

The Return of the God of War [The Protector] Chapter 2346

Xuanwu asked tentatively.

Others are also curious.

Levi Garrison briefly described how to crush a country... After

talking, everyone basically believed it.

But at this moment, Azure Dragon (Qinglong) suddenly thought of something.

After everyone looked at each other, they all understood each other.

...

Levilia and his masters!

It was they who saved themselves last night...

Why did Levilia and several ancestors appear?

...

Isn't it just to help Levi Garrison get the new substance?

They definitely want to shoot!

But after all, they are the ancestors of Tiance Mansion, so it's definitely not appropriate to grab them directly.

After suppressing it by force, let them send it by themselves.

Understood!

Everything is understood!

All this is done by Levilia and several masters!

Levilia has no ability to overwhelm a country!

But several of his masters are fine!

Although these few are not on the god list, who dares to provoke them?

It is absolutely possible to join forces with a few!

After understanding what's going on.

Everyone smiled.

Levi Garrison saw what they looked like and also knew what they were thinking.

But he doesn't care.

As long as they are at ease.

"Now that the new substance is in hand! The boss will take it immediately!"

"Quickly, to prevent nights and dreams!"

Everyone took out the new substance and immediately gave it to Levi Garrison.

In order to make them feel at ease, Levi Garrison took the new substance obediently.

Seeing the new substance being taken, everyone breathed a sigh of relief.

After installing the remaining deep-sea material, he began to celebrate and cheer.

"Our hard work for such a long time was not in vain! The boss's illness was finally cured!"

"This time it's done once and for all! The boss's illness is completely cured!"

"The emperor is worthy of painstaking efforts! I said that the boss will not die! Yes!"

...

Everyone cheered, but Azure Dragon (Qinglong) was still very calm.

“Phoenix (Suzaku), just to be on the safe side, you should check the physical condition of the boss!”

Azure Dragon (Qinglong) said.

Phoenix (Suzaku) immediately began to check.

...

About an hour later.

Phoenix (Suzaku) surprisedly said: “It seems that the new material is working! The boss’s body is in good health, and there is no bad situation! The elements of Mayan industrial weapons have been completely wiped out! The boss has finally returned to normal!”

Phoenix (Suzaku) said.

The field boiled directly.

Everyone cheered and celebrated wantonly.

It’s all

supposed to be new substances that dissolve the special elements of the Maya industry... But how did they know that Levi Garrison was good in the first place.

But at that time, it was a psychological effect for Phoenix (Suzaku), and there was no problem during the inspection, but Phoenix (Suzaku) always thought that there was a problem, but it was a hidden danger, and it didn't happen.

Now that he took the new substance, Levi Garrison was in the same situation, but in her mind, there was no problem at all.

Levi Garrison smiled helplessly.

I'm fine, it has nothing to do with this deep-sea matter.

But Azure Dragon (Qinglong) and all of them thought it was this substance that healed themselves.

But Levi Garrison didn't care, as long as they were at ease.

"Well, we will return immediately from now on! We must protect the remaining new substances!"

Everyone immediately returned.

"After the boss goes back this time, you will have nothing to do with your practice! You and your sister-in-law are still competing! Two months are left? You must beat her in the rankings!"

"Yes! Once the sister-in-law recovers, That strength will definitely take off! The top of the gods list is scheduled! You must not be left behind by your sister-in-law! Hurry up and integrate our various practices to form your own system! Amazing everyone!"

Azure Dragon (Qinglong) said with a smile.

The others also nodded: “Yes! Boss, we are all optimistic about you! We are full of expectations for you!” They

are all looking forward to the birth of a strong man.

“Okay! Let them rank!”

How could Levi Garrison care about the shit god list.

The Return of the God of War [The Protector] Chapter 2347

Soon, Stevens of Kangaroo Nation held a press conference to publicly apologize to Levi Garrison and admitted that it was Levi Garrison who rescued Kangaroo Nation from danger three years ago.

And give all the deep-sea matter to Levi Garrison to repay Levi Garrison’s kindness that year.

As soon as the news came out, they exploded.

The weird thing is that the attitude of Kangaroo Country the day before is completely different from today.

How tough and arrogant the day before, no one took it seriously.

But today I apologized.

...

Unbelievable.

What happened last night?

Everyone is sure that something must have happened.

...

But what exactly is it?

It seems to be blocked.

There is no way to find out!

Everyone puts all hope on the dark web.

However, there is no news on the dark web... The

most terrifying thing is that Levi Garrison has obtained the new deep-sea substance.

Doesn't it mean that he is going to be fine...

Ye Wudao, Ye Lingtian and others are dumbfounded.

I thought that this Kangaroo Nation would never let Levi Garrison have any chance!

He must die!

But who would have thought that the Kangaroo Country apologized and admitted the next day, and also sent a new substance.

Levi Garrison was fine at once.

All the work they have spent all this time was wasted.

“It seems that to let Levi Garrison abolish, it has to rely on other methods...”

Ye Wudao and the others are already thinking of a new way.

How to deal with Levi Garrison next.

The same goes for others.

I thought that Levi Garrison would definitely die.

I didn't expect to survive on the new substance.

Some people heard that Levi Garrison and his party had a new substance in their hands, and they wanted to act.

But Azure Dragon (Qinglong) moved quickly and returned to Daxia long ago.

“What about these new substances?” After

coming back, everyone began to struggle with this question.

“Kangaroo Nation has the full authority to give the new substance to the boss, and the boss will arrange these new substances! We can’t take them away!”

Azure Dragon (Qinglong) said.

Levi Garrison smiled and said, “This thing is of no use to me! Take it away! What do you want? Just throw it away!”

“Okay, boss, let’s take these substances back and study them! The value of matter in the world today is too high! Especially the value of research!”

“Furthermore, I don’t know how many people want to make this new material idea! Even if you bring the boss with you, it’s probably hard to hold! At that time there will be a bunch of them. strong to grab, calling such life-threatening! ” “

indeed! easy to get hold hard! in the Kunlun industry is the safest! ” “

every man innocent pregnant bi against himself! boss took in danger, I’ll still worry, it’s the safest to take it back!”

...

Everyone was also worried that things might be dangerous to Levi Garrison.

Therefore.

Bringing to Kunlun Industry is the safest way.

When Azure Dragon (Qinglong) and his party brought new deep-sea materials to Kunlun Industry.

Found that the marshal Tiance was waiting.

“Deep-sea matter got back?”

Tiance Marshal asked with a smile.

He was full of excitement when he heard that all the new substances in the deep sea had been brought back.

As for what Levi Garrison’s life and death has to do with him?

Can Levi Garrison’s life be compared with this new deep-sea substance?

Stop kidding!

So he ran to meet him personally!

“Here, I brought it back! This is the boss’s own! But he let it to us!”

Phoenix (Suzaku) took out the new substance.

“What does it have to do with him? This is after the Kangaroo Nation was suppressed by several ancestors, and then apologized and sent new substances! In the final analysis, this is the credit of my Tiance Mansion and Baolong clan! They got it! With Levi Garrison Is there a penny?”

Tiance Marshal asked rhetorically.

At this time, everyone was silent.

One says one.

It is true.

The reason why Kangaroo Nation did this, no one else knows why.

They know it.

It was the ancestors behind Levilia who made the shot.

Directly suppress the new substance from Kangaroo Country.

The Return of the God of War [The Protector] Chapter 2348

“Speaking of it, Levi Garrison has to thank Xiatian Cefu! Although it is because of his daughter’s face! After all, it was the work of several ancestors!”

Tiance Young Master smiled.

“Well, I really have to thank you! We thank Tiance Mansion for the boss!”

everyone said.

“Since the new substance belongs to Tiance Mansion! Give it to me?”

Tiance Marshal snatched it from Phoenix (Suzaku).

...

“This...”

Everyone felt something was wrong.

But what’s wrong in detail, but I can’t tell.

...

Finally, this new substance was taken away by the marshal of Tiance.

He took it for special research.

But all for Daxia.

Everyone also endured it.

But this time when he came back, Azure Dragon (Qinglong) and the others found that everyone in Kunlun Industry seemed to be watching them consciously or unconsciously.

Marginalizing them!

It seems that they are narrowing down their authority step by step, and they are going to be completely emptied.

...

But the rest of the day was calm.

While Levi Garrison was searching for the traces of the Gods' Laboratory, he was still cultivating.

Fifteen days later, Zoey recovered.

Turned out!

Ranked among the gods with superb fighting power!

Next, because of Zoey, the list of gods is updated from time to time.

Zoey's ranking changes almost every day.

A month later, Zoey has reached the top 100 position on the god list.

But Levi Garrison's location changed at night.

Since the injuries of the special elements of his Mayan industry were healed, Levi Garrison's combat power has also changed.

His ranking has gone from more than 8,700 on the quasi god list to 6,338!

"The boss is good! Progress! Super progress! A full advance of more than two thousand! If this continues,

it is just around the corner to step into the gods list!" Everyone was very pleased.

The improvement of so many names shows that Levi Garrison is really suffering.

Really working hard.

Everyone's hard work was not wasted!

Of course, this progress is worthless compared to Zoey.

It can even be said to be scum.

No comparison at all!

The difference between heaven and earth!

In less than two months, Zoey didn't make it to the quasi god list, and he was directly in the top 100 of the god list.

The span is too big.

This is the most terrible!

Zoey was also very happy to see Levi Garrison's progress.

"Keep on working hard! Take your time! I believe you will enter the god list sooner or later!"

"I will wait for you to challenge me at the top! Remember our agreement, there is still one month left!"

Zoey smiled .

To be honest.

She was very disappointed.

Originally thought that Levi Garrison could make rapid progress and could bring her a little pressure.

The two urged each other to encourage progress.

But not at all!

Too much difference!

Zoey originally thought, Levi Garrison would at least have to be in the top one thousand on the quasi god list, right?

But I can't give myself any pressure...

It's no different from waste.

Now Levi Garrison can't give her any pressure anymore.

The only pressure may come from Levilia.

Zoey fought with Levilia once.

There is still a gap between her and Levilia.

But she wanted to stand fast to the top with Levilia, waiting for Levi Garrison to slowly climb up.

You can even climb halfway up the mountain.

He is no longer needed.

...

Azure Dragon (Qinglong) and the others called Levi Garrison to their side with earnest and earnest words.

“Boss, we boast that you are boasting you! But we must also recognize the fact!”

“We already know that all the skills and skills left to you have been divided up by the Li and Zhao family. You are practicing the basic skills of the past. “Fa!”

“But do you see it now? After practicing the old-fashioned exercises, you only improved two thousand on the quasi god list! And the sister-in-law, who represents everything in the new era, directly reached the top 100 on the god list in the case of disuse. ! Which one is strong and which one is weak, can you tell at a glance?”

“This shows that the old-fashioned things in the past have really been eliminated...it can't be compared with the modern things at all!”

The Return of the God of War [The Protector] Chapter 2349

“Yes! That's true! You and my sister-in-law, one is a representative of the old era, the other is a representative of the new era! In two months, the competition between you has been set high!”

“It's really one. The sky, the underground!”

“Boss, we want you to be more sober, recognize and respect reality! Abandon what should be abandoned! Give up! Give up!”

“Concentrate on practicing the things of the new era, I believe you will be better than your sister-in-law! After all, where is your talent and experience! This is by no means comparable to others!”

“Boss, listen to our advice! Hurry up and let us reach the peak of strength as soon as possible! Don't worry us!”

... ..

...

Everyone is persuading Levi Garrison.

Levi Garrison sneered: "What do you know?" The

so-called quasi-shenzhen rankings were actually released by one hundred institutions all over the world.

...

But wherever they want it, half of the institutions that make the rankings of the gods are controlled by the Bible organization.

Therefore.

Levi Garrison can control the ranking of the gods.

His own ranking on the quasi god list is simply inaccurate.

He told these institutions, just fill in a ranking.

It won't affect anything.

But everyone else's rankings are accurate.

All are supported by accurate data and analysis.

Only Levi Garrison filled it out blindly...

“Boss, we know you are still not convinced! Let’s give another example!”

Kirin (Qilin) pointed at a distance and said: “Partition the Li and Zhao family of all the skills and skills! They! After obtaining these new era cultivation methods! Now it is completely reborn!”

“One of the strong talent Li Songkui Meng Fei Zhao Jun and Zhang Wentao month there! God is already a list of former quasi-hundred! Especially Li Songkui quasi-eighth standings God! God is very close to the list! God at any time to get into the list!”

“Also There are people like Li Wenhai and Li Wenfei, what are they? Now they are ranked in the top 1,000 on the quasi god list! You know, they have not even been in the quasi god list before! Now they are all top powerhouses!”

...

After the Li and Zhao family divided up the top exercises of this era, their strengths have undergone qualitative changes.

All are advancing by leaps and bounds!

“There are two other people, you didn’t expect it! Boss, your father-in-law! My sister-in-law has chosen the most suitable exercises for them! Now two people, one is the 987th in the gods list, and the other is the 996th in the gods list!

” They were all ordinary people before! But because they have practiced everything in the new era! They have grown to this point! You have to obey the modern methods!”

...

Levi Garrison really didn't know about this.

But after knowing it, he was not very surprised.

It's normal for this kind of quick system to build a strong one within two months.

It is not unusual.

In short, these are rubbish to Levi Garrison.

He doesn't like it at all!

“Boss, think about it, you can't even compare this rubbish! Don't you make people laugh when you spread it out?”

“In order not to make people laugh, you should hurry up and practice what you are now!”

... the

crowd said.

Levi Garrison smiled and said, "It's all a bunch of ants! Hey, your vision is a bit narrow after all!"

"We are narrow?"

Hearing this, everyone was taken aback.

Do the top dozens of powerhouses in the gods list have a narrow vision?

Who has a broad vision?

There is no one, right?

"Boss, you are good at everything, but you are too stubborn!"

Everyone said one after another.

"You and your sister-in-law are going to lose completely during the March period!"

Levi Garrison smiled and said, "Isn't this one month left? Don't worry!"

"Levi Garrison is ready to lose! You guys! What's the use of mentioning the period of March?" At

this moment, a voice came.

The Return of the God of War [The Protector] Chapter 2350

Li Songkui and his party appeared.

Today, they are already strong in the quasi-sacred list, and they are very close to the list of gods.

That is, this group of guys are so talented.

Otherwise, it will definitely be able to rush to the god list.

After all, what they have is a quick method for a group of strong people on the list of gods.

You can rush to this position casually.

...

But now they are showing off to Levi Garrison.

“Ye have heard these monarchs of the top exercises to you, you do not practice! We are here to thank you!”

“If you let it out, how can we present achievements? I’m about to enter a list of God!”

...

“Again Look at you, you are still hovering in the quasi god list! You are not our opponent! You want to compete with Zoey? Are you worthy?”

...

Li and Zhao's family laughed.

Azure Dragon (Qinglong) didn't say anything.

It is true.

Today's Zoey is comparable to the strongest of them, let alone Levi Garrison.

Not a person of the world at all!

It can be said now.

The three-month period for two people is a joke.

At this time, Li Wen yuan and his wife had also appeared.

These two people are the biggest surprise.

From the most nonexistent ordinary person, he has become the strongest of the gods!

Li and Zhao are now the two most lofty ones.

After they arrived, Li Songkui and others voluntarily gave way.

The two walked up to Levi Garrison, looked around, and sighed at the same time: "Hey!"

“Levi , it’s not that we dislike you! But...”

“You are really a bit weak now! Levilia and Zoey are not compared with us, just compared with us, are you far behind?”

Li Wenyuan said.

“You used to be the king, one of the best in the world! How can you be stagnant now?”

“The point is not that there is no way to improve, but that there are thousands of ways! You don’t choose one! I have to practice what you used to do!”

“Isn’t it! There are so many ways to cultivate! You see, after we practice, we are all strong in the gods list! With your talent, whatever you want?”

Right ? And we also heard from Zoey that you can integrate thousands of exercises together and become your own thing? Why don’t you practice?”

Mother-in-law persuaded patiently.

Li Wenyuan even said: “Levi Garrison, are you at all incapable of pulling the bottom? Do you think this is an apprentice, given to you by your former subordinates!

But I want to tell you that this era is the era of the weak and the strong! Face is the least valuable thing. Strength is the kingly way! Strength is your only confidence to survive!”

“Practice! Give me practice right away! All the exercises will be given to you! The three-month period for you with Zoey is here! It is impossible to exceed her! But! I want the distance between you to be very small!”

...

Li Wenyuan and his wife told Levi Garrison a lot of truth.

They are senior enough.

The strength is also enough!

Levi Garrison smiled: “Parents, don’t worry! I have my own way! And if Zoey, she can only look up to me! As for me to super her, it’s a joke!”

“Stubborn!”

“Play the piano to the cow!”

“It is said that our old people are stubborn and conservative. It turns out that Levi Garrison is more stubborn and conservative than anyone else!”

“Since you want to continue practicing your old methods! Then you practice! Then the gap between you and the son will be getting bigger and bigger, especially when the March period comes, see who is ashamed?”

...

Father-in-law The mother-in-law didn't care about Levi 's arrival.

Zoey didn't say no to Levi Garrison during the whole process, but instead always encouraged him to inspire him.

Because she knew it was not the time to persuade Levi Garrison.

In any case, he couldn't listen to it.

The best way is to let him fully recognize the gap when the March period arrives, and then he will catch up.

"Levi , I am waiting for three months!"

The Return of the God of War [The Protector] Chapter 2351

Fact!

Only cruel facts can make a person sober!

Zoey wanted to use this to make Levi Garrison thoroughly recognize the gap!

Only the desperate situation and cruel facts can make him put down, he can focus on progress, and he can practice the techniques left by the apprentices.

Otherwise you just persuade and ridicule.

It doesn't work for Levi Garrison!

...

The so-called penny stumps heroes!

Now Levi Garrison has a bit of strength, he is considered a strong man on the quasi god list, and most things can still be solved by himself.

In addition, a group of brothers and apprentices of the strong gods are guarding her, and the daughter of a super strong is also guarding her.

...

He will not encounter any setbacks now.

Therefore, you can be conservative and don't have to think about how to improve crazy.

Only cruel facts and desperation can push him.

After waiting for a month, Zoey will let him understand his situation first, and then stop his brothers from guarding him.

Let Levi Garrison know the difficulties and know that death is coming.

Then he will work hard.

Will abandon everything!

In short, Zoey is looking forward to a month later.

“Well, I’ll wait for a month!”

Levi Garrison smiled.

In the following days, all parties are working hard to practice.

Everyone in the Li and Zhao family also found a clean place to continue practicing.

Azure Dragon (Qinglong) and the others have been wasting too much time with Levi Garrison recently.

Therefore, after Levi Garrison was fine, he immediately went to practice and improved.

Levi Garrison continued to practice and search for clues.

A few days later.

Li Chengmin contacted him.

Claiming that there was movement in Maya Industry, they sent people to Sanxing Group to collect the experimental data of all the mutant monsters.

As for the mutant monster locked in the metal fortress before the Sanxing Group experiment, they didn’t even look at it.

It seems to be not interested at all.

Because Levi Garrison killed all the mutant monsters, none of them remained.

If Maya Industry wants to see it, Li Chengmin has to find other ways to find a bunch of people to disguise these mutant monsters.

But representatives of Maya Industry didn't even look at it.

Perhaps in their eyes, the experimental data is the most important.

"I guess that they took the experimental data, it should be that the mutant monster's experiment has made a major achievement! It is estimated that there will be actions next!"

Li Chengmin said.

Levi Garrison also agreed with this statement.

Now it feels that the behavior of Maya industry is more and more like the previous laboratories of the gods.

The things they do and their styles are very similar.

There is no definite evidence to show the relationship between Maya Industry and the laboratories of the gods.

But there are some clues.

They look so alike.

In fact, when there was no progress in the investigation during this period, Levi Garrison was directly comparing the similarities between Maya Industry and the Laboratories of the Gods.

Plus what Li Shiji said to him.

It made him believe that there was something tricky in it.

In particular, Maya Industry has been developing variants of Living Dead with the help of Sanxing Group, which is certainly of ulterior motives.

And the experiment must be more than Sanxing Group.

Maya Industry also controls many forces.

Sanxing Group is just one of them.

Levi Garrison can easily find this point because of the huge power distribution of the Bible organization.

This project is extremely important for Maya Industries.

It should take a lot of effort.

It is not yet clear what the purpose is.

But as soon as the news of Li Chengmin came out, Levi Garrison thought it was possible.

“Okay, next, I want to see what Maya Industry is going to do?”

Levi Garrison kept Li Chengmin and the major forces of the Bible Organization paying attention.

A few days later, Maya Industry released a news that shocked the world!

As soon as it came out, the whole world exploded.

Including Zoey, Azure Dragon (Qinglong) Xiao Fengzhi and his ilk were all excited.

The Return of the God of War [The Protector] Chapter 2352

Not just them!

The big powers of the world’s major forces were alarmed.

All the people who had been retreating did not retreat, but all ran out.

There is no other reason.

Because Maya Industry brought shocking news.

They will launch a series of challenges!

...

Here, your strength will increase substantially.

Specifically for some strong people who encounter bottlenecks.

Maya Industry has launched a series of challenges before, and it has indeed allowed many people to progress and grow.

...

Even Azure Dragon (Qinglong) has participated in the challenge of Maya Industry.

It's all life and death challenges.

There is a high probability of death.

But if you want to survive, your strength will be greatly improved.

After all, real combat is the fastest way to progress.

In addition, all kinds of improvement methods are quick.

Therefore, after taking part in several challenges, the strength improved super fast.

The most important point is the Maya Industry Challenge series, which is too professional.

Use the top technology to set up a variety of suitable challenges.

There are those that improve defense, offense, offense and defense, and even assassination...

only you can't think of it, nothing they can't do.

Whether it is special or comprehensive.

You can take part in the challenges of Maya Industry to improve.

It is a pity that Maya Industry's Challenge Series has only been launched once in the past three years.

That was also the beginning of the new era.

Maya Industries is launched.

No one went there at first.

But after someone tasted the sweetness, everyone rushed to it.

One by one, rushed to participate.

Azure Dragon (Qinglong) and the others only got a qualitative leap at that time!

It's not just them.

It should be said that seventy to eighty percent of the powerhouses in the God's List have taken a leap after taking part in the challenge of Maya Industry.

Even Zoey has participated in this challenge.

Strength is also advancing by leaps and bounds!

So now that Maya Industry has a challenge series, Zoey is no longer closed.

Ran out directly.

That time, it only lasted three months.

If you want to participate in the future, there will be no chance.

Everyone has been waiting for Maya Industries to launch new challenges.

But it hasn't happened.

This time it finally came.

And stronger than before!

Suitable for stronger people to participate!

When Levi Garrison heard this, the corners of his mouth raised, “Fox tails are finally about to be revealed? I know what the challenge is!”

Levi Garrison guessed that Maya Industry challenged the mutant living dead this time!

Will fight directly with the challenger!

Levi Garrison quickly contacted Li Chengmin, and the other party had the same idea.

This challenge must be set up with variants of the living dead.

But no one knows the reason for the specific challenge.

You have to wait until the challenge begins before you may be able to know.

“Although I don’t agree with many things in the new era, I have one thing to say, their actual combat experience is indeed sufficient!”

Levi Garrison nodded.

Azure Dragon (Qinglong)’s quick solution is to improve quickly.

But they also participated in many actual battles.

It's a battle of life and death.

This is worthy of praise and advocacy!

The challenge of Maya Industry will be carried out in the virgin forest somewhere in the Western Continent in three days.

You can participate in the registration now.

For a while, the whole world went crazy.

Participate in the registration.

Just as Levi Garrison was thinking about Maya's industrial intentions.

Zoey and his apprentice brothers came to him one after another.

"What are you doing?"

Levi Garrison was taken aback.

"Get ready, let's take part in the challenge of Maya Industry! There is less than a month left. If you want to surpass me, you have to participate in this cruel training!"

Zoey said.

This time the challenge of Maya Industry, Zoey can both improve.

Levi Garrison could feel despair and despair in advance.

She discussed with Azure Dragon (Qinglong) and the others.

Once in the primeval forest, they left Levi Garrison alone to hone. Only then will he understand everything if he feels the danger...

The Return of the God of War [The Protector] Chapter 2353

Only when he was in desperate situation would Levi Garrison know how weak and helpless he was.

His little strength is simply not enough to survive, let alone protect other people.

Only at this moment would Levi Garrison wake up.

Only then will he abandon the old things, accept new things, practice, and strengthen himself... As

soon as the Maya Industry news was released, Zoey immediately began to discuss with everyone.

Everyone agrees that this method is good.

...

To challenge, you must take Levi Garrison with him.

“You have to go! If you don’t go, we have to take you too!”

“There is also Levilia going too, are you sure not to go?”

...

Zoey said directly.

In fact, Levi Garrison originally planned to find out.

Let’s see what Maya Industries is going to do.

The best way is to go deep into it, and even treat yourself as a prey, in order to understand the situation most truthfully.

Levi Garrison is worried, how can I go?

No, a bunch of tool people are here.

“Okay, I’m going to participate!”

Levi Garrison said.

“Okay, you are ready to prepare, we will set out now!”

everyone said.

Levi Garrison couldn't help asking, "By the way, are there many people signing up this time?"

"Are there many? Boss, let's put it this way! In addition to the top ten on the list, there are nearly a thousand strong and quasi-skilled players on the list. The ten thousand strongest on the god list have basically signed up! The rest of the strong must add up to tens of thousands!"

"To sum up-almost all the top and middle-class strong in this world have gone! The top strong I have also gone a lot..."

"It is estimated that after this challenge is over, I am afraid that the God List and the Quasi God List will be greatly updated!"

...

Everyone is looking forward to it.

They all want to further improve their strength, and the ranking of the gods is also further improved.

"Basically the strong in this world will go?"

Levi Garrison frowned and touched his chin.

Doesn't this mean that Maya Industry can control the information and data of most of the world's powerful players?

What strength?

What speciality?

...The

advantages and disadvantages will all be exposed under the eyes of Maya Industry.

The projects they set up challenges must be able to control all of this.

Then think about it, this is super scary!

Take control of all the powerhouses in the world.

Once targeted, it's too easy.

According to your shortcomings...

Once there is a large-scale war or other, these strong people are no different from the dead.

At this time, Levi Garrison felt vaguely guessing the purpose of Maya Industry.

As for the challenge estimate, it is also very simple.

Everywhere in the virgin forest, mutant living dead are put in.

Manipulate these variants of the living dead to experience the strong, and at the same time, you can fully get the information you want, that is, the strengths and weaknesses of the strong.

Layout!

This is setting up a shocking overall situation!

The more this happened, the more Levi Garrison had to find out.

But before that, he has to do something.

Just as all parties are enthusiastically signing up to participate.

However, one by one, big powers announced their withdrawal from this challenge.

Including super-top forces such as the imperial organization!

Almost a third of the forces announced their withdrawal from this challenge!

This is an order from Levi Garrison to let all the forces and strong people that can be controlled by the Bible Organization to withdraw from the challenge.

The reason is simple, he does not want Maya Industry to collect information about these powerful people.

One-third of the forces withdrew at one time, which was indeed shocking enough.

The world was shocked.

However, all the top powers understand that these are controlled by the Bible organization.

It is normal for this mysterious force to make this move.

After all, no one knows what the dark god is thinking.

And the dark god is the number one god, and no one will doubt it.

It's just that what they didn't expect was that the Dark God was already Levi Garrison... After

everyone was ready, they set off together to the virgin forest in the west.

The Return of the God of War [The Protector] Chapter 2354

"This time, nearly one-third of people quit! But it is estimated that more than 20,000 people participated in the challenge!"

"But this is a good opportunity for us! The more people who quit, the greater our challenge will be. The harder the more exciting, the more good it will be for our experience!"

"Yes! It must be! When encountering difficulties, the number of people decreases, and the requirements for everyone are correspondingly higher!"

...

Then, Another news came out.

The strong from all sides of the Kangaroo country will not participate in this experience.

...

None of them will come.

This puzzled everyone.

Previously, due to the new substance in the deep sea, everyone knew that kangaroos had many strong players.

...

But why did you still not participate in such a good opportunity?

What everyone didn't expect was that it had something to do with Levi Garrison.

Along the way, Levi Garrison also learned about the mechanism of the challenge.

Once it starts.

Maya Industries will not provide any help.

This is different from Sanxing Group's experience in the metal fortress, where the gate opens every hour.

You can escape if you regret it, or if you are weak.

But the challenge of Maya Industry, as long as you enter, there will be no way out and no one will save you.

It's useless if you regret it.

The only way to survive is to kill it abruptly.

Still cruel!

Levi Garrison was thinking about a question.

Perhaps Maya Industry will use this challenge to directly wipe out these top powerhouses, rather than simply collecting information.

Is there any relationship between the purpose of Maya Industry's challenge at the beginning and the challenge now?

No matter what, you can understand it only after you really enter.

However, the style of Maya Industry is more and more like the laboratory of the gods.

Before coming to the virgin forests of Western Continent, many people had already arrived.

Levi Garrison met many acquaintances.

Many enemies have come to participate.

They saw Levi Garrison was among them.

They discussed one after another.

It is estimated to take advantage of this opportunity to kill Levi Garrison inside.

Once in it.

Perhaps the protection of Azure Dragon (Qinglong) and others would not be too timely.

At that time, they had a chance to kill Levi Garrison.

While improving himself, he smoothly killed Levi Garrison.

Kill two birds with one stone! ! !

And many of them have heard of Zoey's plan.

After they enter the primeval forest, they will not always protect Levi Garrison.

They want to create a desperate situation for Levi Garrison.

In this way, they have more opportunities.

Everyone is looking forward to getting rid of Levi Garrison.

I heard that many people wanted to deal with Levi Garrison.

Zoey and they got more and more excited.

After all, the more dilemmas created for Levi Garrison, the easier it is for him to wake up.

The more that can create desperation, the better!

Of course they will also protect Levi Garrison's safety.

When he is most dangerous, everyone will appear.

But at that time everyone's goal has been achieved...

they will unanimously ensure the safety of Levi Garrison.

"Dad, mom..."

Soon after, Levilia also came.

After this time of tempering, the little girl is simply heroic!

The strength is also terrifying!

Not surprisingly, several ancestors followed in secret.

“Levilia, come here, mom tells you something!”

Zoey called Levilia aside.

The main thing is to talk about the plan for Levi Garrison.

I hope Levilia will not follow Levi Garrison and not interfere in this matter.

“So after entering the virgin forest, you go to experience! Run far away! Leave us

alone !” “If you blindly protect your father, it will not be good for him! We finally found such a good opportunity! But! Don’t worry, we are at the critical moment!”

Zoey said.

Levilia nodded: “Okay, mom, I understand!”

“But mom, if there is danger, you can call me at any time! Levilia is strong now!”

The Return of the God of War [The Protector] Chapter 2355

Another group of people came.

He even ran to say hello to Levi Garrison.

It turned out to be Li Dazhong of Sanxing Group and other strong people on the list of gods.

They also came to experience.

Seeing Levi Garrison, several people were scared to death.

But still came over to say hello.

...

There is no doubt about the relationship between Sanxing Group and Levi Garrison.

“By the way, sir! Miss Li Chengmin asked me to tell you that she is ready for everything! Maya Industry will be tested all the time! This is a chip, you can contact her anytime!”

Li Dazhong secretly asked Li Chengmin to take the chip Give it to Levi Garrison.

...

Levi Garrison didn't know the purpose of Maya Industry.

After he goes deeper, someone outside will have to stare.

Of course, the biblical organization will be activated, and a huge force will always be watching Maya's every move.

However, Maya Industries also needs to be monitored internally.

The best internal undercover agent is Sanxing Group.

Li Chengmin is ready.

"Well, good. I know!"

"If there is any danger after entering, please find me at any time!"

Levi Garrison said.

He didn't want Li Chengmin to be available.

He wants to protect the safety of the strong like Li Dazhong.

"Okay, okay!"

This greatly benefited Li Dazhong and others.

The promise of this great god.

It is equivalent to crossing out their names on the Hades's Life and Death Book...

Wait until everyone arrives.

The challenge officially begins...

According to the different challenges of each person, they are sent to the designated area.

There are challenges that are biased towards offense, and there are challenges that are biased towards defense...

and Zoey, with their superb strength, chose the challenge of offensive and defensive integration.

Still the highest level of challenge!

This means that the difficulty encountered is super difficult!

Of course, all areas are in collusion.

Sometimes you will also enter other areas...

"Let's go! Go in!"

A group of people enter the virgin forest.

The virgin forest of this western continent is too big.

More than 20,000 people entered, and it would not seem crowded at all.

Instead, they are scattered one by one, and the distance between them will be very large...

after entering the designated area.

Zoey immediately proposed: "In order to improve our combat effectiveness, let's all act alone!"

She looked at Levi Garrison again: "Levi, you also act alone!"

Levi Garrison hesitated, "Is this bad? What if you act alone? You have crossed too much between each other, if there is any danger, I am afraid that I will not be able to save you in time!"

This is what Levi Garrison worried about.

The true purpose of the Maya Industrial Challenge is not yet known.

In case it is really to use these mutant monsters to kill all the strong.

Plum dyeing them will be dangerous in an instant.

If Levi Garrison ran to rescue one by one at that time, he might not be able to take care of some people because of the long distance.

This is something he doesn't want to see.

What he thinks is the best of these people, who are not far away from him.

Once in danger, he can be saved the first time.

But Levi Garrison's worrying words changed their meaning in everyone's ears.

Everyone thought that Levi Garrison was afraid.

For fear of going alone, it is dangerous.

Unwilling to be separated from everyone.

It is also high-sounding that everyone should not disperse, but protect everyone.

"Punch!"

...

Many people are holding back, not letting themselves laugh.

One says one.

Today's Levi Garrison disappointed everyone.

He was actually scared.

He clearly knew that his strength was weak and he knew that he was in danger.

But why do you still practice the old things conservatively, instead of practicing the more advanced and terrifying things now?

Zoey felt much more comfortable.

Because Levi Garrison already showed signs of fear.

This is a good thing!

This has a great effect on his awakening.

Next, as long as he encounters a desperate situation, Levi Garrison will completely wake up.

When she thought of this, she strengthened this idea even more.
