

This is not normal!

It's like a f\*cking dream!

Then
