

The Return of the God of War [The Protector] Chapter 2076

“Boom!”

“Boom!”

“Boom!”

...

The base composed of eight islands exploded at the same time.

Waves of serial explosions.

The soaring fire light shines here as bright as day.

“Boom...” The

main reason is that this base is one of the energy supply stations of the Gods Laboratory.

In addition to the sun stone, there are too many energy materials on the base.

Once exploded, not only will the energy material be destroyed, some will also explode, and the power will increase dozens of times, even hundreds of times thousands of times.

The terrible energy radiated out was almost all devastating.

So the explosion just now is just the beginning, one explosion can cause a chain explosion.

And the power is getting more and more terrifying!

“Boom!”

...

At first, one island exploded, but now three islands exploded.

Then there were four islands;

five islands;

... the

last eight islands and all connected areas all exploded.

The terrible power affects the surrounding seas.

The sea began to tremble, and there were waves everywhere at a height of 100 meters, huge vortexes were surging, and the seabed changed, as if a tsunami was coming.

“Hurry up and protect Mr. Richard! Escort Mr. Richard out of here!”

everyone shouted.

A strong rushed over to protect Richard.

At the same time, the special aircrafts of the Gods' Laboratory were activated one after another, allowing all the high-level and core personnel to ride.

"Hurry up! Stop it!"

Richard didn't want to leave for the first time, but wanted to stop all of this.

"It's too late, Mr. Richard! When the incident happened suddenly, we had no chance to react!"

"Our facilities were destroyed too much! With the leakage of energy materials! The power is too amazing, we can't stop it at all!"

.....

Now the entire base is helpless, the only way is to evacuate and minimize the loss as much as possible.

"Not good!!!"

Richard suddenly remembered something.

"The sun stone!!!"

"The sun stone is still there!"

.....As

soon as Richard reminded, everyone reacted.

The sun stone has not been installed, if the energy of the sun stone is excited.

The consequences will be unimaginable...

“Hurry up...”

Richard said before he finished speaking, he saw with his own eyes that the explosion range spread to the area of the Sunstone ...

“No, withdraw!”

Richard just finished shouting. There is silence between heaven and earth.

All voices are covered up.

The mushroom cloud rises!

“Boom!!!” The

Sun Stone exploded.

The terrible energy overflowed for the first time, destroying everything.

All the buildings on the island instantly turned into nothingness.

The personnel on the island disappeared instantly, with no bones left.

horrible!

It's terrible!

Richard opened the special mecha on his body for the first time and protected him tightly.

He saw with his own eyes that the people around him disappeared one by one.

The island was torn apart, and the base building was directly ground down.

Doomsday sight!

The Lab of the Gods has simulated apocalyptic scenes many times!

The one in front of you is!

Even more terrifying, this is just the beginning... the

sun stone explodes one after another, and the energy inside is all

The Return of the God of War [The Protector] Chapter 2077

If it goes on like this, it won't last long.

Everyone's mechas have to be shattered.

It's all going to die!

“

Help me!!!” Richard pressed a distress button at a critical moment.

Thirty seconds.

Eight superpowers thus appeared in front of Richard, and their super powers were displayed.

Light shields stood in front of them, stubbornly blocking the energy diffusion of the sun stone.

“Wow!” At the

critical moment, Richard felt lightened.

He was dragged away by his men.

Li Shiji and others were also rescued.

This is the privilege of Richard as the core staff of the Lab of the Gods.

You can press this button at the most critical moment to get the limit for help.

Unless the core personnel of the Lab of the Gods can use this privilege, no one else has the opportunity.

If it's the situation just now, I can only die.

Richard used the privilege to rescue him from the mysterious eight powers who descended from the sky.

This is the ultimate rescue system of the Gods Laboratory.

But the speed is so fast, mainly because the rescue team is nearby and close.

If it is too far, it is absolutely impossible to arrive so quickly.

Looking at the doomsday-like scene below.

The fire has spread for thousands of miles, and the explosion can continue. The mushroom cloud has been soaring, and the thick smoke obscures the sky.

Richard's brain was blank and his eyes were empty.

With such a large base, how could the huge area composed of eight islands be smoothed out? ? ?

More than that!

There are fewer than five hundred survivors of the tens of thousands of people on the base.

Either it runs fast.

Either the strength is strong enough to survive the explosion.

If he is not qualified to ask for help at the limit, he will also have to die.

The most frightening thing is that so many energy materials are all destroyed.

The sun stones that could be supplied for half a year and the sun stones that were just shipped back were all destroyed.

There is nothing left...

Although there were losses before, it was all a little trouble.

Basically, it tickles the Lab of the Gods.

Not even tickling enough!

But this time is different!

The loss is too great!

Unable to bear the loss!

The key is that this base is one of the largest energy supply stations in the

Gods Laboratory ...It is equivalent to the arm of the Gods Laboratory being chopped off.

Since the establishment of the Lab of the Gods, it has never suffered such a big loss!

Everyone in the Lab of the Gods was dumbfounded.

Silence!

I thought it was a success, but the Sun Stone was transported from Erudia, and I can mine it well in the future.

That's the sunstone energy that can supply a hundred years.

But I didn't expect it to be gone in a blink of an eye!

The sun stone is gone!

All energy materials are gone!

The eight islands are gone!

A huge base is gone!

...The

front-to-back changes are so great that people are caught off guard and simply unacceptable.

One day, one place...

A pair of eyes in the sea of fire kept watching everything.

It was Levi Garrison.

Seeing everything destroyed, he turned and left.

That's right!

Levi Garrison did everything!

The Return of the God of War [The Protector] Chapter 2078

After all, he wants to transport the sun stone to a location.

It is precisely the Lab of the Gods who are fanfare, waiting for the emergence of the mysterious forces, but also let the major forces around the world supervise and escort.

It is equivalent to completely exposing this base to the eyes of the whole world.

Everyone didn't realize this at all.

Everyone has preconceived notions, and their thinking is in the laboratory of the gods, and they are all thinking about how to dig out the mysterious forces.

But I didn't expect to expose myself first.

And I didn't expect that the other party was also looking for your secret base.

Levi Garrison searched for a long time and didn't find it, but this time following the trail of the transportation team, he found it easily.

This was something no one had expected...

Levi Garrison had gained so much this time.

It's not just that Erudia's Sun Stone was prevented from getting into the hands of the Gods Lab.

It also destroyed a super important supply station of the Gods Laboratory.

This time Levi Garrison really hurt the Lab of the Gods.

It was also considered the most vicious counterattack since being persecuted by the Lab of the Gods for a long time.

It really hurts to the point.

Levi Garrison left, and no one found them.

Even the eyes of the major forces in the world are staring.

But they all stared at the transportation route, not at this base.

What's more, Levi Garrison was acting alone, and they couldn't find out anyway.

Richard and the others were taken to a certain part of the Eagle Nation.

"Puff!" After

landing, everyone fell to the ground softly.

Like a living dead, Richard has no consciousness, and his eyes are not moving.

The same is true of Li Shiji and them.

Lying on the ground motionless, just like a dead body.

This devastating explosion directly wiped out everyone's hearts.

This time the blow was too big and too big.

Hit Richard directly and shut himself down.

"Come on, check the extent of their physical damage first!"

“Check again what happened to the explosion, and whether there is any possibility of recovering the loss!”

... The

Gods Laboratory is completely messed up.

When the whole world was immersed in the shock of bringing the Sunstone back to the Lab of the Gods, suddenly the dark web released a piece of news... The

news was a video—the terrible video of the supply station of the Lab of the Gods exploding.

Probably all the scenes of the sinking and blowing up of the eight islands are included.

Registered netizens on the dark web have raised questions.

“What’s wrong????”

“This is terrible, right?”

“Where is the incident?”

...

“One of the bases of the Gods Laboratory was just brought back from Erudia and placed the Sun Stone. Place!”

Someone on the dark web answered this question.

“What

??” “How can it explode? And this power is too terrifying? It’s not a problem to watch the video spread for thousands of miles?”

...

Dark web netizens continued to ask.

“It was the explosion of the sun stone and energy materials! It is so powerful! Not only the sun stone transported back from Erudia in the Gods Laboratory was destroyed! The sun stone and the large amount of energy materials in the base were all destroyed!

The Return of the God of War [The Protector] Chapter 2079

All parties in Erudia are boiling!

It turns out that the mysterious forces have shot at the last moment!

Although failed to keep the Sun Stone.

But the Sunstone Gods Lab didn’t get it either.

They also suffered a great loss!

The various forces who were helping to stare were dumbfounded.

Is the mysterious force taking action?

But why didn't they see it?

They have been staring.

As long as the other party is moving, it is impossible for so many people to see no movement at all.

Wherever they wanted it, Levi Garrison was the only one to do it.

It's not a multi-person action, they certainly can't catch it.

"The Lab of the Gods thought it was in control of the overall situation, but I didn't expect that it was the mysterious forces that controlled the situation!"

"I understand! The Lab of the Gods wanted to attract the mysterious forces out to find them! But the mysterious forces are also looking for the Lab of the Gods Ah!"

"You are looking for me, and I am looking for you too! When you stare at the abyss, the abyss is staring at you too!"

... The

Lab of the Gods was completely shocked.

Richard fell ill directly.

The rest of Li Shiji and others were also traumatized to varying degrees.

It was hit directly.

Faceless!

Mining on Erudia's side also stopped.

Even if they were mined, they couldn't be shipped back. Instead, they exposed their location.

The loss is even greater!

Levi Garrison frightened the Lab of the Gods with his own power.

I dare not mine Erudia's Sunstone.

Together with some bases all over the world, they dare not mine anymore.

I was afraid that Levi Garrison would come to the door...

Levi Garrison's wave not only hit the Gods' Laboratory, but also made them scared.

The Lab of the Gods is powerful, has the most advanced technology, and may even have the most powerful force on the planet.

But so what?

People still bully you and hit you in the same way.

But the point is that you can't even find where people are, and you have nothing to do with it.

...

Erudia's four young masters are a little depressed.

Obviously cooperating with Heishui Company, it suddenly became the envy of everyone.

But who knew this happened.

All the plans have been ruined.

Jimson's whole spirit has become more and more abnormal these days.

Always tell people that Levi Garrison is still alive and that everything is done by Levi Garrison.

But no one would listen to him, and Rex scolded even more when he heard it.

Jimson even shouted to go back.

He can't stay any longer.

I was afraid that Levi Garrison would appear.

“You are really sick now! Let me tell you, Levi Garrison can’t live! This is definitely not what Levi Garrison can do alone!”

Rex said angrily.

Others also said, “Yes, according to your hypothesis, Levi Garrison is alive. But these recent things are clearly done by a big power! The whole world initiates actions together, can Levi Garrison do it alone? Isn’t it possible? “

Yes, Levi Garrison had a lot of subordinate forces before! But we are staring at all of Levi Garrison’s forces, Mr. Richard has repeatedly confirmed! These forces are all in Erudia, and we all know that Levi Garrison is dying... ..”

...

Jimson was silent.

This is indeed the case.

Ye

The Return of the God of War [The Protector] Chapter 2080

“I want to go home, I want to go home now.”

Rex said this, and Jimson became more and more frightened.

He immediately wanted to go home.

“Trash, it’s trash! How can my brother have a son like you?”

Rex was about to explode.

He told the news to Jimson’s father, who was at the helm of the Blackwater Company.

They were very angry at Jimson’s speech and behavior.

Especially Jimson’s father felt that Jimson was ashamed of him again.

At this juncture, Jimson deceived the crowd and had to say that Levi Garrison was still alive.

It is to disturb the morale of the military.

Not to let Jimson go back.

Just stay in Erudia!

“I just won’t go back, I want to see, will Levi Garrison come to look for it?”

Rex sneered.

...

Then the Gods Lab fell silent.

Rex and they are also waiting.

A few days passed, safe and sound.

Rex found in front of Jimson, who was almost in a state of collapse, and sneered, "Where is Levi Garrison? I have been waiting for several days, why hasn't he appeared yet?"

"Do you still have a dream for you every day?"

Jimson's face was pale. "Don't talk nonsense! He will show up! I have a strong hunch!"

"Mr. Richard's brother Jefferson was like that! Levi Garrison was staring at him all the time!"

...

" Hahaha..." When

Rex heard this, they couldn't help laughing.

"It's killing me! There will be a dead man? Movie to see more or to see more? Ye do not say how big summer monarchs god myth it?"

"Appear? Come on, give me a try emerge?"

Lexus Schuyler laughed.

“Yeah, isn’t Levi Garrison alive? Come and kill us? We’ll be wild on the land of Erudia, if you have the ability, come and kill us!”

Other people also clamored.

“Ooo, ooo ah ah! Ah !!!”

This time the face of a few people Gimson Rex suddenly looked behind them frantically screaming.

It’s like hell.

He was trembling, pointing to the back, looking terrified, choking, and unable to make a sound for a long time.

“Back and back...”

Jimson wanted to speak, but his voice was stuck, and he couldn’t make a sound at all.

He was sweating profusely, just like it was raining.

“Ooo, ooo”

Jimson just scared mad, the people are wrong.

“Hahaha...”

At first Rex and the others continued to laugh.

Gradually they realized something was wrong.

Jimson seemed to see something, what was behind them?

The five of Rex slowly turned around, almost frightened by the look.

There is one of them!!!

Levi Garrison!!!

Everyone in the laboratory of the gods and the black water company remembers that face!

Is he alive?

Is he really alive?

Jimson is right?

“People can’t stand the babbling. If you babble too much, you will come, okay?”

Levi Garrison’s voice sounded.

Let Rex and others split their livers and gallbladders.

Everyone fell to the ground in fright.

“Have I said that you don’t want to hang around in Erudia?”

Levi Garrison looked at Jimson again.

“Oh...”
