

The Return of the God of War [The Protector] Chapter 2391

“No matter what era, you should be a king-level existence! Not like now...More than 7,000 in the quasi god list, it is a joke to spread out! I am ashamed of you!”

Asura war god said helplessly.

“That’s true! Many people who don’t know you can’t understand why the 26th strength of our boss, the leader of the gods, used to target you in the past! It is really shameful to say it!”

“And your apprentice, brother , Your subordinates, and even your wife and daughter, are the top superpowers on the god list!

You can’t beat everyone around you! We also heard that your father-in-law and mother-in-law are on the god list, even your grandparents are ranked better than you High? How did you do it? They give you so many modern techniques. If you don’t practice, why do you have a face?”

“We beg you, hurry up and work hard to become stronger! You are not ashamed, and we are ashamed! your relevant people will be ashamed of! reduced to this former king how it! ” “

...

even the elderly and infirm do not like! you’re alive What does it mean? when you want to waste it? “

.....

seven killed, several people mercilessly breaking the military The accusation of Levi Garrison.

...

Zoey didn't stop it.

Instead, she needed such a person to stimulate Levi Garrison.

Only when Levi Garrison is hit to the end, will Levi Garrison hit the bottom and rebound!

And these people in the Seven Kills speak more directly!

Almost every sentence is like a knife, and the knife sees blood!

This kind of stimulation is the best!

Because they don't need to care about Levi Garrison's emotions, so they can't stop talking.

This is a huge blow to Levi Garrison!

It's good for him too!

Perhaps the desperate situation encountered in the virgin forest is not as good as the few words of the seven kills breaking the army now...

"Although it is saying that, but we hope you can get rid of the status quo as soon as possible and become a top powerhouse! I am waiting for you to surpass all of us! If you need help, just ask us!"

Shura God of War said.

Fan Shengnan nodded, "Need help, please find us at any time. But we have other things now..."

Levi Garrison ignored them and turned to enter the villa.

Zoey asked, "What's the matter with you? I see if I can help!"

"We heard that your master, the Dark God, is here...We want to see you!"

Fan Shengnan stated his purpose.

Originally, many forces in Daxia were controlled by the Bible organization.

Especially the Great Summer League was organized by the Dark God.

Xiuluo and Fan Shengnan are now greatly improved in strength, relying on the Dark God and the Bible organization.

There are others too.

In addition to the Great Xia League, there are dozens of great forces who also come to see the God of Darkness.

After all, the Dark God and the Bible Organization gave them everything.

Now the Dark God has come to Daxia, and they should see him.

“Okay, let me ask Master to see if she can see you!” After

Zoey dyed back, he shouted to the villa, “Master, there are a bunch of people outside wanting to see you, can you see it?”

“See you!” “A

voice came from Levi Garrison’s villa.

Plum dyed his face with surprise.

As expected, the master was still in Levi Garrison’s room.

Sure enough, my guess was correct.

As for where Levi Garrison went at the moment, she was not interested in knowing.

And the master responded aloud, maybe Levi Garrison is under control now, he is sleeping!

Zoey hurriedly came outside and told Shura the news that the Dark God wanted to see.

Everyone looked excited.

Follow Zoey into the villa.

Levi Garrison's villa.

He is sitting.

It's just that there is an extra mask on the face.

No one doubted his identity!

"Meet the Dark God!!!"

Shura, Fan Shengnan and everyone all knelt to the ground.

The dark god is equal to the teacher, and they naturally have to kneel. The people behind became more and more crazy.

The Return of the God of War [The Protector] Chapter 2392

One by one, they were crawling on the ground like devout believers, their eyes full of madness.

Seeing the Dark God with their own eyes has already brought tears to their eyes.

As if seeing a god!!!

But the dark god is the god!

First, give everyone present magical powers to make them so powerful!

Second, control one-third of the world's power!

...

Third, the first in the gods list, the invincible combat power everyone is terrified!

Isn't this a god yet?

Dark God is definitely the idol belief of Shura God of War, Fan Shengnan and others!

...

Especially in the eyes of people like Shura who worship the strong, they are even more gods!

Shura, who had always been cold, was not calm when he saw the Dark God.

The eyes are full of heat and madness!

"My greatest hope in this life is to follow you!"

...

After seeing the Dark God, everyone revealed their own voices.

Levi Garrison looked helpless, "I'll just say you are here to find me?"

“Huh?”

Hearing this, everyone was taken aback.

What does the dark god mean?

correct!

It should be the dark god who knew they were coming.

It’s like a god!

Control everything!

God-like existence!

“Being a member of the Bible Organization is the smoke from my family’s ancestral grave!”

“Yes, even forces of the Maya industry level are helpless. They have to negotiate with you!”

.....

Everyone was delighted and excited.

I don’t know what to say.

Looking at the major forces of Daxia.

Levi Garrison understands something. Why does the Bible organization madly control so many forces in Daxia?

It seems to be in the layout!

The plan of the dark god sooner or later should be to enter the summer, so these people are planning ahead.

Dark God manages such a big game.

What is she afraid of?

What makes Daxia afraid of her?

But it doesn't matter!

Levi Garrison wanted to see what is sacred?

The Asura War God group came to find the Dark God, and nothing else except flattering and awe.

Levi Garrison was tired of listening.

"Let's go if it's okay, I'm going to rest!"

Levi Garrison waved his hand impatiently.

Everyone immediately left obediently.

But everyone was hovering at the door.

“What do you think of the face under the mask of the Dark God? Young handsome? Or middle-aged? Or old?”

“I think it should be a young man! At least the face looks very young!”

...

Everyone is discussing the Dark God Real face.

But everyone thinks that the dark god is male.

They all start from a male’s point of view.

Zoey covered his mouth and chuckled aside.

Except for her, no one knows what the face under the mask looks like in this world, right?

It’s a girl!

No one thought of it, right?

At this time, Fan Shengnan resolutely said, "I think the Dark God is a woman! Judging from her previous style of doing things, she is very delicate! Not male! Definitely female!"

"Ah?"

Fan Shengnan said.

Everyone looked at her strangely.

"How can it be a woman? Impossible! God of Darkness knows that it is a man in the whole world!!! You ask other people, is it a man?" He was

immediately rebutted by everyone.

The whole world thinks that the dark god is a man!

All think so.

"No, no, I just observed it carefully, and based on her previous style of doing things, she has a

70-80 % probability of being a woman!" Fan Shengnan still observed the details.

Zoey nodded approvingly.

“It’s a man! I bet you, it must be a man!”

“Female! I think it’s a woman!”

... At

this time everyone quarreled.

Zoey said helplessly, “Well, let me tell you! The God of Darkness is a woman!”

Suddenly, there was silence in the field, and there was no sound.

“No! It’s a man!”

“To be exact, it was a woman before, but now it’s a man!” Another voice came!

The Return of the God of War [The Protector] Chapter 2393

Hearing the sound, everyone looked over.

Even Zoey looked over.

Levi Garrison was happy.

I’m the f*cking god of darkness!

Do you know me personally?

I am a male or female, don't I know?

...

Levi Garrison came out...

Everyone's expression changed.

Because Levi Garrison came out of the room where the Dark God was just now.

...

Seeing everyone's misunderstanding, Zoey immediately explained: "Master does live in his villa, but we can't find the exact location!"

"Don't listen to his nonsense! I've seen Master's true face! Don't be jealous! Don't quarrel!"

"Master is a woman's matter, you must not spread it out!"

Zoey also warned.

Everyone nodded in unison: "Yes!"

Soon.

The next day's negotiation meeting will be here.

The delegation of Maya Industry came to Jiangbei from the open sea.

In a pavilion in the heart of the lake.

Levi Garrison was wearing a mask and was waiting.

He wanted to see who it was...

Soon, everyone came one by one.

The leader of Maya Industry is not a single person, but a group of people.

There are about seven or eight people.

More than twenty people followed.

It is estimated that it is also the core high-level.

A large number of masters followed, and hundreds of them were ambushed in the dark.

It seems they are all a bunch of guys who are afraid of death.

Send out, there are so many people to protect!

Afraid of yourself?

Still afraid of Daxia?

Seven or eight leaders sat in front of Levi Garrison and greeted him.

“Huh?”

Seeing these people.

Levi Garrison couldn't help being taken aback.

Did you guess wrong?

Does Maya Industry have nothing to do with the Lab of the Gods?

Why don't these people know me?

In other words, I have never seen it before.

Could it be that they are really new big forces.

Not right!

There must be something wrong!

It's impossible to say that it doesn't matter at all!

"Dark God thank you for agreeing to the invitation..." The people of

Maya Industries began to negotiate.

Probably it is to let the dark god and the Bible organization not interfere in the Mayan industry. Any conditions can be opened!

Even Maya Industry can also alliance with the Bible Organization...

"Dark God, you have to know, once, you join us! Who can stop us in this world? Even Daxia, we have to walk sideways!"

Levi Garrison smiled .

"The alliance is not impossible, but you have to let me know your details, at least a little sincere! The Bible organization under me, although it controls one-third of the world's power, can be said to be a mob! What do you want to know? , I can say..."

Levi Garrison smiled.

"Dark God, what is your details, we still know a little! You personally killed one of the founders of the Lab of the Gods back then!

Now it seems that your strength has reached the point where no one can beat it! It is estimated that when you chose Daxia for the negotiation this time, which demonstration did you provoke?

After all, before you but can not enter the big summer “

he said several senior Maya industry.

Ye monarchs surprised a moment.

These guys, it seems that the original dark God than their own understanding of it.

” Oh yeah we are now more I have come to understand that the destruction of the Lab of the Gods was not because the Lab of the Gods was weak, but the God of Darkness was too strong! “

” Yes! At that time we still had all kinds of suspicions! It may be the scheme of those guys! Only by allowing the Dark God and the Bible Organization to destroy the Gods Lab so easily... Now everyone understands it, especially after the Dark God can kill the mutant living dead, we understand! “

...

Listening to the chat among the senior leaders of the Maya industry.

Stormy waves surged in Levi Garrison’s heart.

What? The

laboratory of the gods was really destroyed???? The

dark god did not lie?

Is it true that they brought Zoey to them ? God laboratory is gone?

The Return of the God of War [The Protector] Chapter 2394

Originally, he really thought that this was what the Dark God used to deceive plum dye.

Didn't expect this to happen?

However, Levi Garrison found it impossible. With the power of the God of Darkness and the biblical organization, even if it was to destroy the previous laboratories of the gods, it would be difficult.

Not to mention that the Lab of the Gods is just the tip of the iceberg that everyone sees.

Impossible!

Even if the laboratory of the gods was destroyed, it is probably deliberate.

...

Deliberately let the dark god, let others mistakenly think that the laboratory of the gods was destroyed.

The people of Maya Industries had the same suspicions as their own at first.

Feeling that the strength of the dark god is not enough, the laboratory of the gods was deceived to death, deliberately destroyed and disappeared.

...

But after seeing their strong strength, they all believed it.

Levi Garrison shook his head with a wry smile.

Hey!

Kind of blame yourself!

The current dark god is not alone with the previous one!

The combat power is not of the same level at all.

The current dark god is him, and he may be destroyed if he has strength, but the previous dark god can't do it.

She can't do enough to destroy the laboratory of the gods!

Your suspicion is right!

The Lab of the Gods did it deliberately... but

Levi Garrison was embarrassed to say it directly.

He could only follow Maya Industry's meaning: "Well, I destroyed the Lab of the Gods with my own hand! Many people did not believe it! But it is old history, and few people know it."

"But I listen to you. I just said that it seems that the demise of the Lab of the Gods has

something to do with you?" Levi Garrison wanted to test the details of this group of guys.

The words came out.

Dozens of people laughed.

"Let's say the Dark God, you are the last to destroy the Lab of the Gods! But this is half of our credit! Without our foreshadowing and action, you are afraid it will be difficult to destroy the Lab of the Gods!"

Someone said with a smile.

"Huh? Your actions? What actions? I'm afraid it's your identity... I have repeatedly investigated Maya Industry, but there is no clue. Are you related to the Lab of the Gods?"

Levi Garrison suddenly looked at the crowd and asked.

Everyone looked at each other and all smiled.

"It does matter! We used to be people from the Lab of the Gods..." As

soon as he said this, Levi Garrison clenched his fists, his eyes shot sharp gazes.

His killing intent enveloped everyone.

At this moment, everyone in Maya Industry felt like an ice cave.

The blood boiled all over, the pressure doubled every inch, and everyone seemed to explode.

Is this oppression from the gods?

Everyone panicked.

Looking at Levi Garrison incredulously.

No wonder the Dark God is number one on the god list, no wonder he can kill the mutant living dead.

Too strong!

“Don’t get me wrong, God of Darkness...we...we were from the Lab of the Gods before, but all of us here violated the rules of the Lab of the Gods and were designated as traitors, some were exiled to the wild, some He was kept in prison and tortured...”

“To put it bluntly, we are the traitors of the Lab of the Gods! We used to work for them, but we were not as good as the pigs and dogs! Our group of traitors secretly contacted and prepared to overthrow the Lab of the Gods! “

Because we know the core of the laboratory of the gods and basically know everything! So we quickly formulated a rebellion plan and implemented actions!”

“Finally, we dismantled the Lab of the Gods from the inside, and used the Dark God, you and other forces to destroy the Lab of the Gods from the outside! Under the attack of the inside and outside, the Lab of the Gods was destroyed...”

“But at first we all felt that The Lab of the Gods is deceived, how can it be easily destroyed. Our strength does not seem to be enough!”

“Later, after knowing your terrifying power of the God of Darkness, we determined that the Lab of the Gods was destroyed!”

...

shocked!

The Return of the God of War [The Protector] Chapter 2395

After Levi Garrison listened, he was only shocked!

The source of Maya Industry is finally known...

It turned out to be made up of traitors in the Lab of the Gods...

“Actually, it is not all traitors. There are those who are unsuccessful, some have been suppressed, and some are acting as cows in the Lab of the Gods. Ma...Everyone is extremely angry at the Lab of the Gods! They all want to replace the Lab of the Gods and walk its way!”

...

When it comes to the Lab of the Gods, everyone is angry to death.

...

Levi Garrison smiled and asked: "So the current Maya industry is actually made up of the old foundation of the Gods Laboratory?"

"Yes, that's right. I have to say that the advanced point of the Gods Laboratory was just a few years ago. Technology and technology are now at the top level! Today, the technology and technology owned by Maya Industry are all leftovers from the laboratories of the gods!"

"At present, the most famous is the special elements on Maya industrial weapons and variants of the living dead! This actually comes from the gods. One of the most terrifying doctors in the laboratory is his research and invention!"

...

...

Levi Garrison seemed to think of someone.

A slightly heard one.

"Is it the one who created the god-making plan in the past?"

Levi Garrison asked.

Everyone nodded immediately: "That's right, it's him! This scariest doctor is too powerful! Now half of Maya Industry's technology comes from him!"

"Three years ago, I still remember that Levi Garrison and Lucifer died together. Later, the doctor quickly resurrected Lucifer! But Levi Garrison also woke up at last!"

"Well, the doctor said that if Richard had not been blown up, he could also be resurrected. There are many more!"

"It feels like this doctor is a perfect combination of technology and witchcraft... he is terrible..."

Levi Garrison was already shocked when he heard that Lucifer was quickly resurrected.

At that time, Levi Garrison made a sigh of relief, just to die with Lucifer.

Resurrected so easily?

How scary is this doctor?

"The special elements used on our weapons are left behind by him! The whole world has been looking for a solution for so long to no avail!"

"There are also variants of the living dead, which are also the technical potions he left behind... They are just controlled. The method did not remain... we did it after a long time experiment... and then our improvement!"

"But we looked at his original plan, the variant of the living dead plan he is going to be used on large beasts! We are not as powerful as him and can only be used on humans..."

“Apart from these, many other things in Maya Industry are derived from the foundation of the Gods Laboratory! The new era is coming, various opportunities continue, and various relics and civilizations appear... ..But we did rely on the foundation of the Lab of the Gods to mix up to now. This is what makes us different from other forces...”

“They emphasize quick success, and each improvement in strength is just like riding on a rocket. However, we are not the same. , Rely on technology and ancient methods, and pay attention to actual combat!”

...

listening, Levi Garrison laughed.

“So you held two challenge series, on the one hand, to enrich the offensive methods of the variant living dead; on the other hand, I am afraid that it is to compare the gap between the strong in Maya industry and the strong in the new era?”

Levi Garrison asked.

“Yes, that’s right! After all, we are still on the old road! It is different from the new era! The first challenge is to record the initial state...”

“The new era is like opening a Pandora’s box. All kinds of opportunities are everything. I ran out. All the major forces have benefited!”

...

“I am more confused, the new era is coming... seems to have come suddenly?”

Levi Garrison frowned.

“Yes, we have also studied this...”
