

The Return of the God of War [The Protector] Chapter 2096

An unprecedented conflict will arise.

Richard and the others arrived at the fastest speed in a flying vehicle.

They can arrive in two hours at the earliest.

As for the vicinity of the Star Nation, all the forces that could be used by the Lab of the Gods or the Nation of the Eagles were sent out.

Stop the Sun Stone from being shipped out at all costs!

Both sides are racing in time.

"It really doesn't work! Let Sanxing Group take out the hole card, which is the one developed with the Lab of Gods!"

Richard issued another order.

The products developed by Zhushen Laboratories and Sanxing Group's laboratories, Richard wanted to use before in Xiong Country.

It's just useless, Zoey was rescued.

Richard will use it this time.

"Not only that, if you send a message on the dark web in the name of the experiment of the gods, anyone who helps us will get a reward! Let all the nearby forces or people go to the star country!"

Richard issued another order.

Richard could not wait to use all his hole cards this time.

Now more and more forces and people all rushed to the star country.

Once something happens, Richard will not give a chance.

...

Levi Garrison personally led people on his way to the Star Country.

"The boss is not good, the Sanxing Group and the major forces of the Star Country have been madly dispatched, and they have surrounded the place where the Sun Stone is hidden. The Kirin Warlord are in trouble and are trying to find a way!"

The Sanxing Group Sun Stone is hidden away from Qilin. Recently, after the accident, Qilin was the first to preside over the overall situation.

But now it is surrounded.

Levi Garrison's face was gloomy.

He is thinking about countermeasures.

Who would have thought that an experimental error in Sanxing Group would blow up the location of the Sun Stone.

People are really not as good as heaven.

“This time we have to expose someone anyway, and we can’t even destroy the sun stone!”

Everyone looked gloomy.

Levi Garrison said with a cold face.

The situation is severe to the extreme.

It's more difficult than ever.

...

On the other side.

The major forces of the star country are madly dispatched.

The largest consortium, the largest dark force, and the strongest supernatural organization have all been dispatched.

Sanxing Group is understandably, the leading consortium of Star Country.

The black hand group, the biggest force in the dark world of the star kingdom, has countless masters.

The Mythical Organization, the strongest organization of super-powers in the Star Nation, encompasses super-powers in the Star Nation and the entire world.

There are other forces all on the way.

Surrounding the hiding place of the Sun Stone is impenetrable.

Among them, the team of Sanxing Group has arrived near the place where the Sun Stone is hidden.

The team of Sanxing Group is very large, and there are large ships parked in the harbor not far away.

The big ship shook violently from time to time, raising waves, as if there was something in it, and it was angry.

Not surprisingly, it contained the secret weapon of Sanxing Group, and even what Richard said-the trump card developed by the Gods Laboratory and Sanxing Group together.

On land, the Sanxing Group's team of hundreds of vehicles all stopped.

There are a few armored vehicles at the end, which are still special armors.

Can block the attacks of super warriors and super powers.

The Return of the God of War [The Protector] Chapter 2097

It can be seen how terrible these young people are.

He is called the “devil” by his own people.

I don't know if they are the trump cards developed by Sanxing Group and Zhuo Shen Lab.

As soon as these young people appeared on the stage, even their breath changed.

Everyone only feels depressed, the feeling of being pulled away from the soul.

Only the people of Sanxing Group know what kind of perverted group this is.

They are the demons from hell.

Also...

everyone looked at the big ships in the nearby harbour.

This is also the super secret of Sanxing Group, the super hole card.

Take it out all at once.

“Boom...”

Suddenly a few super long trucks came in the distance carrying the device.

These vehicles are unprecedented in length and width.

Apparently, there are hundreds of meters.

Still a few.

I don't know what the devices on these cars are for.

It's just that after everyone saw it, their faces changed drastically.

“Even it was taken out? Terrible!”

“We Sanxing basically took out everything that should be taken out!”

“I don't believe that the Sun Stone can fly away

this time ?” It seems that this time the Gods Laboratory Crazy, to Sanxing Group regardless of all costs.

Soon, the masters of the Mythology Organization and the Black Hand Organization all arrived.

There is nothing wrong with the mythology organization possessing superpowers, very strong and super strong.

The black hand organization is the boss of the dark world, and black hand means that one hand controls the world.

They also have a lot of hole cards.

When the three major forces of the Star Kingdom came out, it was simply terrifying.

Surrounded here tightly on a large scale.

The air was also blocked, the ground was blocked, and even the sea was blocked.

Now the probability of transporting the Sun Stone out is zero.

Even the unicorns can't run away.

After determining the encirclement, the Sanxing Group ordered them to further narrow the encirclement and kill the people inside.

now.

In the hiding place of Sun Stone.

Qilin stayed with hundreds of people.

These are the brothers of Xuan Zijun and Huang Zijun.

When they wanted to take the Sun Stone away, it was too late.

The Sanxing Group was too powerful and responded too quickly.

So that Qilin and the others are now surrounded.

Can't get out at all.

"What will the Qilin King do now? The opponent is accelerating to shrink the encirclement. Soon we will all be exposed, and the Sun Stone will not be able to keep it."

The boss of Xuan Zijun asked.

"Yeah, if the other party is pressing, we can't get out, and people outside can't get in. In the end we all stayed here."

Huang Zijun's boss also said.

Qilin looked ruthless: "It really can't, destroy all the Sun Stones!"

"In the end

, we can only take this step!" "But, we can reduce casualties! We have a bloody road, and the King of Qilin will cover you. Get out! We and the Sun Stone will die together!"

"Yes, let us take the Kylin War King. You are better than us, and staying with the boss has a greater effect. We are willing to coexist and die with the Sun Stone!"

everyone said.

Qilin glared at everyone: "f*ck you! Can I still abandon you? Then am I still called Qilin? Look at

The Return of the God of War [The Protector] Chapter 2098

Before Levi Garrison destroyed the sun stone very simple, as long as detonate any sun stone, once the terrifying energy radiates, it can cause a series of reactions, and all the sun stones will explode.

But now, the other party uses a device that isolates energy.

The terrifying energy in the Sun Stone was isolated and blocked, and could not explode at all.

Qilin and the others wanted to destroy the Sun Stone, they had to break it piece by piece.

It's very difficult.

Maybe this time, the opponent has all rushed in.

And they themselves are also affected, unable to display their true strength.

"What kind of device is this? Isn't it terrible?"

Everyone was shocked.

In fact, this device is a device that disturbs or even changes the magnetic field.

So as to achieve the effect of isolating energy and affecting the strength of martial artists.

This device came from the several hundred-meter-long trucks just now.

Sanxing Group and Richard had long expected that Qilin might destroy the Sun Stone.

So start this device specifically.

After the device was activated, Sanxing Group immediately ordered it.

“Rushed to protect Sun Stone! All the enemy alive, do not kill!”

“Remember, do not let them ruin stone sun!”

“Quickly quickly !!!”

.....

the order, the major expert All rushed in.

All of the black hand organization and the myth organization sent masters to enter.

In addition to a middle-aged man, Li Zaiwan, the principal of Sanxing Group also has a young and beautiful woman in a windbreaker, as cool as the wind.

Her name is Li Chengmin, regardless of her youth, but she has a high position in the Sanxing Foundation.

He is the leader of the security group of the Sanxing Foundation.

This is an extremely high position in Sanxing Group.

The institution that truly controls the force!

Li Chengmin looked cold, and beckoned at the young people called "devil": "You all go too!"

"Remember not to kill! You must catch everyone!"

These young people nodded one after another. Go there obediently.

Everyone around was amazed.

Admired and looked at Li Chengmin in horror.

Because she is the only one who can dominate this group of demons.

This group of young people would not listen to any orders, only listen to Li Chengmin's.

After Li Chengmin gave the order, this group also joined the battle group.

"Report to Mr. Richard, ten minutes to solve everything, and soon we will know the identity of the mysterious force!"

Li Chengmin smiled.

The encirclement has been completed, and the next step is to arrest.

Richard received the news, but was not happy.

He was very cautious and asked Li Chengmin to stare outside.

He determined that someone would come to the rescue.

There may even be a head-on collision with mysterious forces.

"Mr. Richard is not so exaggerated? To put it more exaggeratedly, we are almost the power of the whole country. Should we be so cautious?"

Li Chengmin is not arrogant, mainly in this posture, who can escape?

"Listen to me right! Even the Lab of the Gods has suffered! Not to mention you!"

Li Chengmin's expression changed now.

“Okay, I understand. Come here, give my order...”

Li Chengmin ordered, always guarding against rescue outside.

This is basically foolproof.

...

“No, people from Sanxing Group rushed in!”

The Return of the God of War [The Protector] Chapter 2099

“Boss, we will arrive at the designated location in five minutes! What should we do?”

“The other party also blocked the air!”

...

everyone asked anxiously.

“When will Richard arrive?”

Levi Garrison asked.

“Huh?”

Everyone was taken aback.

At this time, Levi Garrison actually asked Richard.

“Here in half an hour!”

But Suzaku still inquired and answered.

“Hold him as much as possible! Extend his time here!”

Before the voice fell, Levi Garrison had already stood up.

Go to the door of the cabin.

“Boss, what are you.....”

Everyone was puzzled.

“Just listen to my command!”

Levi Garrison opened the hatch and jumped straight down.

Everyone was dumbfounded.

That's right.

Levi Garrison jumped from a height of several kilometers.

It turned into a meteor and swooped down.

The speed is getting faster and faster, like a bright flame.

Li Chengmin and other troops were guarding the periphery. At this moment, someone exclaimed, "Look at the sky!"

The sound made everyone look up to the sky.

The streamer falling from the sky is terrible!

Across that distance, everyone can feel the momentum of the thunder.

No matter what it is, even if it is a big rock, the power is amazing when it is dropped from such a high place.

"It's a person! It's an individual!"

Soon Li Chengmin's men detected that it was a person.

"What???"

Everyone was shocked.

Others fell from the sky.

“Block him in the air!”

Li Chengmin ordered.

“It’s late, no chance!”

Suddenly, Levi Garrison accelerated in mid-air and descended from the sky at a speed that his weapon could not catch.

In the blink of an eye, a figure on the retina of everyone’s naked eye gradually became clear.

“Boom...”

Levi Garrison landed.

The ground shook the mountain.

Levi Garrison unbiasedly landed on the truck roof of the Sanxing Group’s magnetic field device.

“Boom!”

“Kacha!”

The power that fell from the sky was too amazing.

It smashed the magnetic field device and the truck directly.

Not only that, but the power was also dissipated.

The earth appeared fine cracks like spider webs, and they continued to extend out.

“Kacha Kacha...” The

surrounding Sanxing Group and other forces' vehicles or machines exploded one by one.

“Boom!!!”

Not only that, but also caused waves in the sea nearby, and all the ships were overturned.

Because of Levi Garrison's landing, this area has become a ruin of the doomsday.

Panic!

Everything is messed up!

Everyone who was guarding the periphery and who was arresting Qilin was in a mess.

Especially when the people inside didn't know what was happening, the ground was shaken.

It's like being bombarded by super weapons here.

However, only Levi Garrison landed.

"Stay steady, steady!"

Li Chengmin shouted.

Richard and the others who rushed to the other side immediately rushed in after they learned the news here.

Only halfway there was harassment by unmanned aerial vehicles.

"Huh?"

"No, the other party came here prepared!"

"Clear

The Return of the God of War [The Protector] Chapter 2100

Levi Garrison simply and generously admitted.

But no one believes it!

I thought he was a fake!

Just like the last time the Underworld God faked Levi Garrison, no one would believe it.

In everyone's consciousness, Levi Garrison was dead. Even if he didn't die, it would be too late for Tibet. How could he report his family?

No one would believe that he called himself Levi Garrison these days.

Even if you have the exact same face as Levi Garrison, no one will believe it.

Disguise.

So imitating Levi Garrison is too simple.

Instead, Levi Garrison told the truth, no one would believe it.

Even if he showed his true face, no one would believe it.

But at this moment, Levi Garrison concluded that Li Chengmin was the leader of these people.

The so-called catching the thief first catching the king, Levi Garrison did not hesitate at all, and turned into a flash of lightning to burst into the crowd.

Levi Garrison's speed was so fast that everyone didn't react at all.

Through the crowd.

He appeared directly in front of Li Chengmin.

Li Chengmin is also a superpower, and his strength is extremely terrifying.

But her superpower is not attack or defense, but manipulation.

For example, why can she control a group of young people known as the devil?

Are they really afraid?

Do not!

She can control it!

Her superpowers can control them!

No matter how powerful they are, they can be firmly controlled by her.

But in the face of Levi Garrison's sudden attack, she didn't have the strength to fight back.

She was captured by Levi Garrison in an instant.

"Papa!"

Levi Garrison tapped acupuncture points on her body a few times, Li Chengmin couldn't move, even her superpowers could not be used.

This...

Li Chengmin's face changed drastically.

Levi Garrison actually used Erudia's ancient acupuncture skills.

This is from Master's ancient books.

It is different from traditional acupuncture points.

The one left by the master is stronger.

In the beginning, Levi Garrison's acupuncture skills were just to control people.

But there was an extra note beside it, it turned out that Levi Garrison didn't care.

But later he realized that tapping the acupuncture points can still control the powers, making their powers unusable.

It is mainly used to seal the meridians of the acupoints, so that your power and abilities cannot be used.

Levi Garrison didn't know what Li Chengmin's supernatural power was. Just in case, he directly sealed the acupoints to lock the meridians.

Make her unusable!

Li Chengmin was captured, and everyone around him reacted.

Thousands of people panicked immediately and stared at Levi Garrison.

"Hurry up and let the people go !!!"

...

Judging from the crazy reactions of these people, Levi Garrison caught the right person.

This is their boss!

Facing these people, Levi Garrison sneered, "Don't move, whoever touches me will squeeze her head!"
The

words came out.

Several of Li Chengmin's subordinates immediately panicked, and they waved their hands and shouted, "Calm all, calm down!"

“Be careful, don’t hurt the team leader, otherwise you will die without a place to bury your life!”

Several people also warned at Levi Garrison.

Levi Garrison sneered, “Really? Then I will kill her, try?”
