

## The Return of the God of War [The Protector] Chapter 2301

Everyone ran away, and no one would care about Levi Garrison's life and death.

One by one, they were afraid that Levi Garrison would follow them and hurt them.

Soon, the huge group of mutant monsters drowned Levi Garrison.

"Hahahaha..."

Everyone in Sanxing Group laughed.

Levi Garrison was overwhelmed by the monster group, and that was bound to die.

It is estimated that not even a corpse will be left behind.

In the end they just want to see Levi Garrison's torn apart body...

No one pays attention to him...

Of course, once the gate of this metal fortress is closed, they can only be confirmed by the chip marks left on the mutant monsters. The orientation.

After the experienced powerhouse enters, there will be corresponding chips and live devices on his body.

Can know the situation inside in real time.

Originally, Levi Garrison had such a device on his body, but he threw it away early.

So no one knows what is happening to Levi Garrison now.

But before everyone knew that he had been submerged by a group of monsters, and he was absolutely dead for a lifetime.

Li Dazhong and other strong men began to experience...

time passed by.

The fourth hour is here!

This time the gate to the south opened, and the powerhouses who lasted for four hours rushed here one after another.

“Quick...look...that’s...” At

this moment someone saw a figure not far away-Levi Garrison.

He was covered in blood, he didn’t know whether it was his own or a mutant monster.

“This...”

Everyone looked incredible.

Levi Garrison actually used his own strength to hold on for an hour before coming to the south gate.

“We still underestimated Levi Garrison’s strength, even if he is not the top strength! He is still medium! Moreover, he has rich combat experience and deep scheming! It is not a problem to hold on for an hour!”

“Not to mention these mutant monsters. The intelligence is not very high, Levi Garrison has a great chance of surviving!”

“But how do you support him next?”

“Stop him! Don’t let him come out! Close the door!”

...

Li Chengmin and they knew, she The parents asked, “Did you give Levi Garrison all the medicines we secretly gave you?”

Li Chengmin knew that he could n’t hide it , so he could only tell the truth: “There are six medicines in total, and I only used one! The rest is all. It’s given to Levi Garrison.”

“No wonder! I said that Levi Garrison can’t last an hour! It must have been after taking the medicine we gave, that his strength soared and made a bloody path among the monsters!”

Everyone was relieved.

Moreover, this kind of medicine is made by Maya Industry, which can greatly improve the strength in a short time.

It's horrible to terrible!

"Hmph, when he runs out of potion, what else can I do if I see him?"

Everyone did not believe in evil.

...

Five hours.

Very few people can survive this time.

...

Six hours.

The rest are basically the strongest of the gods.

But everyone found that Levi Garrison was still alive.

The whole audience was stunned.

Even the eyeballs of a few strong people in the gods list are about to fly out.

What strength is this Levi Garrison?

Is it the same as them?

But after hearing the explanation of the medicine, everyone was relieved.

After all, the potion is so overbearing, everyone has experienced it.

Levi Garrison can sustain it normally!

What's more, Levi Garrison's words started from the fourth hour.

After all, Li Dazhong protected them for the first three hours.

Levi Garrison lasted for three hours on his own.

"Well, you Levi Garrison, do whatever you want with the potion? Let me see how much you have left?"

Everyone outside does not believe in evil.

Seven hours.

It lasted for seven hours.

At the last moment, there were only seven people left, JiaLevi Garrison.

These six powerhouses in the god list want to continue to attack higher levels and last more time.

“Levi Garrison’s potion should also be used up? Why is he still alive?”
