

## The Return of the God of War [The Protector] Chapter 2258

Little does it know that this is true!

Huoyun Cthulhu had already described it.

God above the nine heavens!

Levi Garrison suddenly thought of a question-Levilia.

Just pay attention to my apprentices and brothers.

Now go and see Levilia, whether she has been using the most basic exercises.

When he found Levilia, Levi Garrison was surprised and happy.

Because she is practicing martial arts.

And what he practiced is the most basic exercise he taught.

Levi Garrison glanced.

It can be seen that although Levilia has several ancestral religions.

It can almost be said to be Erudia's most orthodox practice, which is different from Xiao Feng and the others.

But Levilia is still practicing with his basic exercises, and has been working diligently to lay the foundation.

“Dad...” As

soon as he saw Levi Garrison, Levilia stopped practicing martial arts and ran over excitedly.

“Levilia has been practicing the exercises his father taught?”

Levi Garrison asked excitedly.

After being disappointed for a long time, I finally found comfort in my daughter.

Levilia nodded fiercely, “Yes, Levilia has been practicing! Levilia believes that Dad will not lie to me, it is the best for me!”

“Besides, the foundation of this exercise is the best, there is no one! You must continue to

lay the foundation of your monarch ! What’s more, you have discovered some of the wonders of this technique...” Levilia began to explain to Levi Garrison the mystery of the basic technique, which is also Levilia’s. New discovery.

Levi Garrison felt more frightened as she listened.

Levilia’s talent is too terrible, right?

Levilia realized it unexpectedly.

This daughter is better than him! “However, several masters told me to give up this exercise! They said that Levilia’s foundation is good enough! I don’t need to continue practicing! And the level of this exercise is relatively low! They have more orthodox and stronger methods. Cultivation method! This method is not necessary

, and practicing again is a waste of time!”

Levilia pouted.

Levi Garrison asked, “So you practice secretly?” Levilia nodded, “Yes! Levilia has been practicing secretly, but in fact, Levilia understands that several masters have discovered that I’m secretly practicing this technique. It’s just that. Although this technique is useless in a short period of time, it has no harm or side effects.

Let Levilia secretly practice it. Everyone keeps one eye open!”

...

The ancestors in the dark nodded in relief. .

That’s right.

They had long discovered that Levilia was practicing secretly.

It’s just that it’s not harmful, so they let Levilia go to practice.

After all, everyone loves this child too much.

...

But at this time Levi Garrison stared at Leviliadao with a serious face, "Levilia, from now on you have to give up all the exercises taught to you by several masters! Concentrate on practicing this basic exercise!"

"Maybe short. It won't be very effective within time! But if you have to abandon everything, you will know my intentions if you specialize in cultivation."

"This..."

Levilia hesitated, embarrassed.

Although she believed in Levi Garrison, she gave up all the master's.

Is this a bit bad?

If you let the masters know, you will definitely be unhappy.

That's right.

When the ancestors in the dark heard Levi Garrison's suggestion, they were furious.

"Levilia believes in Dad, but some masters have practiced for so long. If they rashly abandon them, Master and them will be unhappy! Dad, Levilia, practice everything!"

Levilia said.

Levi Garrison smiled helplessly, “Levilia! I understand the friendship between you and the masters! But now you need to abandon everything and practice the basic exercises that dad gave you!”

“Let’s do it, dad won’t force you! You think about it, and give me an answer tomorrow! You can agree or disagree!”

Seeing Levilia embarrassed, Levi Garrison did not force her.

“Okay, Dad, I will think about it!”

Levilia nodded.

...

Levi Garrison had just left from here, and several ancestors greeted him. “Levi Garrison, what are you talking nonsense??”
