

The Return of the God of War [The Protector] Chapter 2575

Chen Kong wanted to use the most humiliating way to cite three. People come out.

It's just that there is still no response in the field.

But at this time, Levi Garrison in the crowd said helplessly: "What about this kid? I'll go to the bathroom!"

Levi Garrison left the crowd, and everyone didn't pay attention.

There are not many people around to take care of it.

Not to mention the others, they didn't even see Levi Garrison's disappearance.

After such a stimulus, the person still did not appear.

Everyone is anxious now.

Can the top three of the gods list appear?

People are forced to do this.

Not showing up yet?

Even Tiance Superintendent and Ye Qingtian were anxious.

What is Levi Garrison doing?

When faced with such an arrogant opponent, shouldn't he jump out and slap to death?

I'm afraid it's impossible!

They still have a little understanding of Levi Garrison's strength!

He is definitely not weaker than the current Chen Kong...

He has no need for timidity at all!

According to his personality, one of these three identities had already taken Chen Kong to the ground.

I'm so clamored now, I haven't shown up yet.

I really can't understand...

Everyone subconsciously looked in the direction where Levi Garrison was.

Just where is Levi Garrison?

Where did Levi Garrison go?

Why did he go?

Is it really gone?

Doesn't it seem to come out directly to accept the challenge?

Everyone looked at each other, wanting to see the answer in each other's eyes.

No one came out for a long time.

Chen Kong was anxious.

"I won't come out, right? I'll step on your name on the gods list first, and then dig out a little bit! Three cowards!"

Chen Kong furiously said.

He leaped and reached the Conferred God Stage not far away!

"Boom!"

He suddenly rose into the air and headed directly to the top of the stele!

Soon to the highest point...The

top three letterings of the gods list are right in front of his eyes!

It's so dazzling!

He wants to destroy it now!

But he wanted three real people to come out,

"Boom!"

Finally, he stood firmly on the stone tablet.

"Give you one more chance! If you don't want to be laughed at by the whole world! Come out immediately!"

"In ten seconds, I will destroy your names!"

"This is your last chance!"

"Otherwise you will become The shame in this world!"

Chen Kong wanted to force people out.

I won't be in a hurry.

If you can extend the time, extend the time.

This coincides with Mr. X's idea...

“Three!”

...

He started to count down, but suddenly he glanced at the back of the stone tablet.

There seems to be... there are words?

Chen Kong stopped the countdown and began to look behind the stele...

“Ye...”

“Ye what??”
