

The Return of the God of War [The Protector] Chapter 2071

“Find it?”

Levi Garrison’s eyes lit up.

He immediately took the information and flipped through it.

The Gods Laboratory has laboratory bases in almost every region in the world.

Surveying energy materials for the laboratories of the gods, etc.

This possibility is the lifeblood of the Lab of the Gods.

What Levi Garrison wanted to do now was to destroy these secret bases one by one.

Erudia must have them too, otherwise how did they find the place where the sun stone is produced?

So when Levi Garrison was deploying the mission at the beginning, one item was to find out the secret base of the Gods Laboratory in Erudia.

These secret bases are the most critical of the Gods Laboratory.

So it is very secret and it is not easy to find out.

Even though the Blackwater Company came to Erudia with fanfare this time, the secret base never showed up.

This created a lot of difficulties for Suzaku and the others.

I haven't found it until now.

This secret base is still under investigation in Erudia, looking for more energy sources, this time in the Kunlun Mountains.

Suzaku discovered it by them.

"It turns out that there is not only one base in Erudia, there are six bases!"

Levi Garrison glanced at the list and couldn't help saying.

Zhuque said, "It's estimated that the various gods' laboratories have taken care of it. Otherwise, more than a dozen or more than 20 are possible! There are more places where sunstones are produced." Levi Garrison nodded, "I have to say, the gods' laboratory horrible, footprints all over the world! in addition to them, who can do it? I do not know the real core of the gods laboratory is much more shocking, they really do not know the technology has reached even

what level "

everyone complexion Be solemn.

Don't look at how badly it is hitting the laboratory of the gods now.

But let alone the lifeblood of the True Gods Laboratory, I have never seen it before.

“What about these secret bases, boss?”

Suzaku asked.

“Control it!”

“Now the mining of the sun stone is bound to be obtained! The whole world will start here! We are lack of technology, let alone mining, there is no way to find it.”

“So these people must control it. For our use! We need to survey the sun stone technology and also mine the sun stone technology!”

“Understand! I will do it right away!”

...In

just one night, Levi Garrison sent someone to control all the secret bases. .

Richard and the Lab of the Gods were really busy this night.

Damaged everywhere, checked everywhere...

Early in the morning, Richard took a breath.

Just when I was about to rest, there was another news.

“Mr. Richard has something

wrong again !” “Let’s talk? What’s the matter?”

Richard was numb now.

Too much bad news.

“Our six secret bases in Erudia have disappeared for no reason, and people can’t contact them at all! All the instruments are also in a closed state, I am afraid they have been destroyed by the mysterious forces.”

Hearing this, Richard’s face changed. NS.

“Can you find this? Even in Erudia

The Return of the God of War [The Protector] Chapter 2072

“You?”

Richard looked at the servant in surprise.

This kid is called Li Shiji and he is from Star Country.

Obviously high-tech talents.

But give up all the good life, come here to apply for a servant.

Pour Richard coffee all day long.

In order to want to enter the laboratory of the gods.

“Yes, I have an idea!”

Richard was not hopeful, and he nodded. “Well,

let’s talk!” Just listen to it casually.

“From our point of view, looking for a needle in a haystack now! The other party deliberately targeted us, and it is impossible to leave us any clues.”

“But they are not ghosts for such a large-scale operation. It’s not a god, how could it not leave a trail of trails?”

Richard seemed to think of something, his eyes lit up.

“Yes, as long as they move, there will definitely be something left. It’s just that our angle can’t be found. You continue to say!”

Li Shiji smiled and continued, “Our angle can’t be found, it doesn’t represent other people’s angles.”

Ca n’t find it.” Richard came to the spirit and looked at him carefully.

“My idea is very simple, issue a reward order! Let more forces and more people help us find these mysterious forces together! As long as our conditions are good, we can attract more and more people to participate!

At that time mysterious Every time the forces act, the difficulty will increase, not just facing us! To put it in exaggeration, they may have to face the world! Their action is equivalent to exposing to the world!”

Li Shiji said his plan.

Richard slapped his thigh immediately.

“Yes, although we are strong, we don’t want to cover everything! We still need other people’s help! If other people can work for us, they really have nowhere to run!”

Richard yelled immediately, “Come on! , Immediately issued a reward order in the name of the Gods Laboratory and the Blackwater Company...”

The conditions for the reward order are very rich.

Even some clues can be rewarded with sky-high prices.

Including resource technology and so on.

Everything!

As soon as this reward order was released, everyone went crazy.

They want to help the Gods' Lab to unearth the mysterious forces.

Not only that, even the major hidden forces on the mysterious dark web have also taken action.

These dark forces hidden all over the world may even be a little afraid of the Gods Laboratory.

Some ancient forces that may have gone through hundreds of years and thousands of years.

There are many of them, even in this era, they are still standing still.

But the conditions set out by the Gods Lab are too attractive.

They are also tempted.

After the reward order was issued, almost the whole world was looking for Levi Garrison and them.

The effect was better than Richard and the others thought.

The number of participating forces is also more!

Looking at the clues presented, Richard was surprised and delighted.

Not to mention whether these clues are useful.

But there was none before.

Now even a clue of direction is fine.

The most important thing is that these clues are really useful after screening.

For example, I have photographed the back,

Li Shiji looked at Richard and said, "Let me talk about my own reasons!"

"I always feel that this mysterious force has something to do with Erudia! After all, the fuse started when Erudia Sunstone was mined! "

So we can ask Erudia's Tiance Mansion or Yanlong Guard to send someone to escort him! At that time, see if they have anything to do with Erudia? The

best mysterious force can appear, we can dig them out directly. No When it appears, the sun stone is also transported back by us."

"We will not lose money anyway!"

"And we can continue to mine the sun stone from Erudia in the future...it will not be blocked..."

Li Shiji was very concerned about this plan. It is self-confidence.

When Richard looked at Lee Seki, he admired the young man more and more.

Really have an idea.

Too many problems have been solved now.

Richard nodded and said, "At this time, I also want to continue to transport the Sun Stone back, forcing the mysterious forces to take action. However, I did not expect Erudia to escort it. This trick is really amazing! I can directly judge whether Erudia is. Participated."

"Come on, quickly prepare for me! Start transporting the sun stone back in a day!"

"Set it up for me! Tell me about Rex! And contact Erudia and ask them to send someone to protect this time! "

...

Richard quickly arranged the task.

All hand devices in the Lab of the Gods are in place.

Because of the reward order, the major forces who began to help the Gods' Laboratory also began to wait.

As long as the time comes to help the gods laboratory a little, you will have to get rich rewards.

Almost everywhere in the world was in action, staring at whether Levi Garrison and the others would appear.

...

After Erudiatian Cefu and Messiah received the request, they could only agree.

After all, the whole world is staring.

“No way, send someone to escort it! We can’t refuse!”

“The sun stone being robbed must never happen in Erudia, even in the mining area!”

Tiance Mansion and Messiah Forced to be helpless.

Can only send a team to protect.

Erudia’s reputation must not be damaged in any way!

This time the transportation is unprecedented.

It was also the easiest time for Richard and the others in the Lab of the Gods.

They just sat firmly on the Diaoyutai and waited for Levi Garrison to appear.

This time, Rex was cautious and cautious.

Make sure that there are no problems in every link.

After confirming that it is correct, the sun stone is loaded into the transportation device.

Let Erudia's escort team check again and again.

After everything is okay, the shipment starts.

With much attention, transportation begins.

...

"Boss and they are clearly targeting us this time! We won't proceed in secret anyway this time!"

"Yes, the targeting is too strong, we don't have any chance!"

...

Suzaku and the others began to worry NS.

One after another looked at Levi Garrison.

The opponent deliberately targeted, from the source, halfway and end, every link was stuck.

In addition, thousands of forces are still helping them, as long as Levi Garrison and the others do something, it will definitely be exposed.

And also deliberately let

The Return of the God of War [The Protector] Chapter 2074

Everyone was astonished.

Is this giving up?

Still do it recklessly regardless of risk?

But this risk is too great.

It will almost fail.

But the Sun Stone must not fall into the hands of the War Eagle Nation!

“Boss, tell us the truth, do you have any coup! You are already ready!”

Everyone was anxious, wondering if Levi Garrison was ready.

Levi Garrison glanced at the crowd and shook his head, “No!”

“Listen, no one is allowed to act rashly without my order! Offenders are dealt with by military law!”

Levi Garrison swept the crowd and warned.

.....The

transportation team departs.

Escorted by all parties.

During the escort, check every half an hour.

Confirm that it is correct, and then continue to set off.

So repeatedly, all the way to the harbor safely.

Richard deliberately arranged for his cronies to wait in the harbor, and the Sun Stone came to look at it.

“No problem!”

“Start loading!”

.....The

Great Summer Cebu and their escort mission has been completed.

At least there were no problems in Erudia.

They also breathed a sigh of relief in Tiance Mansion.

They were afraid that the mysterious forces would take action in the territory of Erudia, so it was impossible to tell at all.

It will be condemned by the international community, thinking that Erudia did it, or Erudia is an accomplice.

...

Richard and the others have been staring.

Seeing this, Richard sighed, "Does it really have nothing to do with Erudia?"

"Mr. Richard, let's watch the next journey!"

Li Shiji reminded beside him.

Nautical transportation continues!

Still very cautious.

Staring at it all the time, but after a while, I have to check again to see if it is still there.

So repeatedly.

One hour.

Nothing unusual.

Two hours.

Nothing unusual.

...

Ten hours have passed.

Still nothing happened.

But Richard and the others are cautious.

Checking it all the time, after all, I was scared the first few times.

For fear of being fooled again.

...

As time goes by, it gets closer and closer to the destination.

Suzaku started to cry in a hurry.

Levi Garrison had an arrangement before, and the Sun Stone had been contracted long ago.

But this time is different.

All the personnel are there, no one to perform the task at all.

Can only watch the Sun Stone being transported back.

“It seems that if we want to keep the Sun Stone from being mined, our own strength is still too weak!
We have to come forward to stop it!”

“Yes, we are subject to too many restrictions! We can only stop a few times! , There is no way for a long time!”

“Hey, we can’t stop this time! Forcibly preventing us from exposing, it is very likely that the whole army will be wiped out!”

...

Richard and Li Shiji are also analyzing.

“After all, our methods are too hard! If you don’t give each other a bit of space, they can’t do anything.”

Richard smiled.

Li Shiji nodded, “If it were me, I wouldn’t be able to do anything. You can’t expose yourself, and you might be uprooted.”

The Return of the God of War [The Protector] Chapter 2075

He has been depressed for many days.

What kind of pressure is he under!

Repeated failures caused his position in the laboratory of the gods to drop sharply.

If you fail again, you will face the risk of a meeting and reprimand.

He is more stressed than anyone.

He kept taking a breath.

In the final analysis, it is to transport the sun stone back.

Now he succeeded.

Richard clenched his fists tightly, and he cried with joy.

Everyone was excited.

Everyone cheered.

A lively scene.

“Hurry up and spread the news! To the whole world! The Sun Stone is shipped back!”

Richard said excitedly.

He arranged for Li Shiji and others to take photos and videos of the scene.

Soon news spread.

The Lab of the Gods successfully transported the Sun Stone from Erudia.

The mysterious forces were stunned, and in the end they didn't dare to make a move, so they could only give the Sun Stone to the Lab of the Gods.

For most forces, they are sad.

They are still waiting for the emergence of mysterious forces.

In order to get clues or grasp, where to go to the Gods Laboratory to invite credit and reward.

The results did not appear.

They are very depressed.

The most depressing is Erudia.

They watched as the Sun Stone was transported to the other side of the ocean, but there was nothing they could do.

That came from the land of Erudia.

It is very likely that the Lab of the Gods will deal with Erudia in the future.

“Can't keep it! Unless we tear our face forcibly! But how can this be done?”

“Hey, I hope they can come out to stop it! But after all, the pressure is too great!”

... the

whole world has mixed reactions.

Some are sad and some are happy.

But they all agreed that the mysterious forces were stunned, afraid, afraid.

After all, as long as you act, it must be under the nose of the world.

They can easily be dug out directly.

No one in this world can fight against the Lab of the Gods!

From now on, the Lab of the Gods can unscrupulously mine Sunstone from Erudia.

No one can stop the footsteps of the Gods Lab!

... When

Suzaku saw the news, they were so angry that they were about to explode.

The boss really didn't prepare anything this time.

Let the laboratory of the gods transport the sun stone away.

They were angry and helpless.

Why can't they be stronger?

If it is strong enough, then everything can be ignored.

They can stop everything openly.

But not now!

Can only watch.

Everyone clenched their fists and vowed to keep themselves strong.

"Where is the boss? Where did the others go?"

Zhuque noticed that Levi Garrison had disappeared.

"Hey, I guess the boss's heart is more annoying than anyone else!"

"Yes, the boss is under the greatest pressure. Now that the sun stone is transported away, he must be the most uncomfortable!"

"Life is like this! You will always face things you can't do!"

“Everyone had better not bother him now!”

...

Richard was really excited here.

“Let Rex and the others continue to mine! Let go of their hands and feet! Everyone has a reward!”

Richard yelled.

The senior management of the Gods Lab praised Richard specifically. <
