

The Return of the God of War [The Protector] Chapter 2303

“Boom!”

Levi Garrison suddenly shot, grabbing a mutant monster in front of him.

“Bang!” With a

punch, the mutant monster exploded directly, splashing blood.

What can't be killed?

Why are their bodies indestructible and impenetrable?

With Levi Garrison's punch, it still smashed into slag?

If Li Dazhong saw such a strong man in the list, he would have to kneel on the spot.

They have been here several times.

The most they can do is to lightly injure these mutant monsters. Most of the time, they can't hurt their bodies at

all.

Instead, he was smashed by Levi Garrison's punch.

This, this...

"Sneer!"

Levi Garrison tore another abruptly.

Seeing the companion being torn in half, the eyes of these mutant monsters changed.

It is probably shocked!

Because it has never happened before!

But these mutant monsters were all excited when they saw Ye Qingfeng, and they all rushed forward one by one.

"Come on!"

Levi Garrison was also excited.

He has also thoroughly studied these mutant monsters. It is probably Maya Industry who wants to create new races!

The most violent brain!

The strongest physique!

Invincible combat power!

...

Don't say all these things go out, just go out for one or two thousand, it is definitely a disaster!

The star country has to fall in half!

If all were released, the star kingdom would have to be destroyed.

It is estimated that the Sanxing Group and the Star Country's god list powerhouses are powerless and unable to solve them at all.

Maya Industry Research has ulterior motives!

It is still absolutely confidential!

But for Shang Levi Garrison, these mutant monsters are no different from ordinary people.

No one could stand Levi Garrison's punches and kicks.

Not enough to see in front of Levi Garrison!

Basically kill as many as you come!

Thousands of mutant monsters pounced on Levi Garrison again and again, and they were completely violent and completely crazy.

To tear up Levi Garrison in front of him, tear his flesh into powder, and break the bones one by one...
But on the

contrary, Levi Garrison smashed them to pieces with a punch.

Flesh and bones are all broken into scum!

one hundred!

two hundred!

...A

thousand!

...

Two thousand!

... The

mutant monster is disappearing at a terrifying speed...

Five thousand!

In the blink of an eye, the mutant monster has been beaten in half...

... the

data is still increasing...

“Boom!!!”

With Levi Garrison’s punch, a mutant monster was blown up in the head.

All the mutant monsters have fallen...

Either they were all beaten to death, or the stumps and arms were everywhere...

Thousands of variant monsters were all killed by Levi Garrison without exception.

No one is left.

However, half an hour has just passed!

This is still the case when Levi Garrison wants to play, otherwise I am afraid it will be solved faster!

Levi Garrison sat on the ground, bored to study the blood of these mutant monsters and so on.

He wanted to know what the medicine of Maya Industry was...

time passed by.

Four hours have passed since all devices were shut down.

The people outside were really excited and excited.

“You said Levi was dead?”

someone asked.

“Absolutely dead! He can face tens of thousands of mutant monsters! They are all 100% mutant monsters! Who can stop this?”

“Yes! And this is not something that can be done by hiding! These mutant monsters They are not unconscious bloodthirsty monsters! They are smart! You can find them wherever you hide!”

“Do we need to restore the device now, open the door to see?”

“No need! Just close it for a day and night! We There is no doubt that Levi Garrison will die!”

“Okay! We will collect Levi Garrison’s body tomorrow!”

...

Everyone laughed. They were already looking forward to sending out the news of Levi Garrison's corpse fragmentation.
