

The Return of the God of War [The Protector] Chapter 2281

At this moment, Levi Garrison could obviously feel that the dark god's breathing was stagnant.

She is obviously nervous!

I want to know who opened it, and I feel scared...

Others are even more scared, almost suffocating.

This answer is too important to them.

Levi Garrison smiled and said, "Who opened it? It was me!"

But when Levi Garrison said this, everyone looked calm.

Obviously no one believes in him.

What are you talking about?

You are average, how can you open the dark prison?

"Levi Garrison is not that I don't believe you! It's that no one knows how terrible the dark cage is better than me! You are locked in it! To be honest, you can't open it for a thousand years!" The

Dark God became a little impatient. The voice was suddenly lowered, "Say! Who helped you open the dark cage?"

“Say! Speak out quickly! Otherwise, they will kill you!”

Underworld God and the others are also threatening.

Levi Garrison smiled helplessly, “I answered it a long time ago! I opened it myself!”

“You...”

everyone in the Bible organization was furious.

Levi Garrison was really stubborn.

They are all dying.

The mouth is still so hard!

The Dark God said, “I thought it was you! So I designed to test your abilities!”

“Even before you came, I thought it might be you! But I checked you carefully! Even this There are the most advanced instruments of Maya Industry in the base, and you have already been scanned, analyzed and tested! You can’t!”

“In this era, you can only be regarded as medium strength! You are a thousand miles away from me! Not to mention opening the dark cage!”

Levi Garrison smiled. “Is it difficult to open the dark cage? Can’t you also open it? “The

reason why Levi Garrison said this was because he wanted to know how the dark god can open the dark cage.

The Dark God didn't notice at all, and sneered, "To be honest! There is no switch outside the dark cage! Me, I can't open it with my own strength!"

"Huh?"

Levi Garrison was taken aback.

"But I have a ground knife in my hand! With my level of strength and a magical ground knife, I can barely open the dark cage!" The

Dark God was cold and arrogant.

Seeing that Levi Garrison didn't understand.

The Dark God specifically explained that "The Earth Sword is an artifact that is as famous as the Heaven Sword!"

"It's just that the world doesn't know it. Now the Earth Sword is the veritable first artifact in the world!"

Others boasted.

Levi Garrison frowned. "Is it amazing? It's not something that can be broken with a finger!"

Levi Garrison discovered that the current person is purely sick.

Boasting a piece of waste to heaven and earth.

What artifact?

It's all scrap!

Moreover, Levi Garrison had contacted the Heavenly Sword, he knew that if he was trapped in the dark cage, even with the strength of the Dark God, with the Heavenly Sword and Earth Sword in it, it would not be possible to open the dark cage.

The reason why the Dark God can barely open the dark cage with the help of the earth knife is because the Dark God is outside.

Outside the dark cage, the reason is that the energy transfer device between the two metal walls of the dark cage does not work.

This energy transfer device can only transfer and resolve the force received by the metal wall in the dark cage, but not the force received by the outer wall.

Therefore, the dark god can open it outside by relying on the earth knife.

The Dark God himself understands a little.

It's impossible to open inside!

That's a

goddamn god!

The difficulty of opening inside is dozens or even a hundred times that of outside.

The energy transfer device is scary.

It is impossible to open the inside, and there is still a chance to open it outside.

Dark God himself can, and he thought of several possibilities.

So I have to call Levi Garrison to ask.

The Dark God said, "But the strong man who knocked the Heavenly Sword with two fingers you said can open it! He can even open it inside!"
