

The Return of the God of War [The Protector] Chapter 2431

For example, this relic was artificially forged.

Then when it was first opened, if you check it carefully, there will be more clues.

There are even people who forge ruins in the dark, so there are more discoveries.

Maybe he will go straight to Huanglong!

Find the man behind the scenes in one fell swoop!

Levi Garrison immediately arranged for the people of the Great Xia League to search for it.

At this time, many people knew about the news from the ruins.

For example, Kunlun Industry, as well as the major forces of Erudiaa, have to go there.

Even if the Kirin (Qilin) heard them, they would go for a break.

The crowd quickly assembled in Jiangbei, ready to set off to snatch the remains.

Even Xuanyuan Qingya was interested and prepared to go with Azure Dragon (Qinglong) and the others.

“No need to go, this is a fake ruin at all! Going is a waste of time!” When

everyone was about to go, Levi Garrison stopped them.

According to Levi Garrison's recent summary with the Bible Organization.

Eighty to ninety percent of this ruin is fake!

"Huh? Fake?"

Everyone was stunned.

Looked at him incredible.

"Because several of the ruins were fake before! Anyway, I can't explain it to you for a while!"

"Anyway, you believe me, the ruins must be fake! If you go, you will be fooled!"

Levi Garrison seriously Looking at everyone.

Everyone on Zoey didn't believe Levi Garrison anymore, but Xuanyuan Qingya suddenly stopped them.

"Okay, then we will believe him once! My father said he was extraordinary, but I want to see if what he said is true this time?"

Xuanyuan Qingya really wanted to see if there was anything extraordinary about Levi Garrison.

This happens to be an opportunity.

“Brother, what do you think?”

Xuanyuan Qingya looked at Marshal Tiance.

“Okay, just one ruin! Let’s just listen to Levi Garrison, and everyone will not go! See if this ruin is fake!”

Tiance Marshal said too forcefully.

After a word, no one intends to fight for the relic.

All the major forces retreated, and Kirin (Qilin) and the others did not go.

Everyone bet on whether what Levi Garrison said was true.

“Damn, you finally believe me!”

Levi Garrison ordered his men to check the ruins again.

Resolutely not let go of any one person and one detail.

Soon it will be the day when the ruins are excavated.

What makes all parties strange is that the major forces and super powers of Erudiaa did not participate.

The foreign superpowers who came to snatch it all laughed.

I thought I was here to join in the fun, but I couldn't get it.

This is just great.

You can really have it.

Soon after, news came that the magical power of King Kong in the ruins was stolen by the East Island powerhouse.

The other treasures in it were also divided up.

After careful investigation, the result came out-this ruin is real.

It was really unearthed.

It was completely different from what Levi Garrison thought.

"Master, there are still some real ruins in all parts of the world! However, artificially forged ruins account for most of them!"

said the evil god.

“However, a group of mysterious people appeared in this relic battle! The energy fluctuations on their bodies are completely different from those of others! But they left too fast, and the people I sent out did not keep up!”

said Underworld God .

Ye monarchs surprise “would not also want to say that behind these sites, or at least know what ruins

“Yes, almost, I was the next check!”

“But I heard that the door does not break the magic really Is super powerful! The one who is expected to get will soon kill the Quartet!”

Underworld God sighed.

“Hey!”

Levi Garrison let out a long sigh.

Unexpected.

Unexpectedly, this ruin turned out to be real!

Not fake!

But the good news is that I finally heard some clues.

“Bang!” But the

next moment, Levi Garrison’s door was blasted open with a kick.

Xuanyuan Qingya and others rushed in. Yelling at him...
