

The Return of the God of War [The Protector] Chapter 2275

Now everyone is leaving.

In everyone's opinion, Levi Garrison will definitely not continue to pretend.

Secretly everyone is waiting to see!

A smile appeared at the corner of Levi Garrison's mouth, and he sat on the mat, letting blood drip and drip.

In the eyes of others, Levi Garrison couldn't do it anymore.

He could no longer stand.

Even if he can't be strong anymore.

He has been holding on in front!

Now watching the people go, he finally couldn't stand, and sat down on the ground.

He is the end of the battle.

"Is there any wine?"

Levi Garrison shouted.

After being detained for three years, I really miss this bite.

“Yes!”

Someone immediately brought spirits.

Levi Garrison gulped directly.

“See? Levi Garrison is no longer good! Now I want to use strong alcohol to relieve the pain!”

“Yes! I was pretending to be up front! To save face, I don’t want everyone to see him in embarrassment!”

“Now his brother and apprentice We are still there, he is still pretending, waiting for these people to leave, I guess they will make a scream like a pig?”

...the

people in the dark place were refreshed.

Suzaku was the first to watch Levi Garrison drinking strong wine.

She immediately took out a lot of medicines with the Kunlun Industrial logo.

“Boss, take it immediately. This is Kunlun Industry’s painkiller, especially useful! And this is a hemostatic agent! There is also a healing agent! Both have incredible effects!”

Suzaku was excited to give Levi Garrison to take it.

In this era, ancient miraculous pill and modern medicine are favored.

For example, the medicine produced by Kunlun Industry may be exaggerated to come back to life, but the medicine can basically cure the disease.

“Yes, boss, take it quickly!”

everyone began to urge.

They are very worried about Levi Garrison’s situation.

There was a saying, these brothers felt pain in their hearts when they saw Levi Garrison stabbing him with a stab.

But Levi Garrison shook his head, “No need! I don’t need these!”

...

“Pretend! Start pretending again! In order to pretend to be a tough guy with his apprentices! No medicine is

needed !” Do you still pretend?”

Everyone in the dark began to say that Levi Garrison was pretending again.

Everyone has been persuading Levi Garrison to take medicine, the Sword Evil God and them are also persuading, even Zoey is also persuading.

“Sir, just take it! This is their heart!”

Huo Yun Cthulhu said.

He could see that if Levi Garrison didn't take the medicine anymore, this group of people would have to use tough methods to get Levi Garrison to take it.

Levi Garrison had no choice but to take the medicine.

The medicine is still effective.

Soon the blood stopped, and the wound was slowly healing.

However, because of the special weapons of the Maya industry, the healing speed is not very fast.

But it eased.

But what they didn't know was that it was the same for Levi Garrison.

He is fine at all!

It's just a bit of blood.

“Hey! The biggest problem right now is that Master was injured by the special weapon of Maya Industry! The special elements have already worked in Master’s body, and it will soon corrode the body until it is completely ulcerated!”

Xiao Feng said one that caused everyone a headache. The problem.

Suddenly everyone’s faces collapsed.

I don’t want to face this problem, but we must face it all.

Once stabbed by a weapon of Maya Industry, he was declared dead and there was no way to save him.

Kunlun Industry has been studying solutions for a full year and invested a lot of resources, but no results have been achieved.

This is true of other major forces.

At present, being stabbed by a weapon of Maya Industry is totally unsolvable.

“No! I’m damn my life and I have to find a cure!”

“Suzaku, hurry up and research! You must work out a solution!”

“We are all over the world to Zhao for a solution, I believe it will be possible!”

... Ye The apprentices of King’s Landing, brothers and subordinates all made up their minds.
