

## The Return of the God of War [The Protector] Chapter 2407

Phoenix (Suzaku) asked a very sharp question.

"Does the boss really understand all of our exercises, and everything he says is true?"

...

Phoenix (Suzaku) said .

Everyone fell silent.

A long silence.

I really don't know how to explain this problem for a while?

Zoey said: "I think he is afraid that we know that his exercises are specially used to cover up, right? He guesses that he also understands in his heart that we will not believe what he said! Let alone believe that the exercises will be reversed. The end is perishing..."

He said so, do it! He wants to let all of us know that he hates our exercises! He doesn't want to practice our exercises! This way all of us will naturally not think that he is practicing our exercises. That's it!"

Zoey explained.

Everyone understands.

This is Levi Garrison deliberately creating an illusion.

In fact, he has been practicing...

"If you don't believe me, let's go to the place where Levi Garrison retreats!"

Zoey led everyone to the basement where Levi Garrison retreats.

I saw that the table in the basement was filled with the analysis of the techniques of all of them... There

were papers everywhere, densely packed...

Everyone was shocked when they saw it.

It turns out that Levi Garrison has been studying.

And this analysis, this insight... terrible!

He is really thorough!

More thorough than each of them understands!

Really deduced every exercise to the extreme...

If it weren't for his own strength, he couldn't hold it!

Otherwise, in the shortest time, I'm afraid that Levi Garrison can rise to the strongest level.

The top three on the list of gods cannot be overstated.

"I see! The boss said that thousands of exercises are actually one kind! I think he meant to integrate thousands of exercises into one's own thing!"

"Look for yourself, the boss does so much. Analyze, every subject is deduced to the extreme, isn't it just to integrate everything?"

Kirin ( Qilin ) laughed.

They had predicted Levi Garrison's path of cultivation before.

It will merge all their disciplines together and become their own thing.

It was just that the Li and Zhao family divided up the exercises.

"That's it! He quickly integrated all the exercises into his own thing! When we found out that he practiced, there was no evidence! At that time, the things he created by himself had nothing to do with us!"

They analyzed everything clearly.

All in a good mood.

After all, he has created his own exercises and has entered the gods list.

They are more excited than anyone else.

They saw everything they wanted to see.

“Believe it or not, I will pierce him later, and he will definitely say that he is practicing his previous basic exercises?”

Zoey smiled.

“Yes, that’s for sure! Master (the boss) will definitely answer that way!”

Everyone laughed.

“Then Azure Dragon (Qinglong) will continue to sacrifice himself and cooperate with the boss?”

someone asked.

“No need, right? Everyone knows the truth!”

Most people don’t think they need to continue to sacrifice themselves to cooperate with Levi Garrison’s exercise.

Azure Dragon (Qinglong) shook his head: “No, for the sake of the boss’s steady cultivation, don’t expose his lies! I continue to sacrifice myself, it doesn’t matter! Anyway, you can protect me!”

“And sacrifice me, and return the boss for the king! Worth it!”

Everyone was moved by the fearless spirit of Azure Dragon (Qinglong).

But Azure Dragon (Qinglong) is the leader and the brain in the team!

He is not the main combat power.

So it doesn't matter!

After everyone came out of the basement.

I saw Levi Garrison coming back from outside.

Seeing everyone there, Levi Garrison didn't feel much shock.

After all, today is the three-month period for him and Zoey to bet.

Come compare who has made more progress than these three months...

"The period of March is here...Come on, I lose!"

Levi Garrison said.
