

The Return of the God of War [The Protector] Chapter 2257

As soon as this was said, the faces of the others in the room changed.

All of them stared at Xiao Feng angrily.

All blaming him for talking nonsense.

Why did you say what was in your heart?

That's right.

Everyone thinks so!

Levi Garrison's strength still stayed in the past.

But just think about it.

Why did Xiao Feng say what was in his heart?

After all, that is also the master!

There is no stipulation that apprentices cannot be better than master...It is not always said that blue is better than blue, but master also wants face.

Mentioning it again and again is equivalent to humiliating Levi Garrison.

Kirin (Qilin) and they are also very anxious.

They told Levi Garrison about this just now.

Could it be that Xiao Feng and the others have to come again?

Even Xiao Feng realized that he was speaking too bluntly.

After possessing a strong strength for the past three years, Xiao Feng no longer hides himself, does everything more directly, and acts in a clean and neat style.

He was straightforward, and accidentally said what was in his heart.

For a while, everyone present looked at Levi Garrison nervously.

After all, Levi Garrison is also their old master father!

Hearing that, Levi Garrison smiled, “Does it feel much stronger than Master?”

“No...Master, I absolutely didn't mean it, you will always be the strongest in Xiao Feng's mind!” Xiao Feng said

immediately.

“Yes! Master, you are the strongest in our minds! There is no one!”

everyone shouted.

Of course, this is definitely against your will.

The main thing is to pay attention to etiquette and respect the teacher.

In the eyes of Xiao Feng, these people must be better than Levi Garrison.

“Master, rest assured, now we are all your pride! We can even take over your original mission!”

Xiao Feng said excitedly.

“Tell you the truth! I stood at the top three years ago, and I will still be at the top three years later!”

Levi Garrison said calmly.

Hearing this sentence, everyone looked strange.

But everyone didn't speak, but the same thought flashed in their minds-Levi Garrison's mouth was hard, and he was holding on! I don't want to be ashamed in front of my apprentices.

Several old ancestors in the dark also shook their heads helplessly, “I think he is not stubborn, but not to save face! I feel that what he said is true! He really thinks so!”

“It is estimated that he hasn't realized the power of this era. Let's be cruel! Haven't figured out your own strengths yet, let's have your true strength!”

...

I didn't say anything when I saw everyone.

Levi Garrison smiled helplessly, turned and left.

Everyone is just about to catch up.

Kirin immediately stopped "let the boss be alone!"

"You were too much just now ! Just think about some words in your own mind! In fact, everything you say is like a knife!"

"You think the boss doesn't understand him Do you have the current strength? Do you think the boss is inferior to you?"

"He just had difficulty accepting this fact for a while! After all, it is hard for anyone to accept this kind of thing!"

"Not to mention that he was once the top powerhouse. ! Is it not uncomfortable to be eliminated by the times now? You keep talking!"

.....

Suzaku roared angrily.

“This is my fault! But in the future we can help Master! First protect him and his family! Then Master will have some opportunities and opportunities to see if you can improve your strength?”

Xiao Feng made suggestions.

“Good, good!”

“Xiao wind this proposal can! No matter what, he is our most respected people! We must find a way!”

“But remember Well, after who do not talk nonsense!”

“You look at the The boss is forced to use this method to protect his face!”

... Everyone used Levi Garrison’s phrase “I am still the pinnacle now” to save face.
