

The Return of the God of War [The Protector] Chapter 2326

The problem with Tiger (Baihu) came out.

Everyone was dumbfounded.

Don't know how to answer this question.

Suzaku explained professionally, "From the beginning, we used potions to suppress it! It has lasted for dozens of days! Presumably now special elements have invaded every part of the body! At

this time, once an attack occurs, it will be extremely scary, and it may even be fatal! And it's still a high probability of fatal possibility!" After

Suzaku said this, everyone's expressions grew gloomy.

...

This means that if there is no medicine, Levi Garrison will have a high probability of death.

This is a situation that no one wants to see!

It's true this time!

...

Unlike before, Levi Garrison alone can control the situation and escape from death to death again and again.

In this era, no one can retreat from the Mayan industry's weapons.

no one!

No one can do it!

"How many potions are there now for the boss?"

Azure Dragon (Qinglong) asked.

"If it's correct, there are none! Today's quantity is over! There is no inventory at all, and every time it is over, I will immediately make up for it! But this time this problem happened..."

Mia cried into tears people.

"What should I do now?"

Azure Dragon (Qinglong) asked a question that everyone was afraid to face.

Zhuque pursed her lips. "Now I expect the boss's toxins will not occur... Then I will try my best to produce new potions in the shortest time!"

"How long do you probably need? The fastest! The fastest! How long!"

Azure Dragon (Qinglong) asked anxiously.

“Generally the time is fifteen days later! Fastest ten days or so! If I were doing everything, the fastest the fastest nine days!”

“I can not go beyond nine days!”

“The main thing is that the boss can not take the drug a few days, the situation No one knows how far it will deteriorate.

Therefore, the potion I produced this time needs to be stronger and more domineering, at least twice stronger than the previous potion! It is possible to suppress the situation of the boss!

So it will take longer. ! Otherwise I can finish it in seven days!”

Suzaku said.

“Okay! From now on we will fully cooperate with you! What do you want! We all cooperate!”

Azure Dragon (Qinglong) and the others were anxious.

Suzaku looked serious, “I need the best biomedical laboratory in Kunlun Industry! That is the level 6! I need permission! Only in this I can complete it in nine days!”

“This...”

Everyone’s expression changed.

This laboratory is the highest level of Kunlun Industry.

Even if they have no authority to use this group of senior officials.

You must apply to the marshal of Tiance, and you can use it after all the senior leaders agree.

But at this moment, everyone can't take care of that much.

“Use! Start the laboratory immediately! Let's carry it if there is anything!”

Azure Dragon (Qinglong) said humanelly.

After arriving at the Kunlun Industrial Headquarters, the Azure Dragon (Qinglong) people directly used the laboratory forcibly, and even equipped Suzaku with the best experimental team.

Bring in all the medicine resources you need...

All processes are simplified!

Strive to produce the medicine in the shortest time!

“From now on, Mia Tiger (Baihu) and Xuanwu, you are guarding Suzaku! Follow all her arrangements! Meet all her requirements! Let's go back and look at the boss! Prevent other situations from appearing!”
After

Azure Dragon (Qinglong) divided his work, everyone began to act. NS.

...

At this moment, the Garrison Clan in Beijing.

“What kind of medicine should I take to suppress Levi Garrison now? Don’t you wait for death?”

Tyrone Garrison (Ye Lingtian) sneered.

It turned out that Tyrone Garrison (Ye Lingtian) led someone to destroy the potion.

The masters of the Garrison Clan’s god list were all taken by him.

“I just got the news that Zhuque and the others have opened the Kunlun Industry’s highest-level laboratory and are accelerating the production of medicines for Levi Garrison! But the fastest time is nine days!”

Ye Wudao sneered. “Nine days he will definitely have an attack...”

The Return of the God of War [The Protector] Chapter 2327

Ye Wudao smiled. “No, no...I won’t give him a chance! What if he survives nine days?”

“I want Levi Garrison to have no hope at all! Make him desperate!”

Ye Wudao’s face Full of viciousness.

Tyrone Garrison (Ye Lingtian) understood what, and subconsciously asked, “Does Xiaozu say that they will not let them produce potions? Do not let potions come out from the source?”

“Yeah! That’s right!”

Ye Wudao nodded.

...

“But we can’t intervene in the Kunlun Industry affairs? Especially Zhuque and the others are very high! We can’t control it anymore...”

Tyrone Garrison (Ye Lingtian) raised a question.

“Are they more capable than Marshal Tiance? And they used the highest-level laboratory privately without notifying Marshal Tiance!”

...

Ye Wudao sneered.

Tyrone Garrison (Ye Lingtian) became more and more puzzled, “But Young Master Tiance can’t control us anymore, how can he listen to us?”

“Hahahaha...”

Ye Wudao suddenly laughed.

“Don’t you know? Actually, I have already turned the enemy into a friend with Marshal Tiance. We have reached a consensus in private and worked together. In this era, win-win cooperation is the best! As long as I tell him, He will definitely do it!”

“And the Marshal Tiance doesn’t have a cold with Levi Garrison! If you know that Suzaku is using the highest-level laboratory to develop medicine for Levi Garrison, I’m afraid it will be mad!”

Tyrone Garrison (Ye Lingtian) immediately started to hear it. Laughed.

“I’ll contact Young Master Tiance! I don’t want Levi Garrison at all!”

Ye Wudao sneered.

...

On the way to Jiangbei.

Kirin (Qilin), Azure Dragon (Qinglong) and their faces were gloomy.

Some things are being analyzed.

“Listen to Nan Yan that the ones who destroy the potions are the strongest of the gods! In fact, we can all come out with the reasoning, but it’s not the time for revenge for the time being, let’s wait until the boss is better!”

Qi Lin said coldly.

“Yeah. When the boss is better, take revenge again!”

Azure Dragon (Qinglong) nodded.

“Also, I have sent someone to search for other suppressive potions. I hope there will be news!”

Azure Dragon (Qinglong) cannot pin his hopes on Suzaku alone.

They wrote down the hatred.

Levi Garrison was dumbfounded when he saw these people running around.

what’s the situation?

“Boss, are you okay??”

Several people saw Levi Garrison and looked anxiously at Levi Garrison.

“Ah? What’s the matter? I’m fine!”

Levi Garrison was completely confused.

“It is estimated that the effect of the medicine is still there, and it is estimated that there will be a reaction tomorrow...”

Azure Dragon (Qinglong)’s faces were gloomy.

“Ah? What’s wrong? What happened?”

Levi Garrison was shocked by their expressions.

I thought

someone had something wrong... “The medicine is gone ... The medicine just produced for you was completely destroyed by someone, and there is nothing left...”

“In the next nine days, there will be no medicine to restrain you... ..”

“It is very likely that the elements in your body will occur, and no one knows the specific consequences...”

...The

Azure Dragon (Qinglong) people told the truth, their faces were extremely embarrassed, as if the sky had fallen.

“Huh!”

“What am I supposed to do? I thought something was wrong and scared me to death!”

Levi Garrison let out a long sigh of relief.

“Isn’t it a big

deal??” Azure Dragon (Qinglong) and Kirin (Qilin) were stunned.

Looking at Levi Garrison incredulously.

“Of course, I’m fine again! This is nothing... Don’t worry, I can’t explain it clearly...”

Levi Garrison looked helpless.

“Boss listened to us, you are okay, that’s because Kunlun Industry’s pharmacy has been suppressing the use of special elements! So you are okay... Now if there is no medicament, it is estimated that it will happen soon...”

Azure Dragon (Qinglong) was anxious. road.

“I hope you can survive the next nine days, Boss! Suzaku is already desperate...” They only expected Levi Garrison to be able to hold on and the elements would not occur.

The Return of the God of War [The Protector] Chapter 2328

But just looking forward to it.

The probability of an attack is almost 100%!

The probability of a serious attack is 80%.

The possibility of serious death is 50%...

so it is very difficult for Azure Dragon (Qinglong) and the others.

It can only depend on luck.

...

Hope Levi will be lucky!

Through these nine days!

Wait for Suzaku's potion to complete.

...

Levi Garrison smiled, "Don't worry, I don't have anything! It's a hard Suzaku!"

"If it's okay, I'm going to bed, and you guys leave too!"

Levi Garrison turned and left.

"No...no! Boss, Azure Dragon (Qinglong), I thought of a way to completely prevent him from attacking!"

Kirin (Qilin) suddenly said.

"What?"

Azure Dragon (Qinglong) immediately looked over anxiously. "In these nine days, the boss will be frozen! We can find a top-notch device and let Levi Garrison freeze in the dormant cabin, so that his body will stop everything! After nine days, open the dormant cabin and come out. The medicine is

on!"

Kirin (Qilin) said excitedly about the plan.

"This method can be done!!!"

"Immediately do it! I didn't expect it!"

Azure Dragon (Qinglong) was so excited that he was about to cry.

Finally found a way.

"Hey, it's okay! No! I'm okay..."

Levi Garrison said next to him.

But this group of guys didn't ask Levi Garrison's opinion at all, they just made their own opinions.

These devices are not difficult for them.

I got it overnight.

Levi Garrison almost pushed and shoved and installed it into the dormant cabin device.

Soon the program starts, and Levi Garrison will soon be dormant and frozen.

All functions of the body will cease.

In this way, special elements will not occur.

When I saw the program was over, I opened it and breathed a sigh of relief.

In this way, Levi Garrison would be fine.

It should last until nine days later.

In fact, Levi Garrison was not dormant at all, as long as he wanted to, the dormant cabin was useless to him.

But these days he just calmed down to cultivate.

Just retreat...

“Tell Suzaku to them, you can make potions with peace of mind!”

Azure Dragon (Qinglong) and the others smiled.

Kunlun Industrial Headquarters, the highest level of 6 biomedical laboratories.

Suzaku breathed a sigh of relief when he got the news.

...

“Huh? Why did you come, Young Marshal?” The

guard at the headquarter gate was shocked when he saw the Young Marshal Tiance arrived.

It’s midnight.

The Marshal Tiance never came at this time before.

“I’ll come over and take a look!”

Tiance Young Marshal said with a cold face, and led his subordinates all the way to the 6th laboratory.

After coming outside, Xuanwu and Tiger (Baihu) were taken aback.

The two of them turned pale.

They were waiting for Suzaku’s dispatch, but they didn’t expect to wait for Marshal Tiance.

“Young... young marshal...” the

two greeted awkwardly.

Young Master Tiance sneered and asked, "Level 6 laboratory is activated?"

"Well, Young Master, it is activated! Someone is working on it!"

Young Master Tiance's face became extremely gloomy. "I remember to start this. This laboratory needs to notify me, and then call everyone to a meeting to vote, right?"

"Yes! This is the only level 6 laboratory! It must not be used for major events! What this laboratory does is generally at a national level. Experiment!" the

subordinate immediately replied.

"Then what are you doing now? Without my authority, no one notified me, no high-level voting, you opened it privately, what are you doing??"

Tiance asked directly.

Tiger (Tiger (Baihu)) and Xuanwu lowered their heads, cold sweat ticking.

"Report young marshal! Suzaku team leader started the laboratory to develop medicine for Levi Garrison! Because the highest-level laboratory can greatly shorten the time!"

someone reported.

“Asshole!!!” “I opened this laboratory for a Levi Garrison???”

The Return of the God of War [The Protector] Chapter 2329

Marshal Tiance suddenly raised his tone.

Xuanwu and Tiger (Baihu) were taken aback.

The two dared to speak more and more, cold sweat kept dripping...

something went wrong!

This time it was a big deal!

Mainly they opened this laboratory privately.

...

It is indeed a violation of the rules of Kunlun Industry!

“The marshal was not our intention! It was the team leader Suzaku, the team leader Azure Dragon (Qinglong), they used the laboratory forcibly! They also warned us to keep it secret and can’t tell anyone!”

“Yes, the marshal, I dare not tell you! I’m really afraid of them!”

...

... the

people in charge of this laboratory immediately filed a complaint.

“Unreasonable!!! Kunlun Industry belongs to Daxia! Kunlun Industry belongs to everyone! It is not your private industry!”

“Open the door to me!!!”

Tiance Marshal shouted.

“This...”

The people in charge of the laboratory hesitated.

Because Xuanwu and Tiger (Baihu) stopped at the door.

They dare not.

“Get away!!!” The

marshal Tiance pushed the two white tigers away.

“Boom!”

“Bang!”

He stepped forward, straight kick the door flung open.

In an instant, everyone in the laboratory was stunned.

Their experiment was abruptly interrupted.

Suzaku also turned her head blankly and looked at it.

When everyone saw the marshal Tiance, they were all in a cold sweat.

“Who gave Suzaku the courage to use this laboratory? Has my consent been obtained?”

Tiance Marshal looked straight at Suzaku.

“Boom!”

Suzaku was startled at once.

His body was trembling, his face was pale, and his cold sweat broke out.

She almost fell directly to the ground.

“I, I, I...”

She didn't know what to explain.

She was caught by the marshal of Tiance on the spot, and she didn't know what to do.

Don't dare to look up!

"Who asked you to use it??"

Tiance Marshal said furiously.

"Listen to us, young commander! We have no choice but to inform you!"

"The medicine we developed for the boss was destroyed. If there is no medicine to take, the boss will be in danger!"

"So we must hurry to produce new agents come in the shortest possible time. Therefore, unauthorized use of a laboratory

.....

Tiger (Tiger (Baihu))li horse began explained.

"Boss? Who?" The

marshal Tiance frowned.

“It’s Levi Garrison!” the

others answered.

“So you used this laboratory for Levi Garrison and for personal matters???” The

young commander Tiance was completely angry.

“Have you forgotten what this laboratory is for?”

“This is the highest-level laboratory. It should be used only when a major crisis or the highest-level experiment occurs in Daxia!”

“Now you have to activate this laboratory for your own selfish desires? Just for one person, a person who is of no value to Daxia, to activate this laboratory?”

“You are too selfish too!”

...

Tian Marshal Ce was completely angry and shouted at everyone.

Suzaku lowered their heads and did not dare to speak at all.

They are all wrong...

“Get out! Get out of here! From now on, this laboratory can’t be used! Kunlun Industry and the laboratories and teams affiliated to the major forces can’t be used by you either! “

You can no longer use any resources to develop medicine for Levi Garrison! His life and death has nothing to do with us!”

“If anyone violates the rules, I will kill who!!!”

... As

soon as this was said, the Tiance Marshal was equivalent to a sentence. Levi Garrison was sentenced to death.

No way to survive!

This is a dead end, and Suzaku can’t produce medicine for a while.

To find the right laboratory and team, there are resources and so on.

I’m afraid it won’t last a month.

But at that time, Levi Garrison was afraid that he would have rotted to death long ago...

“Boom!!!” At

this moment, for them, the sky had fallen.

The Return of the God of War [The Protector] Chapter 2330

There is no hope at all!

“Puff!”

Suzaku collapsed directly to the ground.

His eyes were hollow, like walking dead.

Tiger (Baihu) and Xuanwu still wanted to intercede, but Tiance Marshal directly refused: “This matter is not discussed! I won’t save Levi Garrison! Let’s not let you use Kunlun Industry a little bit of resources!”

“Come on, you guys. Stare at them all the time for me! Any whereabouts should be reported to me from time to time!” The

...

young commander Tiance left angrily.

In fact, Levi Garrison is optional for him.

It doesn’t matter if Suzaku uses the resources of Kunlun Industry to rescue them.

...

But they were so courageous to use this laboratory to save Levi Garrison at all costs.

Come to rescue a dead person!

Moreover, in their minds, Levi Garrison was always the boss, even if his strength was destroyed.

They have never admitted their status as the head of Kunlun Industry...

This is the reason why the Tiance Marshal is angry.

Following the flow of the boat, he agreed to Ye Wudao's request.

Things that kill two birds with one stone!

The Commander Tiance gave the order, which basically blocked the possibility of the medicine being produced in a short time.

For at least one month, or even three months, the potion could not be available...

Azure Dragon (Qinglong), they just sent Levi Garrison into the dormant cabin, and they were happy.

Suddenly received this bad news!

They were all dumbfounded.

The medicine is gone?

Doesn't this mean that Levi's hopes of life are gone?

They were shocked.

Is this someone specifically targeted?

They all looked at the news, how did the Marshal Tiance know?

But now is not the time to think about it.

How to remedy the problem next!

Azure Dragon (Qinglong) deserves to be the backbone of the group.

For the first time, he didn't collapse like the others, but he was extremely calm.

"Now the resources of Kunlun Industry are not available, even domestic ones. We have to find a way to go abroad! Use all the connections to let Suzaku start to develop medicine as quickly as possible!"

"And we didn't hear that there are many forces developing a solution to the Mayan industrial weapons? I think they may have inhibitors, we can ask them to buy..."

"Next I will arrange tasks..."

Azure Dragon (Qinglong) immediately arranged everyone's tasks to try to remedy them.

Kylin is arranged in a protective dormant cabin.

Kirin (Qilin) felt very aggrieved and thought it was the most useless.

Now Levi Garrison's dormant cabin is freezing, it's okay at all.

He temporarily brought in his men to watch.

He ran abroad to find a potion for suppression...

They immediately got busy again.

The other side.

Ye Wudao laughed loudly after knowing the command of the young marshal Tiance.

"But Azure Dragon (Qinglong) and the others have begun to remedy it... have already sought medicine abroad..."

Tyrone Garrison (Ye Lingtian) said.

He stared at Azure Dragon (Qinglong) and their movements all the time.

Ye Wudao sneered: "Daxia is no longer possible. I used means to lock up all of Daxia's resources! They don't want to produce a shred of potion in Daxia! If you are abroad, just keep an eye on it and destroy it more! "

Understood! They can't get or produce potions anyway!"

Tyrone Garrison (Ye Lingtian) and others nodded.

“Yes, that’s right.”

” Yes , we just got news that Levi Garrison has been frozen by Azure Dragon (Qinglong) and the others in the dormant cabin! This is to ensure that the situation does not occur...”

someone said.

Ye Wudao and Tyrone Garrison (Ye Lingtian) were both taken aback.

“This is indeed a good way! Azure Dragon (Qinglong) has a set! They actually used this technique...”

Ye Wudao sighed.

“By the way, where’s the address? Did you find it?”

Ye Wudao asked.

“I’ve found... the address is...” The

subordinates said everything.

Ye Wudao smiled: “Levi Garrison, I won’t give you any way out! This time I personally go to close his dormant cabin! Let him completely perish!”

The Return of the God of War [The Protector] Chapter 2331

“So, that’s great! They find the dormant cabin, and we destroy it! This thing is scarce everywhere, how long do I think they can last?”

Ye Lingtian also smiled.

Ye Wudao also smiled: “Do you know why I reuse you so much? Because you look like me!”

Ye Lingtian also smiled.

“In fact, Levi Garrison can easily kill us! But we just don’t! Because of this, the feeling of hope but instant despair is the most tormented! With physical torture, Levi Garrison will die in fear, this That’s what I want!!!”

Ye Wudao looked grim.

...

Ye Lingtian was also full of excitement.

The two sides are indeed the same.

Late at night.

...

Ye Wudao appeared where there was a dormant device.

Kirin arranged for dozens of quasi gods to guard.

But these people are like ants to Ye Wudao.

He easily passed everyone and directly entered the base of the dormant cabin device.

This place was explored in advance, and there have been undercover agents among these guards.

So Ye Wudao entered the dormant cabin unobstructed all the way.

After opening, Ye Wudao entered.

Looking at Levi Garrison lying inside, he smiled.

“Levi Garrison violated the Garrison family’s house rules! I will torture you slowly! And your daughter, I will capture the Garrison family! With my Garrison family’s blood on his body, I deserve to win the Garrison family honor!”

Ye Wu Road coldly said.

He slowly closed the dormancy chamber device.

All effects are lifted.

He also quietly messed up and damaged the dormant cabin.

It's not obvious on the outside.

In fact, Levi Garrison in the dormant cabin knew everything.

But he ignored it.

Ye Wudaozhiliu was in the eye, no different from the ants.

He didn't even bother to punch someone who was killed by a punch.

Therefore.

Levi Garrison ignored Ye Wudao the whole time.

Feeling the temperature rise in the dormant cabin, Levi Garrison smiled: "It's not that cold anymore!"
After

Ye Wudao finished all this, he quietly left.

No one noticed during the whole process

...

Because of the dormant cabin, Kirin (Qilin) and Azure Dragon (Qinglong) ordered no one to approach.

So no one went to watch it.

Therefore, I don't know the situation inside.

Time passed day by day.

Azure Dragon (Qinglong), Kirin (Qilin), they were frantically trying to remedy it.

The medicine they found was more or less close to what was produced by Kunlun's industry.

Phoenix (Suzaku) and the team finally found a suitable laboratory, but the resources have not yet been found.

And in the process, they were hindered by numerous obstacles, doing anything unsuccessfully, there were external factors interfering.

Phoenix (Suzaku) probably calculated it. In this case, it would be at least fifty days after the next batch of medicines were produced... which

meant that Levi had to stay for fifty days.

But at this stage, there is no other way.

Can only wait for the miracle to appear...

"What if there is a potion for direct treatment?"

everyone sighed.

“The once-and-for-all method is definitely good, but no one has said that a real solution has been developed yet...”

Azure Dragon (Qinglong) looked helpless.

Nine days passed in the blink of an eye.

All return.

After all, the dormant cabin was set up for nine days.

It started today, and everyone is eager to know how Levi Garrison is now.

What’s more, everyone has found some methods and medicines more or less.

Come and try to see if it works.

“Huh?”

“Where’s the unicorn?” When everyone arrived, they found that it was someone else guarding the dormant cabin.

It’s not a unicorn.

At this time, Kylin returned from another direction.

He also went to find a way.

“Kirin, do you know that your task is the most important thing! It’s okay, if there is something, you only ask!” The

Azure Dragon (Qinglong) people realized something was wrong.

“It’s okay recently?”

Kirin (Qilin) asked the others.

“It’s okay...”

Everyone shook their heads.

The Return of the God of War [The Protector] Chapter 2332

Kirin (Qilin) breathed a sigh of relief, “Look, you are worrying too much! It’s okay at all!”

“Let’s go check it out!”

Azure Dragon (Qinglong) entered the dormant cabin anxiously.

“Boom!!!”

Everyone was dumbfounded when they came inside.

The dormant cabin device simply stopped operating.

...

“Someone would have closed the hibernation pods !!!”

“Eight days !!! sleep pods have a full stop eight days!”

.....

...

Dragon voice hoarse screaming.

The unicorn is like thunder.

I thought it would be okay to call his subordinates to look at it, but no one knew that the device was shut down just as he left.

“No, the interior of the dormant cabin device has been destroyed!”

someone exclaimed.

“Why Boss little reaction at all? Should sleep pod for a close, he could wake up ah?”

“Their look! Not open the cabin to sleep!”

“That is a full brother lying on the inside Nine days? Let alone the elemental attack, even boredom can make people suffocate!”

“Look at the boss now, will something go wrong? Look motionless! So many days!”

Bad news!

One bad news followed by bad news!

...

Everyone gave Kirin (Qilin) a fierce look!

If he was there.

Can it be like this?

Kirin (Qilin) was silly.

Sitting on the ground, like a puddle of mud.

His mind is blank!

If something happened to Levi Garrison because of this, he would blame himself for a lifetime! ! !

He would even commit suicide on the spot to make amends...

“This can’t be blamed on the Kylin, it must be a problem with the guards! First, this place is hidden and few people know. Second, it is impossible to enter easily, even the strong. The guards. There are traitors...”

Xuanwu analyzed.

“I killed them!!!”

Kirin (Qilin) was completely angry.

“Look at the boss first...”

Everyone forcibly broke the dormant cabin device and released Levi Garrison.

Just as they were about to check Levi Garrison’s situation, a voice sounded.

“It’s so noisy, and let people not sleep!”

Levi Garrison stood up and looked at everyone speechlessly.

“Boss, are you okay? Are you okay?”

...

looked at Levi Garrison in shock one by one.

“What can I do? Do you expect me to have something?”

Levi Garrison glanced at everyone speechlessly.

“Boss, haven’t you seen any health problems in the past few days?”

everyone asked.

“No, don’t you think I’m good? It’s okay at all!”

Everyone was shocked.

Levi Garrison really didn’t look like something was going on.

This is not something that can be pretended.

Everyone can feel the breath of Levi Garrison...

as surging as before.

So he is really fine.

“But just in case, let Phoenix (Suzaku) check it out for you first. Let’s rest assured!”

Azure Dragon (Qinglong) suggested.

“Okay, let’s check it out.”

Levi Garrison didn’t want to be surrounded by them and said that something was all right.

Just let them check it.

Phoenix (Suzaku) immediately brought equipment and checked Levi Garrison’s physical condition.

Half an hour later, Phoenix (Suzaku) said in surprise, “Weird! Really weird! For nine days without the restraint of the medicine, the body of the boss is so good! There is no trace of elemental effect?”

” Those who do n’t know think that there is no weapon of China Maya Industry at all. ...”

Hearing this, everyone else was shocked.

“Impossible! How could it be okay? This is absolutely impossible!”

...

Everyone didn’t believe it.

Levi Garrison smiled helplessly, “Now that I know I’m okay? Because the toxins on the weapon can’t invade my body...”

“Ah? Impossible! Boss...”

“If you really can’t invade the body, it’s really true. It’s against the sky!”

...

Everyone was shocked and suspicious.

“I seem to know the truth...”

Phoenix (Suzaku) suddenly smiled.

“What?”

Everyone gathered around.

The Return of the God of War [The Protector] Chapter 2333

“I found that the boss has residual medicine in his body, and there are a lot! I understand why the boss hasn’t had an attack in the past nine days! The residual medicine still has an inhibitory effect! The effect of this medicine is even better than we thought!”

Phoenix (Suzaku) explained.

Levi Garrison looked helpless.

That's because these boys forced him to take medicine all day long, and he couldn't vomit anymore.

You can only drink it.

But his body can't tolerate these foreign substances now.

...

So they are all left in the body.

He must be forced out every short time.

This time it hasn't had time to be discharged.

...

Phoenix (Suzaku) found it.

I mistakenly thought that these medicines suppressed it.

"That's really great! The boss's luck has always been good! This is so lucky!"

Everyone showed a look of ecstasy.

“Now with the medicine and methods we found, it is absolutely okay to keep the boss from attacking for a period of time!”

Phoenix (Suzaku) said in surprise.

“This is really great!”

Levi Garrison smiled bitterly: “I’m really fine! You don’t have to toss about it!”

“Boss, just listen to our arrangements! By the way, you have recently practiced these exercises, which also has a restraining effect. !”

...

Everyone did what they should do.

“On the one hand, we continue to restrain, on the other hand, Phoenix (Suzaku) produces medicine...”

Looking at this group of good brothers, good apprentices, and good subordinates.

Levi Garrison was a little touched.

They really do everything for themselves!

But what he said now, these people didn’t believe it either.

After waiting, just make up for them.

...

“What? Levi Garrison is okay? What’s the matter?”

Ye Wudao and Ye Lingtian were shocked when they found out.

For nine days, Levi Garrison stopped abruptly without taking any medicine.

“How is this possible? How can there be nothing wrong with the weapons of Maya Industry? Even if I was stabbed, I would definitely die!”

Ye Wudao’s eyes were full of disbelief.

“Yeah! It’s not possible! It stands to reason! What they saw was a corpse that was extremely decomposed! It turned out to be okay?”

Ye Lingtian didn’t believe all this either.

They clearly cut off all Levi Garrison’s life.

As a result, Levi Garrison changed his fate against the sky!

Nothing at all!

How is this possible?

No one wants to believe it!

“Impossible! There must be a reason! Maybe they are alive!”

Ye Wudao said.

Ye Lingtian nodded: “There is such a possibility! But then I see how he can survive it! It will take dozens of days for Phoenix (Suzaku) to produce the potion!”

Although Tiance Marshal did not ask about this.

But what is the matter.

He knows it all.

“Levi Garrison’s fate is too hard, right? It’s all right? Nothing at all?” After

knowing the situation, the marshal Tiance was stunned.

“What’s the situation?”

He had the same idea as Ye Wudao. He was hit by a weapon of Maya Industry, leaving a dead end.

Tiance Mansion has nothing to do!

“Phoenix (Suzaku) said that it seems that Levi Garrison has residual medicine in his body, which has always been inhibiting!”

someone explained.

“That is to say that Levi Garrison will still have an attack next?”

Tiance Marshal asked.

“Yes, yes! Absolutely! Let’s wait! Some people estimate that it will only take three days!” the

others said.

“Okay, then let’s wait and see! I don’t believe it! Levi Garrison is okay!”

Everyone did not believe in evil.

Must wait for Levi Garrison’s injury to strike.

...

In fact, Phoenix (Suzaku) is also very nervous here.

Indeed.

The residual medicine and various methods would last Levi Garrison for three days at most.

What should I do in three days?

That is a problem!

Three days soon arrived.

Everyone is guarding Levi Garrison on this day to see if he will have an attack.

Everyone was so nervous to sweat...At

this moment, the Sword Evil God and others came back.

“Good news! Great news!!!”

Sword Evil God said excitedly.

The Return of the God of War [The Protector] Chapter 2334

The Sword Evil God was panting for breath.

Obviously went a long way.

It is estimated that after learning the news, they came non-stop.

Tell everyone the good news as soon as possible.

“What’s the matter?”

Everyone got together one after another.

...

Even Levi Garrison came here with great interest.

Want to know what’s good.

“We have found a solution to the Mayan industrial weapons!” The

...

Sword Evil God breathed heavily and said a shocking thing.

“What??? A solution has been found???”

Everyone present was shocked.

Their eyes are about to fly out!

Because this thing seems to everyone, it is absolutely impossible to achieve at this stage!

But now some people say yes.

How can you not be shocked?

“What’s the solution? Say it! Say it!!!”

Everyone was excited.

Tears filled his eyes one by one, unprecedented excitement.

Who is not shocked about this?

Even Levi Garrison was a little curious.

What is the solution to the weapons of Maya Industry?

He has looked at the special element, a toxin that he has never seen before.

Neither he nor the poisonous god could develop an antidote.

“What? Say it!”

Levi Garrison also urged.

“The solution is that someone has discovered a substance that can dissolve this special element! After repeated experiments, this new substance can dissolve the special element of Maya industry!”

The Evil Sword said excitedly.

“What???”

Everyone was shaking with excitement.

“There is this kind of substance? It’s amazing, isn’t it? The first time I heard that there is a substance that can dissolve the special elements of the Mayan industry!”

“Where was it discovered? Who discovered it? Hurry! The boss has hope of surviving. That’s great! The boss is so lucky, the boss won’t die!”

...

Sword Cthulhu explained: “It is the doomsday seed bank of Kangaroo Nation. They found it in the deep sea under the sea near Kangaroo Nation. This rare substance! A test found that it has a dissolving effect on Maya Industry’s weapons! It’s amazing!”

“But this deep-sea substance is extremely rare! They have spent a lot of time searching in other sea areas, and almost nothing! In total! It may only be a few hundred grams. It is regarded as a treasure by the Kangaroo Kingdom, and it is stored in the Doomsday Seed Bank!” The

evil god of poison then said a piece of news that made everyone’s heart cool.

The solution is there.

The new substance has been found.

But it's too scarce.

It is regarded as a treasure in the Doomsday Seed Vault.

Once placed in this place, it is difficult to do.

It's hard to get!

The faces of the people who had just been excited turned gloomy.

Still a problem!

The Evil Swordsman said helplessly: "After learning the news, we contacted the Kangaroo Nation as soon as possible, and wanted to get this material at any cost! But they rejected it on the spot!"

"Yes, we negotiate in good faith! They made a request, but this group of people wouldn't get in! They didn't give us any chance at all! They drove us away!"

"We didn't have time to think of his way, so we ran to you first, tell you the news, and take a look. What can you do?"

.....

Hearing this, everyone's hearts were cold again.

How is this whole?

I was given hope and despaired instantly.

People treat this substance as a treasure.

It must be difficult to get!

You have to come up with things that people like and feel beyond the new material value.

“Don’t be discouraged! Now that the new substance has been found, the next step is to get it!”

“Think about it, or discuss with the Kangaroo country! They must have weaknesses! They must have what they need! We just take Just come out!”

Azure Dragon (Qinglong) looked at the people and said: “This is a solution to the boss’s situation, once and for all! We will do whatever it takes! Understand?”

The Return of the God of War [The Protector] Chapter 2335

“Yes! This opportunity is rare! We have to fight! No matter what conditions the other party offers! We have to agree!”

Everyone made a concerted effort.

“By the way, this news has just been discovered! I guess other people will soon find out that it might be necessary to stop the boss at that time! Even get this substance first! At that time, it will be completely over!”

Sword Evil God said.

“So from now on, we must be ahead of them and get the new substance first! It’s urgent! Let’s go directly to Kangaroo Country!”

“For the sake of nights and dreams! Boss, you go directly to Kangaroo Country with us! After you get the new substance, use it directly. ! In order to prevent other situations from appearing!”

...

...

Azure Dragon (Qinglong) and the others arranged in an orderly manner, and Levi Garrison didn’t even have a chance to interrupt.

“Okay, let’s set off now!”

...

Everyone was about to set off immediately.

But at this moment, Phoenix (Suzaku) held his cell phone gloomily and exclaimed: “No! Dark web has released news...”

“What?”

“Dark web released news, saying that the Doomsday Seed Bank of Kangaroo Nation has found restraint in Maya. The deep-sea material with special elements on industrial weapons is now available! And there are detailed information and experimental data! Now the whole world has spread crazy!!!”

When Phoenix (Suzaku) said the news.

Everyone shook their hearts.

I’m really afraid of what will come...

just to talk about it, you have to be one step ahead and take the advantage of knowing the news first.

In a blink of an eye, the advantage is gone.

Now as soon as the dark web news is released, the whole world knows it.

And it’s the big news that blasted the world!

Almost every corner in the shortest time!

“Dark Web???”

Levi Garrison muttered silently.

Three years ago, the dark web was a mysterious existence.

No news can escape the dark web.

To be honest, the dark web is the top power in the world... I

didn't expect the dark web to be so strong after three years.

As soon as there was news over there, the dark web knew it immediately.

I don't know what kind of existence is controlling the dark web...

"Do you know what the dark web comes from?"

Levi Garrison asked.

"The boss is at this juncture, you are still entangled in the dark web! Let's think about how to get the new substance!"

"Now the news comes out! It is estimated that many people have gone to the Kangaroo country to get the new substance! Maya Industry They will definitely go too! After all, they don't want other people to know how to restrain themselves!"

"There are boss opponents who will go as soon as possible! Even if they don't get it, they will be destroyed! After all, they can't let the boss get it!"

.....

Indeed.

They are right.

Ye Wudaozhi and his ilk rushed to Kangaroo Country immediately after learning about this.

They would never let Levi Garrison get a new substance.

He must die!

Even Marshal Tiance is very interested.

“Forget it, we don’t need to go, many others have gone! Levi Garrison don’t want to get this new substance!”

...

Maya Industry.

The major forces of the East Island countries.

The major forces of the Eagle Nation.

...

One by one, they went to Kangaroo Country.

This new substance will directly affect the new situation in the future and the status of Maya industry and so on.

A group of people also went to join in the fun.

The leaders of some big forces have already discussed with Kangaroo Country.

...

Although hope is slim, Azure Dragon (Qinglong) and the others set out with Levi Garrison.

Speed of life and death.

They have to work hard.

Get this new substance at all costs.

Levi Garrison was very moved.

Everything is in my heart.

“Do you really want this new substance?”

Levi Garrison asked suddenly.

“Huh?”

This made everyone stunned.

“Of course I do! Boss, you don’t want to, this is something to save your life!”

everyone replied.

“By the way, I remember, three years ago, I helped the Kangaroo country beat the blood ancestors, and they owed me a kindness! Let them take this thing back!”
