

The Return of the God of War [The Protector] Chapter 2066

This is not too challenging!

keep going!

What's wrong?

Richard is the one who most wants to catch the mysterious forces in one go!

He is looking forward to a positive contest.

such a pity.

These people didn't dare to show up afterwards!

Richard shook his head helplessly.

"Let's go, follow me to see the sun stone!"

Richard wanted to check the sun stone that was shipped.

"Good!"

Everyone followed.

This time it took five days to mine, and the amount is really not small.

A base is packed full.

“Open it!”

“Watch out!”

Richard ordered.

Everyone present was wearing protective clothing.

Richard also wore a special mech.

I was afraid that the energy of the sun stone would be hurt... the

men opened a box, and everyone backed vigilantly.

“Huh?”

But when the box was opened, everyone was taken aback.

Because everyone didn't feel the terrible energy fluctuations.

In the past, even a small piece of sun stone had super strong energy radiation.

What's more, it's normal for a box of sunstones to overturn people with its power.

But now there is no energy fluctuation at all.

unusual!

"What's the matter?"

Richard leaned forward to look.

When he saw the scene inside the box, Richard's face changed wildly.

A face becomes red and bloodshot at a speed visible to the naked eye.

"This, this, this..."

Richard was going crazy, because the box in the box was not a sun stone at all.

Not even half a piece!

The box is full of stones, ordinary stones!

"Boom!!!" At

this moment, Richard's blood pressure rose rapidly.

It went black and almost fainted.

When others saw it, it was the same, almost not scared to death.

"No?"

A bad premonition spread in everyone's hearts.

If that happens.

That is the most terrible.

"Open the other boxes! All the boxes! Open them all!"

Richard yelled like crazy.

The subordinates went to open other boxes to check.

"Boom!"

"Boom!"

...

Boxes opened one after another, and all the ordinary stones fell out of them.

all! ! !

There is no sun stone at all!

“Neither!”

“Neither here!”

“Neither!”

... the

boxes opened one after another, all of them ordinary stones.

Where's the sun stone?

Where did you go?

Accompanied by the boxes being opened one by one.

Everyone's heart sank to the bottom.

There is no sun stone.

Not a single box!

Where is the sun stone?

“No? Did we make a mistake? What if this is the sun stone? It’s wrapped in it!”

someone said.

“Kacha!”

Someone just grabbed a stone and crushed it instantly, without energy.

Another piece is still the same.

...

This assumption is untenable.

“Is it possible that the installation is wrong? Or the energy of the sun stone has escaped during transportation?”

...

Everyone put forward a lot of hypotheses.

At this time, Richard's voice sounded, "No need to discuss and guess! They will still shoot after all

The Return of the God of War [The Protector] Chapter 2067

It is absolutely impossible to adjust the package on the way.

Richard didn't say anything about the arrangement, but still stared at it all the time.

There can be no trace of loopholes.

What's more, the five-day mining volume is too huge, and it is impossible to adjust the contract.

Then it's only when the shipping team is loading the ship at the seaport...

not right!

At that time, Richard had sent a powerful transportation team, staring at it, and there was no possibility of problems.

How can it be possible to adjust so many sunstones?

That can only be... the source of
mining ... the ones

that were installed in the six major production areas before were not sun stones at all, but ordinary stones.

In addition, the transportation device of the transportation team is to isolate energy fluctuations.

So no one knows whether it is an ordinary stone or a sun stone.

All this was done by Levi Garrison who arranged the Dragon Cavalry Forbidden Army to do it.

During these hours, Levi Garrison knew all about the six major producing areas.

Even meticulously, everyone knows what sleeping habits are.

Dragon Cavalry Forbidden Army sneaked into it early.

The original nine days of uninterrupted high-intensity work put all those involved in mining in a very exhausted state.

The Dragoons have the opportunity to sneak in.

Not only that, the Dragoons also secretly moved their hands and feet.

Levi Garrison learned almost all the abilities of the evil god of poison.

It is not a problem to develop a medicine that can cause coma and hallucinations.

The Dragon Cavalry Forbidden Army used this medicine in the six major producing areas, and the invisible gas produced was permeated.

All people have increased fatigue, listlessness, and even hallucinations.

The medicine developed by Levi Garrison will not leave any traces afterwards.

Qin Shao felt right at first.

It is indeed abnormal.

It's just that everyone is exhausted and thought it was caused by high-intensity work.

Therefore, the original one-hour work of loading the sunstone into the transportation device has become three hours.

It's just that everyone feels normal, after all, everyone is too tired.

Even Rex Jimson thinks so.

Richard couldn't accept any feedback, let alone doubt it.

During these three hours, the Dragon Cavalry Forbidden Army quietly transferred all the sun stones.

Then destroy all clues.

No one knows at all.

This is the reason why Levi Garrison is so late.

Because they haven't shipped the Sun Stone from the beginning.

...

"The boss mission is completed! The Sun Stone has also been placed!" At

this time, the Dragon Cavalry Forbidden Army returned.

Levi Garrison nodded and took a sip of tea.

Suzaku and others were dumbfounded.

How is this going?

The task is completed? ? ?

See everyone's doubts, Ye monarchs smiled, "Yes, the task has been completed, Sun Stone has come to our hands."

"What? This is how to do this? We're on hold ah!"

Everyone Going crazy.

"Let him explain it to you!"

Levi Garrison smiled.

Soon Suzaku knew what was going on.

No wonder Levi Garrison is so calm.

It turned out that he solved the problem from the source.

...

Soon news that the third batch of sun stones mined by the Gods' Laboratory was robbed again spread all over the world!

The world was shocked again!

Three full times!

The Return of the God of War [The Protector] Chapter 2068

A hoarse voice came from the other side, "The probability of this batch of sun stones is 80 or 90 in Erudia, and it hasn't been shipped out!"

"My people are staring at Tiance Mansion and Erudia, and there is no change, indicating that the sun stones are completely rooted. It was in Erudia that it was not shipped out of Erudia at all. You can use means to find it in Erudia."

"Huh?"

Richard was taken aback first, and then reacted.

During this period of time, he was thinking about which part of the contract was contracted.

However, he never thought that things were packaged in Erudia.

In his subconscious, where is the safest.

There can be no problem.

Adding to the Huoyun Cthulhu's thoughts last time, it is said that it may be a kind of biblical organization.

This allowed Richard to completely focus on the major forces outside of Erudia.

Never doubted Erudia.

Now as soon as Huo Yun Cthulhu reminded him, he immediately reacted.

This time the Sun Stone was repackaged, and it definitely happened in Erudia.

Then the sun stone that was tuned is definitely in Erudia.

Won't go too far.

After all, Erudia also had people like Tiance Mansion staring at him.

Once let them find out, they will also act.

However, the Huoyun Cthulhu was staring, and none of these forces had anything to do with it.

That means it was not shipped out at all.

“Okay, I get it. This is the first time you and I have a face-to-face conversation, and I have a chance to meet!”

Richard hung up the call.

Immediately arrange for Rex and them to act.

Use all the resources of your contacts to find Sunstone in Erudia.

At the same time, he sent some technicians to carry testing equipment.

He dared not send some strong men into Erudia.

After all, if you send these people, Tiance Mansion will stare at them and even expel them.

These people have no reason.

While Richard was angry, he was fortunate to have Huoyun Cthulhu as a partner.

Always show up when he needs it.

Make up his shortcomings and become his ace support.

...

"The boss just got the information, and Richard sent someone to search for the sun stones in Erudia! I heard from the Dragoons that the third batch of sun stones was hidden in Erudia. I haven't had time to ship it out!"

Suzaku looked at Levi Garrison worriedly.

Levi Garrison smiled, "Let's find it! Let them find it!"

"Huh?"

Suzaku asked suspiciously, "Boss, what if they find it?"

"What if they find it? Can they still be transported away? Will I let them take it away?"

Levi Garrison asked rhetorically.

"Oh oh oh, I understand!"

Suzaku understood in an instant.

It doesn't matter where the sun stone is hidden, but as long as it is in Erudia.

So just like the sunstone that has not been mined in the six major producing areas, even if they find it, they will not be able to ship it out.

It will always belong to Erudia.

This concept has to be figured out.

If you find the Sun Stone, you may not be able to transport it back, or it may be yours.

There is a high probability, or even 100%, that it will not be shipped out.

So the Lab of the Gods is doing useless work at all.

If you have time to find the sun stone, it is better to mine it.

Not to mention it may not be found.

Ray

The Return of the God of War [The Protector] Chapter 2069

At this time, news came.

The third batch of lost sun stones was found in Erudia.

Richard and the others all jumped up.

“Where did you find it?”

Richard asked in surprise and joy.

“This...actually, the Sun Stone has not been transported away, all in the mining area!”

Hesitated, a voice came from the other side.

“Boom!”

Hearing this answer, Richard was almost thunderous.

Looking for a long time.

It turns out that Sun Stone has never left the mining area at all?

The most dangerous place is the safest place?

Richard finally understood.

The mysterious forces just prevented the Sun Stone from leaving Erudia, but did not take it away.

The sun stone is just packaged into ordinary stones in the mining area, and the sun stone is in the mining area.

Was fooled! ! !

Richard’s eyes were scarlet, and his face was stern with anger.

After doing it for a long time, the Sun Stone was in the mining area at all, still in his own hands, and he didn't lose it at all!

But he played around with the laboratory of the gods.

shame!

Great shame!

Richard couldn't wait to hit him to death, he couldn't explain to the Lab of the Gods.

Three times.

It's all being teased!

It would be better if he was robbed for the third time.

This is completely laid out.

“Crack!”

“Crack!”

...

Richard was so angry that he smashed something.

The men next to him persuaded, "Mr. Richard, don't be angry! Although we were tricked, the Sun Stone was retrieved, and it's still in our hands. We won't suffer!"

Others also agreed, "Yes, The most important thing is that the Sun Stone is in our hands!"

Richard suddenly stared at everyone, "Are you fools?"

"Huh?"

Everyone was taken aback.

"The Sun Stone is in your hands? Why is it in your hands? Isn't it still in Erudia? Can you bring it back?"

Richard's repeated questions, everyone was confused.

"If this is the case, I still have sunstone for hundreds of years, but the six major mining areas are all in Erudia! Can we get one back now? Impossible!"

Richard yelled.

Everyone understood what Richard meant.

Now these sun stones are only theirs in name.

Can you really get it?

Can't get it!

With this group of mysterious forces, they don't want to take away a sun stone.

They found the third batch of missing sun stones.

But everyone couldn't be happy.

The result is the same.

Can't be shipped back to the laboratory of the gods.

The most important thing is that even if the Sun Stone is found, there has been no clue about the mysterious force.

Even Huoyun Cthulhu did not find the slightest.

Now Richard faces two choices.

Should we bring the third batch of sunstones back first, or should we continue mining?

The problem! ! !

Richard is a little scared now.

He didn't dare to transport the sun stone.

He was afraid of being robbed the fourth time.

Scared!

Richard

The Return of the God of War [The Protector] Chapter 2070

Richard and everyone were taken aback.

“Something happened again???” But

they had to decide to continue to transport the sun stone back.

It hasn't been implemented yet...

how could something happen?

Everyone stared at the intelligence agent.

“This time something really happened! I just got the news that the sunstone mining area on the St. Lus Bay Island in the Western Continent and the thirteen islands in the Bens Sea area were looted! All the mining bases were destroyed! “

Boom!!!” A

bolt from the blue!

The news came out.

Richard and others were dumbfounded.

Now all the attention of him and the laboratory of the gods is on the Erudia mining area and the mysterious forces.

Where can I take care of the others.

Richard doesn't even care about Xu Zhengjie's experiment now.

But I never thought that someone would actually start with other sunstone mining areas.

Over the years, the laboratories of the gods have established various base laboratories all over the world.

One of the main purposes is to discover and mine solar stone energy.

All over the world, the laboratories of the gods have discovered many locations for solar stone energy.

Further mining...

but everything is done in secret.

It is a level 1 secret of the Lab of the Gods!

Outsiders would never know...

But now, what's the situation?

Listening to the familiar place names, Richard's heart was about to fly out.

These places on St. Lus Bay Island are the key mining areas of the Gods Laboratory.

A lot of sun stones can be mined.

Was it destroyed like this?

How did they find it?

"Puff!"

Richard fainted directly.

Others also felt dark in front of them.

The hands of this mysterious force are too long, right?

Not only the Sunstone mining in Erudia, but also other things now!

It turned out that everyone was wondering whether a certain force in Erudia would resolutely not let the Sun Stone leave Erudia.

Now it seems that this is simply someone who is against the experiment of the gods!

Did not wait for any reaction from the Gods Laboratory.

Another news came.

“A sunstone mining area in the northern glacier zone of the Northern Continent has suffered damage!”

“A sunstone mining area in the southern iceberg zone has been damaged!”

“An extinct volcanic sunstone mining area near the East Island has been encountered Destroy!”

...

There are more than 300 sunstone mining areas in the laboratory of the gods all over the world.

More than 30 people were affected this time.

The distribution range is still very wide, all over the world.

There are from all continents.

The attack range of the mysterious forces spreads all over the world.

It was done at the same time!

Shocked!

The world is shocked again!

Countless people are evaluating the strength of this mysterious force!

Before everyone summed up a truth.

This mysterious force is very powerful, but it can only engage in petty thefts in the face of the Lab of the Gods.

But wherever I thought, there was a huge wave of backhand.

It can move around the world at the same time and destroy more than 30 sunstone mining areas.

It shows that this force is strong enough to explode.

Can directly threaten the gods experiment
