

# The Return of the God of War [The Protector] Chapter 2471

Destroyer!

The only person who succeeded in the God-making Project in the Lab of the Gods-Destroyer!

Levi Garrison dare to be 100% sure-the prototype of the Destroyer definitely came from here!

The God-making plan of the Gods Lab is to create these existences.

But these guys in front of them are not comparable to the Destroyer...

after all, it is a test product.

It's still a god-making plan decades ago.

That means that the Lab of the Gods had been in contact with this race in the early days.

Forbidden Land No. 76, the Underworld God said that the Lab of the Gods would not dare to explore it.

That means they met.

It is estimated that I have suffered a lot and learned of the existence of this race.

So inspired, want to create this race-like existence?

Therefore, there was a plan to create gods.

According to the time given by the evil god, the exploration of the forbidden area No. 76 was also decades ago.

The time is all right.

So the god creation plan is to make humans into this race?

However, it is estimated that the resource consumption is too large.

This plan can be difficult to succeed!

Therefore, the destroyer is the only one who succeeds.

But the Destroyer is too far away.

Levi Garrison just feel it casually.

The weakest guy present is hundreds of times stronger than the Destroyer.

Especially those guys with wings behind the armor, stronger!

The more wings, the stronger the strength!

In particular, which of the ten wings is even more outrageous.

It would be really inconspicuous if you throw Tiance Shenshuai here!

In terms of pure strength, anyone who goes out here will make the gods tremble.

It is not too much for them to call themselves gods.

It's a god-like existence!

"Humans, you dare to break into the realm of gods! Looking for death!" said the

ten-winged "God" coldly.

"It seems to be another human powerhouse! Interesting, are we going to hunt again?" The

other gods laughed.

Several ancestors cautioned: "!!!! Mr. they are not what God is a strong race but this race was really too powerful immune to all attacks that they can repair the terrible attack at an alarming rate, speed, terrible ....."

a few old The ancestor was afraid that Levi Garrison would suffer, and reminded him next to him.

"Huh, humans! Compared to you, what are we not gods? It's just that we can't leave this place! Otherwise, this world would already belong to us!" the

group of "gods" shouted.

The ancestors immediately bowed their heads.

They admit this!

Once these guys go out, humans will suffer.

“It’s okay! We have no actual conflicts. After all, we broke into other people’s territory and just apologized and left!”

Levi Garrison smiled.

“Want to leave? Impossible! Those who are good at killing will not be spared!”

said the “Gods”.

Levi Garrison smiled and said, “It seems that it’s not that easy to go straight! Then kill you all!” The

words are not surprising and endless.

Levi Garrison said this.

Everyone present was stunned.

Including Levilia and several ancestors, they are all dumbfounded!

“Kill all these gods in front of you? How is this possible?”

Several ancestors fought them one by one.

Even if it is the most powerful existence of Tiance Mansion, such as Tiance Superintendent, it is impossible to kill one of them.

Let alone kill all.

impossible things!

He underestimated these people.

When the “gods” heard this, they all smiled.

No human being has ever clamored with them like this!

Even the most powerful humans in ancient and modern history are nothing but ants to them.

Kill as you want.

“To be honest, humans, you are a bit capable!

You can hardly die without death!” “But you can’t even kill us, or break our armor! This is the most powerful metal here! It contains divine power! Metal, it can’t be broken! Let alone kill us!”

They sneered.

“Really? In my opinion, it’s just broken copper and broken iron!”

Levi Garrison was happy. yes widened.
