

The Return of the God of War [The Protector] Chapter 2267

Levi Garrison added another sentence, "I didn't mean anyone, I was talking about everyone present! In my eyes, it's all rubbish!" When

Levi Garrison said this, the audience exploded.

mad!

Too arrogant!

Levi Garrison has reached this level!

So arrogant!

Pointing to hundreds of thousands of people and saying it's all rubbish!

For the sake of face, the kings of the past had no choice but to be hard-headed.

To be honest, Levi Garrison said that everyone is not worthy of being his opponent as rubbish, and everyone is not angry.

Because everyone understands that this is Levi Garrison's incompetent barking!

What else can I do if I have to be too hard?

In the face of the ridicule of everyone, unable to fight back, only to come back by verbal scolding.

Could it be that Levi Garrison would still kneel on the ground and beg everyone to let it go?

For his character, he would rather die than surrender.

Even if he killed him, his mouth remained hard.

Seeing Levi Garrison's mouth hard, many people feel that Levi Garrison is a bit pitiful.

Especially Levi Garrison's people here.

Almost with tears in her eyes, she didn't dare to look at it.

They feel sorry for Levi Garrison.

If three years ago, encountering this kind of ridicule, Levi Garrison would have slapped him back.

But now he is not strong enough, even said he is far from enough.

There is nothing we can do about this situation.

Can only be stiff.

But for Levi Garrison, the Dark God is not afraid, nor is the ancestor of Tiance Mansion.

The only thing that made him feel threatened was the Lab of the Gods.

They disappear mysteriously, there is absolutely a problem.

When they reappear, they are afraid that it will be a shocking moment in the world.

Only they can be Levi Garrison's opponent.

"Hahaha... are you still talking about the Lab of the Gods? The Lab of the Gods is gone!"

"Levi Garrison, you have been imprisoned for three years, not knowing it's normal! We tell you that the Lab of the Gods has actually been destroyed. It's annihilated in one fell swoop!"

"Yes, your wife was also involved in this matter! It was the Dark God who destroyed it!"

... When

Levi Garrison talked about the Lab of the Gods, everyone laughed.

The Dark God has obviously destroyed the Gods' Laboratory.

The top forces such as Maya Industry and the Emperor Organization have also confirmed them, and are still participating in it.

As a result, now Levi Garrison pulled it out again.

Marshal Tiance smiled and said, "Three years ago, no one denied that it was the era of you and the Lab of the Gods! But your era is over! You can't do it! The Lab of the Gods is over! It was easily destroyed by people. Dropped!"

Levi Garrison smiled and said, "Actually, you are all deceived! This is the deception of the Dark God! Can it be destroyed by him? Impossible! The

Lab of the Gods actually still exists, they are only temporarily hidden. A huge conspiracy is brewing! They even say that they are controlling the earth-shattering changes in the world over the past three years!

You will understand when they come out again!"

"Hahaha..."

Hearing Levi Garrison's explanation, everyone laughed NS.

"Levi Garrison, are you an idiot? The Lab of the Gods is destroyed, something the whole world knows!

But you want to say that the Lab of the Gods still exists! But they are controlling the changes in the past three years! They have that ability! right? " "

After all, that he did not understand this day and age, I thought of it three years ago, the gods laboratory can control everything! monarchs it seems to have so that leaves a lot to accept beaten the world ah! "

...

Everyone laughs instead of anger.

Looking at Levi Garrison like an idiot.

“I know you won’t believe it! But if you remember, the Lab of the Gods will return sooner or later! Then you will understand that you are just a chess piece!”

Levi Garrison smiled.

He now feels more and more that the changes in these three years have sprung up the strong.

This is definitely a problem!

He just glanced at it, and there are various power elements intertwined in each person’s body.

It’s all exactly the same.

Obviously there is a problem. The first suspect is the laboratory of the gods.
