

# The Return of the God of War [The Protector] Chapter 2381

Dark God? ? ?

Why is he here?

Shouldn't it be Levi Garrison here?

How could it be him?

And the backs of Dark God and Levi Garrison are too similar, right?

It's exactly the same!

...

Everyone was in a trance.

"Anything?"

Levi Garrison asked.

...

"I...we are looking for someone...then we leave first!"

everyone said tremblingly.

Who can afford this?

Everyone looked around, and Levi Garrison was not here.

Is he in danger, or ran away?

Furthermore, the presence of the dark god here means that there are variants of the living dead here.

Well, most of Levi Garrison...

thinking of this possibility, everyone was frightened in a cold sweat.

“I know who you are looking for! He has left the primeval forest! Waiting for you where you left off!”

Levi Garrison couldn't help but say in order not to worry everyone.

He was going to just come here to wait for them.

It's just that there was a little obstacle on the way. When they arrived, Zoey and the others had already arrived.

He didn't even have the effort to take off the mask.

“Thank you, Master!!!”

Zoey and the others were surprised and ran away quickly.

Went to see Levi Garrison.

In their opinion, it must be the Dark God who rescued Levi Garrison!

And the whereabouts are so detailed!

More sure.

After Zoey and they left.

Levi Garrison also left.

But he came from another direction.

After confirming to bypass Maya Industry's surveillance, Levi Garrison fled.

When Zoey and the others withdrew from the primeval forest, Levi Garrison was really waiting for them.

"It's okay, let's go back. If you stay here, there will be

more fortunes!" Everyone left without staying too much.

...On

the aircraft carrier of Maya Industries.

“It’s strange to say that the Dark God has always been under our surveillance! Why did he disappear suddenly?” The

surveillance team was all surprised.

“Normal! The Dark God is so strong! It was deliberate to let you detect it!”

said the senior.

“If there is a dark god, our next series of plans will be difficult to implement! But they can’t be eliminated! Hey...it’s hard to do...”

Everyone’s expressions grew gloomy.

“Who said we must get rid of it? Cooperation is okay! We can find the dark god to cooperate!”

“After all, we have a lot of bargaining chips in our hands...”

” Cooperation is okay ! It is indeed possible!”

“Then we will have two tasks. —First, talk to the Dark God about cooperation; second, analyze the collected data to enrich the attacking methods of the living dead!”

But everyone’s expressions are still gloomy.

I thought it would be invincible to create a Legion of the Living Dead, even the top ten of the gods had nothing to do.

Push and crush this world horizontally.

Let everyone have nothing to do!

But this time, it was detected.

For the real strong, it is useless at all.

They can only come slowly step by step.

...

This challenge is halfway through, and it's over.

However, the God List and the Quasi God List have also undergone major adjustments.

However, due to the large number of participants, there was no major adjustment.

Basically, they are hovering in a few.

However, Zoey has made great progress.

From the top 100 on the list of gods, directly into the top 50 of the list of gods!

It was not much different from Kirin ( Qilin ), the Evil Sword God, and Xiao Feng.

The Li and Zhao family who followed went through nine deaths, and those who survived grew rapidly.

The increase in combat power means that the ranking is also improving.

All were delighted.

On the contrary, Levi Garrison's ranking of the quasi gods actually regressed...

That was because Levi Garrison did not perform substantively this time, and did not move at all.

With a lot of experience, his strength has improved by leaps and bounds.

Therefore, his ranking naturally fell. "Master, you have only half a month left in the three-month period with your mother! Why has your ranking dropped?"

## **The Return of the God of War [The Protector] Chapter 2382**

Xiao Feng looked at Levi Garrison suspiciously.

Full of worry.

"Yes, Master is already in the top fifty of the god list! Master, your quasi god list is ranked more than 7,900! This is completely the difference between heaven and earth!"

Zhou Ke said helplessly.

As Levi Garrison's apprentice, they didn't want Levi Garrison to be abused too badly.

It's a matter of face!

...

No one wants to be cruel!

Don't talk about comparing it with plums now.

Compared with Li Songkui, they are all in the sky and the other underground.

...

What's more, Zoey is terrible, right?

Has entered the top fifty of the gods list!

At her terrifying speed, entering the top 30 will definitely not be a problem in the next half a month.

The top twenty, the top ten, it is possible to return to the top!

In addition to her own hard work and excellence, the key is her master!

That's the dark god.

This time the virgin forest battle, let everyone know how terrifying the Dark God is!

It is only natural for his apprentice to make progress so quickly.

"Don't tell me! The reason for the decline in the ranking of King's Landing is because he hasn't practiced well before and has been practicing old things! This time he must wake up! Cultivating the current exercises and combat skills must be extremely fast!"

Zoey looked at Levi Garrison said, "Let's do this for King's Landing, the March period is not fair to you! Let's extend the time, half a year, or even a year! Let's compare when the time comes!"

Others nodded, "Yes, I think too. That's right! The time should be extended!" In the

primeval forest, after Levi Garrison felt desperate, the next step was to practice frantically and abandon the old things!

Give Levi Garrison enough time, it might not be impossible to fight with plum dye.

Levi Garrison smiled, "It's okay, three months is three months! Don't change the set date! I don't need that long!"

"This..."

Everyone looked at Levi Garrison with weird expressions.

This is the time, but still so strong?

It's not ashamed to extend the time, it's ashamed to lose to Zoey.

Especially with only half a month left, how to make up for such a big gap?

It is absolutely impossible!

Levi Garrison is either a lunatic!

Either you are a fool!

However, Zoey didn't say anything, and directly agreed, "Okay, the period of March is March!"

Anyway, she set the period of March, the first is to motivate herself to improve.

Second, and the main reason-Levi Garrison deeply realized his own shortcomings and weaknesses, so he went crazy and strong!

Comparable, unimportant.

Mainly to make Levi Garrison improve.

Now that Levi Garrison is looking for abuse by herself, she can't help it.

For fifteen days, Levi Garrison couldn't change anything at all.

Anyway, if you want to abuse him, you have to abuse him more thoroughly and make him work harder to adapt to this era!

This is what Zoey wants to see.

Zoey nodded, "Let's do it! I'll see the difference in fifteen days, but I want to see how far you can grow?"

"Hey!"

Xiao Feng and the others sighed.

This time people are going to lose a lot!

Than master?

It can't be compared at all!

Compared to apprentices, they are also hanging!

Sooner or later, Xiao Feng's position will have Zoey surpass...

Everyone went crazy and practiced...

because they had seen the ceiling of this world's combat power and knew where the limit was...

Zoey also walked up to Levi Garrison's presence. I choose your practice! I know that she is testing me, sorry for King's Landing, but in the end I chose Master's practice!"

"The effect is, you can see it! I am making rapid progress! In addition, how terrifying the Master is, you Although I haven't seen it with my own eyes, have you heard other people say it? How strong is the number one in the gods list!"

Zoey was showing off his master to Levi Garrison. Levi Garrison nodded, "Well, the dark god now is really amazing!"

## **The Return of the God of War [The Protector] Chapter 2383**

Because it's me!

Can it be great?

Levi Garrison added something in his heart.

But this sounded like an ambiguity.

Zoey asked puzzledly, "Then you weren't great before?"

"Yes! You understand what I mean! She was really weak before!"

...

Levi Garrison nodded.

“Pump!”

Zoey smiled immediately.

...

“My master has always been strong! You say this as if you have fought against each other!” The

Dark God is invincible in Zoey’s mind.

It is the existence of faith!

Levi Garrison said that she was weak before, and Zoey naturally refused to agree.

“Not only did I fight, I also killed...”

Levi Garrison did not continue.

Going on, it hurts peace.

“Don’t talk about this kind of thing next time, it won’t be heard well by others!”

Zoey was slightly dissatisfied.

... In the

next few days, Levi Garrison couldn't find anyone.

Because he was thoroughly investigating the relationship between Maya Industry and the laboratories of the gods...

more and more felt similarities.

This made Zoey overjoyed them.

I thought it was this challenge that inspired Levi Garrison, making him completely crazy.

“Actually, I don't have to compare results, all to motivate him to work hard! Isn't the effect coming now?”

Zoey was very satisfied.

Azure Dragon (Qinglong) and Kirin ( Qilin ) are also very satisfied.

“By the way, we are going to give the boss a gift! When the boss leaves the customs, let's find him!”

Zhu Que said with a smile.

“What gift?”

Everyone asked curiously.

“It’s not that Maya’s weapons are indestructible, but are there special elements? All forces are studying countermeasures! At present, there is no solution except for deep-sea precursors! Although there is no solution, there is a way to prevent it!”

“Kunlun The industry has developed a special battle suit that combines modern technology and ancient mechanics! Not only can it prevent the penetration of Mayan industrial weapons, but also prevent the intrusion of special elements!”

“The most important point is that this special battle suit can hold it. The horror blow of the top five on the god list! The data can even be accurate to the second and third horror hits of the god list!”

...

“What???”

When Phoenix (Suzaku) said this, the audience was boiling. NS.

And this kind of suit?

Can hold the second and third attacks of the gods?

What kind of suit is that?

There is also the prevention of the intrusion of Mayan industrial elements...

If this spreads, I am afraid that the whole world will be a sensation, right?

This is a super great masterpiece!

Except for being ranked first in the gods list, everyone else is immune to attack.

Unimaginable!

Of course, the number one on the god list is too strong, and no one takes him to make a fuss at all.

After ten years of research, I didn't understand it.

However, you can study the second of the gods list, and you can only start from the second study of the gods list.

This is promising.

Don't even think about being number one on the god list.

There is no hope! "However, at present, whether there is an effect that can block the second and third attack levels of the gods is still in the experimental stage, and it is necessary to find volunteers to wear special suits for testing! It is currently uncertain! Maybe the volunteers are in danger! Now volunteers are all Not many

!"

Phoenix (Suzaku) sighed.

Now this special battle suit is just an experiment with the top 30 and top 20 attacks of the gods.

As for going further, the top ten or even the top five of the gods list are all theoretical.

Everything is still in the experimental stage!

Marshal Tiance is still looking for volunteers.

He is not allowed to participate in the experiment...

“From our relationship, you should be able to get a special battle suit! At this stage when the boss is not up, it can play a big role! It can save your life!”

“See you When the boss has worked so hard, let’s give him one!”

“Well, we must fight for one!”

... For Levi Garrison, Phoenix (Suzaku) and the others are willing to fight for Tiance Marshal.

## **The Return of the God of War [The Protector] Chapter 2384**

A few days later.

Levi Garrison appeared.

The reason is not that there are any major findings.

It was because the Bible organization contacted Levi Garrison.

Said Maya Industry wants to meet him and talk about cooperation!

Levi Garrison just appeared.

...

As for the matter with Maya Industry, Levi Garrison must consider thinking about it before replying.

Zhuque found Levi Garrison with them.

“The boss sees that you have been working hard recently, how much has your strength improved?”

...

Kirin ( Qilin ) asked.

Azure Dragon (Qinglong) immediately said, “It doesn’t matter how much your strength improves, just work hard!”

“Boss, come with us to the Kunlun Industrial Headquarters. We have prepared a gift for you!”

everyone said excitedly.

“Okay!” In the

end, even Zoey and Xiao Feng went with them.

Everyone has a keen interest in Kunlun Industrial's special battle clothes.

After arriving at Kunlun Industrial's laboratory, everyone was about to go in.

The marshal Tiance appeared.

Recently, he was looking for volunteers to experiment with the defensive power of the special suit.

So these days are at the headquarters of Kunlun Industry.

"Huh? What are you doing here?"

Tiance Marshal asked curiously.

"Marshal, let's get the battle clothes, you promised!"

Azure Dragon (Qinglong) said humanely.

After seeing Levi Garrison, the marshal Tiance sneered, "Do you want the battle clothes for Levi Garrison?"

"Yes..." The

expressions of Azure Dragon (Qinglong) and others changed.

At this time, it is useless for them to quibble.

“I thought this battle suit was for your own use, so I agreed! I knew it had nothing to do with you, it was for outsiders. I definitely wouldn’t agree!”

Tiance Marshal said.

Azure Dragon (Qinglong) had nothing to say.

It is true.

This time, the special uniforms can only be allocated to personnel within Kunlun Industry.

No outsider!

Levi Garrison seems to be an outsider in Kunlun Industry!

according to rules!

You definitely can’t get a battle suit!

Phoenix (Suzaku) couldn’t help but say, “Young Marshal! No outsiders! But our boss is not an outsider! At least he is the founder of Kunlun Industry! How can we be regarded as insiders!”

Several other people immediately said, “Yes, young marshal, boss. No matter how they are considered to be the insiders of Kunlun Industry.”

Tiance Marshal smiled, "You are a bit far-fetched? Do you want everyone in Kunlun Industry to vote to see if there are many people who recognize him or those who don't. More?"

Hear this.

The complexion of Azure Dragon (Qinglong)'s people changed.

If they vote, 70% to 80%, or even more, would think that Levi Garrison is not an insider of Kunlun Industry.

The young marshal Tiance said, "However, since he really proposed the founding of Kunlun Industry, I decided to give a face!"

"Thank you, Marshal!!!"

Everyone quickly thanked.

"Don't be too busy, thank you! Conditionally!"

"I haven't been looking for volunteers recently? Where is the defensive power used to experiment with the suit!"

...

Hearing this, everyone's expressions changed. .

Sure enough, nothing good!

“Let’s do this, as long as Levi Garrison is a volunteer and wears a special uniform to conduct defensive experiments! The special uniform will be given to him for free!”

Tiance Marshal sneered.

“Marshal, this is not good! Life is in danger! In case you can’t bear the limit! That kind of person will be torn apart!”

Azure Dragon (Qinglong) and the others immediately refused to agree.

Day policy Marshal nodded “Yes ah, I know. So hard to find volunteers! Available for experiments! Experiments must be dressed by real people, have the best results!”

“It does not work! Life-threatening not to participate in the! Battle No more clothes!”

Zoey Xiao Feng and they also didn’t agree.

Marshal Tiance sneered, “Okay, it’s okay, don’t force it!”

“It’s okay, I promise! Shall I try this suit?”

Suddenly a voice sounded.

Levi Garrison!

He agreed.

If this suit is successful, it will be good for Daxia. Why can't he try?

## **The Return of the God of War [The Protector] Chapter 2385**

In fact, what is hard or not, and how strong is its defense.

Just use his fist to test it!

See if you can withstand his punch or finger!

If you follow Levi Garrison's standards, then Heavenly Sword and Earth Sword will not be qualified!

After all, my finger was knocked off...

How can there be quality and defense?

...

"Okay, do you want me to directly smash the battle clothes in your mouth?"

Levi Garrison asked seriously.

He thought the test was this!

...

“No, what did you test? Didn’t you hear clearly? You were told to put on a special suit and then be attacked to test the defense of the suit, understand?”

Tiance Young Master sneered.

“Let’s go,

let ‘s go! Haw!” Levi Garrison is also mainly for the brothers, just wear it, it doesn’t matter.

If you attack the test, you can hurt him, Kunlun Industry is awesome! ! !

“Boss is dangerous, we don’t want it anymore!” It

was originally for stability.

I want to add a layer of protection to Levi Garrison’s safety.

But this price is a bit high.

Haven’t enjoyed the protection yet, but have to face the danger ahead of time.

“It’s okay! Let me try it!”

Levi Garrison smiled.

After arriving at the specific laboratory, Levi Garrison put on a special uniform.

It was different from the heavy armor he imagined.

This battle suit is even thinner than ordinary clothes.

The weight is also very light, it is very comfortable to wear, without a little cumbersome feeling.

“Yes! Yes!”

Levi Garrison praised it from the bottom of his heart.

Now this technology has one thing to say, but it does have two effects.

“There are still shortcomings! It can't be compatible with offensive technology and can only play a defensive role!”

Tiance Young Marshal looked a little sad.

“Defensive is actually offensive!”

Levi Garrison said lightly.

The Young Master Tiance smiled suddenly, “Listen, the king-level speaking means you have a level! It's all right!”

Levi Garrison put on a special uniform and went to a very large laboratory.

This laboratory is located hundreds of meters underground.

After arranging Levi Garrison to stand at the designated position, all the others left.

“Boom!” After the

laboratory door was closed, everyone looked at Levi Garrison inside through the glass.

Everyone’s fists were clenched and they were extremely nervous.

Levi Garrison looked calm, observing the structure of the laboratory.

Five hundred meters in front of him, there are several huge openings.

“Marshal, everything is ready! Do you want to start the test?” the

laboratory staff asked.

“Okay,

let’s start!” Tiance Marshal said.

“So what is the level of attack?” the

laboratory personnel asked.

Generally, there is a fatal blow at the 30th rank of the god list, the first 20 and so on...

Now Kullun Industry is trying to try the top ten rank of the god list!

“Set it directly to the highest! Imitate the full blow of the second and third on the trance list! Come to attack Levi Garrison!”

Tiance Young Commander said coldly.

Since there are volunteers to test, why not test the limit directly?

Everyone doesn't know how strong is the number one on the god list.

Marshal Tiance can't do it either!

But the second and third in the god list, he can simulate the setting according to his own strength and the strength of many people.

The deviation will not exceed one percent!

Just imitating this horrible blow requires a lot of energy materials!

Only when converted into super energy will a powerful blow come together!

“Okay? Marshal, this is a bit too far! The most extreme at once?”

Take it slowly! The first ten, and then extend it slowly, right?” This frightened Azure Dragon (Qinglong) and the others.

After all, this is a test.

Testing means risk!

In case the special battle clothes were torn, Levi Garrison would be in danger.

“We won’t do experiments anymore, and we won’t need our uniforms! Let the people out and let’s go!”

Zoey got angry and was about to move the door. It’s just that the marshal Tiance stopped her, “No, it’s already started, I can’t quit!”
