

The Return of the God of War [The Protector] Chapter 2699

“At that time, the Lab of the Gods came in full swing, and there will be no one to stop! Now is our only opportunity! We must prevent it in advance!”

“There is not much time left for us! Two months must be completed! Steps must also be completed! This is the only hope to save Daxia!”

Levi Garrison insisted.

At this time, another person, Xiao Liejun, stood up.

He and Hong Qingcang had two more, they were the four chiefs of Yanlongwei.

“One word side by side, don’t get excited! Let me ask you a few questions!”

Xiao Liejun said.

“Okay, ask!”

“First, why do you insist on building a national defense wall with all the power of the country?”

“Because disaster is coming soon!”

“Can you tell us what kind of disasters you need to work so hard to mobilize, and the power of the whole country?”

Seeing everyone watching.

Levi Garrison can only tell the truth: "Because the Lab of the Gods still exists! It's..."

Levi Garrison wanted to say-right under his feet, right under Yan Longwei's eyes.

But he was afraid that after speaking out, someone couldn't help but inquire patiently.

This will happen instead.

And I can't say too much.

What if the wall has ears?

Yan Longwei must be a traitor, but what about the people below?

"Maya Industry is their guise. They are about to create a giant with a height of hundreds of meters, and there will be no one to stop by then!"

"It is estimated that the plan of the Lab of the Gods is to use these giants to invade every place. At that time, it will be too late!"

"Not only that! The laboratories of the gods will also appear! They are even more powerful than you can imagine! At that time, it will definitely be a real disaster!"

Levi Garrison said excitedly.

Xiao Liejun smiled and said, "The word side by side king is a bit alarmist, isn't it? A giant with a height of 100 meters? We also have it!"

"Yes! Wrong! Our scientific research team has long developed a hundred-meter fighter machine! Kunlun Industry and Wenjia have developed a robot war beast that is 100 meters high! The tallest one is 150 meters long. !"

"These Big Macs are powerful! But there are still some shortcomings! It's terrifying, but it's definitely not a disaster! It's even more impossible to let the power of the entire country build the wall of the country!"

Another leader, Jiang Ye, also said: "Moreover, according to many sources of information, the Lab of the Gods has been destroyed! They can't exist! One word side by side, you are a conspiracy theory!"

"I heard that you don't practice anymore, do you specialize in these conspiracy theories?"

Everyone chuckled.

"How can the Lab of the Gods be destroyed as easily as you think! And their Big Mac is absolutely different from what you think! It can't be dealt with at all, it can be a disaster!"

Levi Garrison said helplessly.

Think about it and know, how could the Lab of the Gods disappear?

It's under your feet!

"Okay, be quiet first! I'll ask him questions!"

Xiao Liejun looked at Levi Garrison: “The second question-how did you know that the Lab of the Gods did not disappear? And know about the Big Mac? Is there any substantive evidence?”

Others also watched.

“I have met the people in the Lab of the Gods, and have heard the plan from them! Some informants have learned about it... It is roughly concluded that this disaster will come in three months!”
