

## The Return of the God of War [The Protector] Chapter 2254

When these words came out, Kirin ( Qilin ) Azure Dragon (Qinglong) and others looked at each other.

Everyone is unwilling to face this problem.

Afraid of hurting Levi Garrison.

In the end, Kirin ( Qilin ) boldly said, "The boss said something you don't want to hear! The exercises you passed to us are too basic!

In this cruel age, all kinds of ancient and modern exercises are flying all over the sky! Your skill Fa has been eliminated long ago! It doesn't fit this era at all!" As

if afraid of Levi Garrison's anger, Azure Dragon (Qinglong) immediately added, "Boss! Kirin doesn't mean anything else! The times are developing too fast! There are too many powerful techniques! You This method of exercise has indeed been eliminated! For

example, the ancient exercise method that Kunlun Industry found from the ancient relics has increased us tenfold, or even a hundredfold in one month! But your basic exercise method may increase by less than ten after one year of cultivation. Double! We should be eliminated!" Suzaku also echoed, "What's more, the boss, our foundation is already good enough! This technique of yours is used to lay the foundation! It is precisely because we have a good foundation! So we cultivate those ancient times. We are advancing

at the same speed as riding on a rocket!"

Seeing Levi Garrison's gloomy expressions, they all said, "The boss is really developing the times too fast! There are so many good things." That's it! I didn't mean to belittle you!"

“Hey!”

Huo Yun Cthulhu looked at the crowd and shook his head helplessly.

Secretly sighed, “Rapid development? You don’t know what speed is called! In front of this, your strength is not as good as someone sneezes!”

Wen Lei smiled, “Farewell to you! The main reason is that you don’t understand this era! I listen to it. Say that you have been trapped for three years! Everything about you still stays at three years ago! You will understand when you learn more about this era!

Almost everything in three years has been eliminated! It is not just your practice! The science and technology that Shen Lab is proud of are also eliminated! Compared with Kunlun Industrial’s things, it is pediatrics!”

“Take the pure energy body as an example! As soon as you came out three years ago, no one can do it! But now the pure energy body has to stand up! Otherwise, you will die at any time!”

Wen Lei’s explanation is very vivid.

Everyone nodded.

Everything was eliminated three years ago.

Including Levi Garrison and his techniques.

In this era, Levi Garrison’s exercises are like aerobics...It

's useless at all.

“Well, I know! You all have the right to choose! What’s more, you have become so much stronger! I won’t blame you!”

Levi Garrison said lightly.

“Boss, rest assured! We will continue to work hard! Let you be proud of us!”

“Boss, rest assured! With us, no one dares to do it to you! You used to lead us and protect us. We! Now we are here to guard you!”

But this sounded harsh in my ears.

It seems to be saying that Levi Garrison is no longer good, and you are weak because you are eliminated by the times. We will guard you from now on. Realizing that they had said something wrong, the Kirin ( Qilin ) people immediately changed their words, “Boss, we didn’t mean you are weak...but the times are true! Boss, your strength is not considered the top power in this era! But don’t be afraid, it should be We

guard you!”

“And the boss, we believe in you, you will soon adapt to this era! You will also get some opportunities to improve!”

“With your unparalleled talent and hard work, we believe that you will soon Become a top power again!”

This is a sincere blessing.

At this stage, Levi Garrison can only be regarded as medium.

But they believed that Levi Garrison's talent would catch up soon.

But for the time being, it is not as strong as them, and it must be protected by them.

"Punch!" Huo Yun Cthulhu couldn't help but laughed out loud.
