

The Return of the God of War [The Protector] Chapter 2371

She didn't want to hear Levi Garrison's reason.

Refuse directly!

She doesn't want to quit! Xiao Feng, Zhou Ke and a group of apprentices also expressed their views, "Master, we can listen to you if it's other things! But we have been waiting for this opportunity for three years. We don't want to miss it, let alone give up halfway! Master, we are just like Master,

Don't withdraw! Never withdraw!"

Although the Sword Evil God, Kirin (Qilin) and others remained silent.

But they chose Zoey here.

...

As for Li and Zhao, everyone in the family has tasted the sweetness of the challenge, and their strength has soared.

Under such a great opportunity, how could it be possible to withdraw and evacuate?

Levi Garrison didn't even want to listen to any reason.

...

Even if Levi Garrison said about breaking the sky, they would not listen.

It's not helpful for others to say more.

What they want is personal experience!

At present, there is a danger of death, and the probability is not small.

But in the desperate situation of life and death, everyone grows fast, and their potential is stimulated fast.

In just such a half-day, everyone's improved efficiency is stronger than in the past few months!

How can you withdraw from a once-in-a-lifetime opportunity?

"Don't rush to refuse, listen to what the boss said?"

Azure Dragon (Qinglong) controlled the situation, looked at Levi Garrison and said, "Boss, if you don't have a reason to persuade everyone, no one will withdraw from this challenge!"

Azure Dragon (Qinglong) meant that Levi Garrison had to say that he couldn't wait to explain it later.

Now explain that everyone doesn't want to listen, let alone the future. "This is the conspiracy of Maya Industry! They use these variants of the living dead to fight against you, drive you into a desperate situation, let you perform all your best, and display all the tricks without reservation! So Maya Industry can steal you

All our skills! "It

looks like you are fighting them, but in fact they are collecting your combat power information...”

Up to now.

Levi Garrison can only explain. But when

this explanation comes out, it seems pale and weak.

No one believes it. !

Li Wenhai Road directly on the spot “Ye monarchs you do not grandstanding! Maya Industry even has a lot of such perverted monsters. What do we want our exercises to do? “

Don’t say it belongs to us ordinary people, it is the exercises of the top fifty strong people in the gods list. It is normal for Maya Industry, right? Not top-notch, right? “

Others agreed.” Yes, what do they want our exercises to do? Nothing to do in your idle time? “

That’s because they want to enrich the offensive methods of these mutants of the living dead!” Create them into an invincible army of the living dead! “

Levi Garrison said.

“Puff!” “

Now, everyone laughed even harder.

“Levi Garrison, are you treating us as fools?” Are you sure that the offense of this group of monsters is very weak, and we need to use our techniques to enrich their offensive methods? “

Yes, Levi Garrison, are you sure?” ? ? “

.....

almost everyone present in the leaves looking at Harborside.

Ye monarchs shot forehead.

He forgot a thing.

These variants of the Living Dead attack of their own, weak weak, may depend on Who

for Other people are absolutely invincible to the people in front of them!

Even to Zoey, who is a strong man on the list, they are also threatening, not super strong, but not weak at all?

So Levi Garrison said now , Used to enrich offensive methods.

They naturally don't believe it!

That's also because the target group of Maya Industry is not the majority of people at all.

They are aimed at the top dozens of the top powerhouses in the gods list.

At present, with a variant of the immortal system of the living dead, plus the most violent brain, if you have suitable offensive methods.

You can easily kill the strong people in the forefront of the gods.

...

Therefore, everyone was stunned by what Levi Garrison said. Everyone thinks that Levi Garrison is blind.

The Return of the God of War [The Protector] Chapter 2372

“Levi Garrison, are you saying that these monsters are weak? Well, I’ll find one and fight with you to see if its offensive is weak?”

Li Songkui said dissatisfied.

“Ye monarchs of what you do not know your own strength? Said this variant of the monster offensive game needs rich!”

“Do you really think one is a ah! Say such things out!”

.....

this time Zhao Jun Fei suddenly shout “I...I understand!”

...

“What?”

Everyone looked at Concubine Zhao Jun.

“Levi Garrison must be scared! He

...

just asked everyone to withdraw and evacuate!” “Just now you encountered a scene surrounded by hundreds of monsters. The group of Levi Garrison Kirin (Qilin) is even more difficult, surrounded by thousands of monsters! Levi Garrison must be surrounded by thousands of monsters! I was scared at that time! It’s not surprising to want to evacuate now!”

Zhao Junfei’s explanation made everyone feel reasonable.

Levi Garrison must be scared.

Want to leave here.

Just said a reason for such an absurdity!

“Then tell me, why Maya Industry held this challenge, and what are they for?”

Levi Garrison couldn’t help asking.

But now, everyone can’t listen to his words.

“Anyway, whoever is afraid will withdraw. We won’t leave anyway!”

“So

are we !” “There are still us.....”

.....

Everyone expressed their opinions one by one.

“Furthermore! We have gone deep into the virgin forest. Now if we evacuate, it will take more than a long time. Do you dare to say you won’t run into this mutant monster?”

Someone told a fact.

If we withdraw now, it will be difficult.

“Just withdraw from this route! I have just cleaned up all the variant living dead on this route! If everyone wants to retreat, they must be safe and sound!”

Levi Garrison said.

He was just making preparations.

“Hahahaha...”

But when you say that, no one believes it anymore.

If Levi Garrison had this ability, he wouldn't be scared away.

"Then what should I do now? If the boss is scared, should we send the boss out?"

Azure Dragon (Qinglong) asked.

The brows also clustered.

He is also very embarrassed about this matter.

If you send Levi Garrison out.

Everyone has lost too much.

At least half of them had to escort Levi Garrison.

Others are also embarrassed.

He would rather bring Levi Garrison by his side, and follow the same grouping as Zoey before.

He didn't want to send Levi Garrison out now.

It takes too much time to go back and forth.

Everyone is unwilling.

“Since you are afraid of King’s Landing, then you hide first. Anyway, you just hid here, the mutant monster didn’t find you at all!

Let’s continue to participate in the challenge! After our challenge is over, we will come here and take you. Leave! Or if you are in danger, send a signal and we will appear immediately!”

Zoey said.

“Yes, let’s arrange some people around to participate in the challenge, so that we can support at any time!”

Azure Dragon (Qinglong) suggested again.

“Okay. Okay. I agree to do this!”

“I agree too!”

...

At this moment, for them, time is pressing, regardless of whether Levi Garrison agrees or not.

They execute directly.

After letting them hide here, they all left immediately.

Levi Garrison sighed helplessly.

Now, at least half of the information and data of the 20,000 strong have been collected by Maya Industry.

Levi Garrison would never allow them to collect the rest of the information data.

Regardless of the strong or the weak.

No matter who is behind Maya Industry?

It's the Lab of the Gods that is better!

But Levi Garrison was embarrassed at this moment.

I directly said the reason, but few people believed it.

No one even believed it.

So how to stop it?

This is where he worries.

Touching his chin and thinking for a long time, Levi Garrison smiled suddenly. There is a solution...

The Return of the God of War [The Protector] Chapter 2373

That is to solve the problem from the root!

After Levi Garrison went out, he killed all these mutant living dead.

See one kill one.

Let Zoey not be able to touch any of them, then see how Maya Industry collects the remaining information and data.

Killing all the variants of the living dead is still quite difficult.

Too much, or to kill soon.

...

The underworld god Li Chengmin's shielding interference couldn't keep up.

And over time.

Levi Garrison will definitely be exposed.

...

In that case...

Levi Garrison thought of a way.

He slowly took out a black mask from his body.

The mask of the demigod and devil.

Mask of the Dark God!

Putting on this mask, no one knows his true identity, and will think about the dark god.

He will never be exposed.

At this time, Levi Garrison was wearing a mask, he could do whatever he wanted, and he could kill.

If there is any question in Maya Industry, they will think about the dark god.

The Dark God has this strength, as well as motivation and reason.

They absolutely never expected Levi Garrison to come from him.

As for the fact that Levi Garrison himself was found in the marshland, the Mayan industrial spies who were among the strong gang had long exposed the marshland to the Mayan industry.

“Okay, Levi Garrison has a hiding place, but now the focus is not on him, it is the strong man who can kill the mutant living dead! Anyway, Levi Garrison is hiding there and can’t run away! Just kill him in the end!”

“Now that the strong man who can kill the mutant living dead has a clue?”

Asked the Maya industrial executives.

“No, there is no clue at the moment! We are still investigating! Once the strong man makes another move, there must be a clue!”

...

Everyone knows about Levi Garrison’s hiding in the swamp.

But he is a small role now, no one cares.

Now Levi Garrison appeared wearing a half-god and half-devil mask.

“Kill!!!”

After encountering the mutant living dead this time, he unscrupulously tore directly.

“Boom!”

“Sneer!”

“Kacha!”

..... The

unbridled, murderous Levi Garrison was terrifying.

These mutant living dead are in Levi Garrison's hands, just like paper tigers.

It shatters with a light touch.

One!

Two!

... a

hundred!

Mutant living dead, Levi Garrison really saw it destroyed, saw it killed.

Don't you want to collect information data?

Then I can kill all of them, right?

...

Five hundred!

...A

thousand!

...

Two thousand!

...

Three thousand!

Levi Garrison's mutant living dead are falling more and more.

The number is increasing.

That is, the virgin forest is too big.

Otherwise, Levi Garrison would definitely be able to make corpses all over here, and there were corpses everywhere.

...

Soon, the number of mutant living dead fell to five thousand.

Killed so many.

Levi Garrison also found a problem!

The previous variants of the Sanxing Group's laboratory were stronger...

that was because they were uncontrolled, their strengths were completely released, and under the urging of the most violent brain, they were able to save everything.

Now that the variant living dead of Maya Industry is under control, it is impossible to use its full strength.

So be weaker!

Levi Garrison was like a god of death descending in the virgin forest, and quickly killed more than 6,000 mutant living dead.

In the end, these mutant living dead were afraid that Levi would come.

Seeing other people, no matter how strong you are, whether you are in the top dozens of the gods or not, they will all rush forward in desperation.

Bite your blood and flesh directly.

But now after seeing Levi Garrison, I'm scared!

This group of mutants are scared of the living dead.

Not controlled by the Maya industry, it makes a sound of fear.

As soon as he saw Levi Garrison, he turned around and ran.

That is a kind of suppression from the depths of the soul!

They are terrified!

Levi 's presence in front of him is like a god! Seeing this scene, everyone was dumbfounded.

The Return of the God of War [The Protector] Chapter 2374

Because there are still a lot of strong people who have challenged and experienced around, and the number is still quite large, probably hundreds of thousands.

Everyone was wounded, and they had just fought against this group of mutant living dead, and survived nine deaths.

I thought I avoided them and could rest for a while.

Unexpectedly, thousands of variants of the living dead rush to come.

I thought it was for everyone.

Unexpectedly, these mutant living dead seemed to be frightened.

...

One by one fled frantically and ran past them.

Ignore their existence completely.

This has caused the mentality of many strong people to collapse.

...

Is he not even an opponent in the eyes of these mutant monsters?

Didn't they see it before, so they rushed over to bite?

What's going on now?

See how the mutant living dead screamed and ran away.

It's hard for everyone to imagine, there is something that can scare them?

How is this possible!

When they saw the figure behind, everything understood.

These mutant living dead are afraid of him!

Because everyone felt terrible murderous aura from this person...

like Shura from hell!

It seems to be the god who is in charge of the life and death of all living beings!

The terrible killing intent on him!

Anyone who sees it has to lie down and worship.

“Puff!”

“Puff!”

...

Under such terrible pressure, these masters fell to the ground one by one.

Shortness of breath, I can't even gasp.

It seemed that an invisible hand was strangling their throats.

This is the momentum!

As soon as the momentum is on, sentient beings creep.

Levi Garrison stepped in front of them and headed straight for the mutant living dead.

Under their noses, hundreds of variants of the living dead were torn apart with bare hands.

It was spread in the virgin forest before that there was a top-notch strong man who was able to shred the mutants of the living dead.

At the moment.

They finally saw it!

“God, I saw the ceiling of combat power! My God! There is no regret in this life!”

Countless people sighed like this.

...On

the aircraft carrier of Maya Industries.

“What? The mutant of the Living Dead Army was afraid of being beaten? It ran away? Was beaten to death?”

When the senior officials heard the news, they went crazy.

“Impossible! The setting of mutant living dead is the most violent brain! Fear and fear are impossible! They are not human! They have the most violent brain, these things cannot be felt!”

“They will run away? Isn't it? Possible thing! We don't believe it! Our experimental product, we can make this guarantee! Do you know what the most violent brain means? Fear can only be the fear of others...”

...

Several experts in Maya Industry, resolutely Don't believe the mutant living dead are scared.

Also ran away!

Both theory and practice are impossible!

“I know you don't believe it! But we have evidence! There are live videos and photos!” The

others immediately projected the video.

In the video, the picture returned in real time.

The mutant army of the living dead fled.

A look of horror appeared on their faces, and they also made screams that resembled human beings and did not belong to them.

While running, he looked back.

This made several experts vomit blood on the spot!

Their most proud and perfect work!

I was scared to fear!

The living dead variant, which had no shortcomings before, now has shortcomings.

“I see! It means that the other party is super terrifying and powerful! The suppression of the depth of the soul and the breath! Makes them all scared!”

someone shouted.

At this moment, they all want to know what kind of existence it is that can scare the mutant living dead into this...

“Cut the screen to the back!”

a high-level commander ordered.

Soon the picture cut to the back of the escape from the Legion of the Living Dead.

A figure chased unhurriedly.

When I saw the mysterious mask of demigod and devil on his face.

The whole audience was silent. He is the dark god!!!

The Return of the God of War [The Protector] Chapter 2375

Found it!

Got it!

Who is the existence that can kill the mutant living dead!

Dark God!

God list first!

Previously, all parties speculated that the one who could kill the mutant living dead must be the top few of the gods!

...

Not even the first few!

Only the legendary dark god can do it!

In fact, everyone didn't guess who it was.

...

But what kind of combat power, everyone understands, it is the first level of the gods.

It is the dark god who has recently expressed his power!

For a long time, the dark god has been ranked first in the god list.

But the specific combat power is being analyzed by all forces.

According to the previous analysis, the Dark God ranks first, not much better than the second and third.

So the number one in the god list is definitely not the overlord of the crushing level!

It can even be said that there are people who can challenge and shake this position at any time.

But recently, the Dark God first made a movement that shocked the entire Western Continent.

Later, he accepted the challenge of many strong men and eliminated them all in one move.

After the real shot, everyone was scared.

Including Maya Industry!

Because after the Dark God shot, it was beyond everyone's expectations.

Why is he so strong?

It's totally different from everyone's imagination!

For the entire list of gods are crushing levels!

Previously, in everyone's analysis, the battle power of the first in the Dark God God List was about 1.5 times that of the second and third, or about twice.

But after he was shocked and shot, this data has changed drastically!

The true strength of the Dark God may be more than a hundred times that of the second and third of the god list...

This stunned the great forces of Maya Industry.

I always feel that something is wrong...

Although the Dark God has always been mysterious, they are all under their surveillance.

He has a general understanding of his strength... But when

he came out this time, he was at least a hundred times stronger, or more.

What is going on here?

This makes everyone very strange!

And according to the major experts in the Maya industry on the strength of the body and brain of the variant living dead.

It was impossible to directly kill the top three combat powers of the previous gods, and could only destroy and damage them by a large margin.

But now the Dark God, the number one in the gods list, is too terrifying.

It's not at the same level as the previous ranking first.

He could kill the mutant living dead...

Who can kill the mutant living dead in this world now, except for those who are hidden from the world.

On the bright side, there is only the God of Darkness...

"It's him! It really is him!"

Many of the senior leaders of Maya Industry have actually guessed that it is the God of Darkness.

After all, before the Bible organization allowed one-third of the strong to withdraw, but it was his order!

So everyone has a prediction in mind.

But when they saw the Dark God with their own eyes, everyone still wiped a sweat.

It's horrible!

It was the first one that could kill the mutant living dead, and it could scare this group of machines full of violence into this.

It's horrible! ! !

This taught Maya Industry a lesson!

Their variant of the living dead is not perfect!

Let alone the problem of insufficient offense, the key is that the problem of defense and physical strength is not perfect!

"What the hell is the Dark God going to do? Is he determined to do it with us?"

"We haven't offended him? There's not even a conflict at all?"

...

Maya Industry was afraid of the Bible Organization from the beginning, so It has always been an evasive attitude.

Can not contact without contact, let alone contradictions.

“Yeah! There is no hatred between us, what is he doing?”

“Could it be that our intention was exposed? Came to stop it?”

“But it has nothing to do with him, right?” “Strange, really. It’s so weird! I always feel that something is wrong, and I can’t tell. What’s the problem?”
