

# The Return of the God of War [The Protector] Chapter 2685

That way, Levi Garrison would also die of anger.

He prepared so much, and it turned out to be useless.

But they can handle it!

Then this imagination space is big.

It may just be able to handle it!

It may also be restrained!

It may also be a complete abuse...

He is looking forward to this answer.

It's easy to deal with!

Mr. X said quietly: "Since encountering the gods of Forbidden Land No. 76 decades ago, the Gods Laboratory has started a god-making plan! However, this is only one of the plans for Forbidden Land No. 76!"

"Remember our scariest doctor? When he knew this race, he personally went to Forbidden Area No. 76 to capture a few gods back for experimentation. To study their physique and bloodlines..."

"It is still decades old for us to be the research object, of course there is no threat! But..."

“What worries us is why the gods of Forbidden Land No. 76 disappeared? Why are they now becoming dark gods? What does they have to do with Daxia? This is what really threatens us!”

...

After Mr. X finished speaking, everyone suddenly realized.

“Yes, there are many things we don’t know about, and we can’t act rashly! We have to continue to investigate, what is their intention...”

Lucifer was humane.

“Tiance Mansion and Baolong are not worth mentioning on paper, but they are still threatening, and they don’t know what trump cards and secrets are hidden! Now they are mixed with the ancient Garrison clan in Forbidden Land No. 76... People have a headache!”

“If we don’t find out what they are going to do, we dare not do it! We do it in advance without telling it, what if it is a trap?”

Mr. X is really a headache.

Levi Garrison wanted to laugh in the dark.

Nothing else.

These are all Lao Tzu!

I killed all those things in Forbidden Area No. 76.

Suddenly Mr. X thought of something.

“By the way, since we don’t know what they are going to do, then we will work harder to implement the plan ahead of time! Once the plan is implemented, many things will be exposed...”

Mr. X said.

The faces of several people changed.

“Plan ahead? Are you sure?”

Lucifer the Great Clown and they were all sucking in cold air.

It can be seen how terrifying this plan is!

The Hell Witch also said: “The first three years have said that it is the arrival of a new era! That is actually false! It is the fact that we have entered the development of telling and we are secretly manipulating, creating the illusion that a new era is coming!

But once this plan is launched, the world will enter a new era! Truly enter a dark age of chaos like purgatory! Everything will change! If you don’t grasp it well, destruction is also very possible! “

Levi Garrison was shocked when he heard it in the dark.

What kind of plan is it?

So scary?

Push the world directly into a new era?

And the three of Lucifer were so scared.

what exactly is it?

“There is no way! The enemy’s identity is unclear, so we must plan!”

“Thanks to the various experimental data of Maya Industry! This is how the plan can be advanced. If they are unsuccessful... how can they be advanced?”

“That group of fools really thought we disappeared, and we are still here as traitors!”

...

Levi Garrison didn’t listen to the following words.

Just heard the experimental data of Maya Industry.

So their plan to bring the world into the dark age has something to do with Maya Industry?

I have to go through all the experimental data of Maya Industry.

“Next, I will ask the chief priest for instructions! Let them advance the plan! Implement it in three months!”

Mr. X said.

“The main priest?”

Levi Garrison wrote it down silently.

Presumably this should be the real authority of the Gods Laboratory!

Mr. X is not the mastermind?

To put it bluntly, it's also a part-time job!

Before the battle with the Lab of the Gods.
