

## The Return of the God of War [The Protector] Chapter 2704

“you.....”

Seeing Levi Garrison who appeared as a dark god, he was really frightened.

Back again and again.

“Don’t you want to know who I am? Come, follow me!”

Levi Garrison directly asked him to leave.

“Please don’t kill him!”

Tiance Shenshuai shouted anxiously behind him.

After all, this is his flesh and blood.

Brought the former great apprentice of the dark god to a remote place in Kunlun College.

The big apprentices began to tremble.

He could obviously feel the powerful aura of Levi Garrison’s body.

revenge?

That is absolutely impossible!

Moreover, his words of revenge were for Tiance Shenshuai.

Belongs to Kou Hi.

Really let him take revenge, he dare!

Especially after seeing Levi Garrison.

Give him ten courage!

“I won’t kill you for the sake of Tiance’s handsome face!”

“But if you want revenge, please remember this face!”

Levi Garrison slowly took off the mask.

The big apprentice swallowed fiercely.

Looking at the face under the mask.

He also hardly remembered this face.

He can’t get revenge.

It can only be pinned on the laboratory of the gods.

The big apprentice couldn't help asking: "By the way, I have a question! Why are you cooperating with Tiance Mansion? What is the relationship between you?"

Previously, this was a concern of the Gods Laboratory.

Now he is also very confused about this.

Tiance Shenshuai won't avenge himself, but why does he get involved with the new Dark God?

"Come here, I will tell you quietly..."

Levi Garrison beckoned.

The big apprentice heard the words and moved his ears over.

After listening to Levi Garrison's words.

His whole face changed drastically.

The eyes are full of disbelief!

"Understood!"

After he listened, he said three words faintly.

Then he left.

Levi Garrison looked at the back of him leaving with a smile.

After dealing with this matter.

Levi Garrison gathered the gods of Tiance and the others together.

Told them about this.

Everyone looked embarrassed: "There is one thing to say, this matter is too much. The power of the whole country! It is normal for Yanlongwei not to agree!"

"Yeah, who is sitting in that position! I'm afraid of making such a decision! After all, it's desperate!"

"This matter, I am afraid that our Tiance Mansion is also powerless! After all, we are only the highest ancient martial arts organization, and cannot call on Quan Daxia's power! If you really want to call, it must be the Yanlong Guard!"

"Yes, it is estimated that Yan Longwei will not adopt our suggestion!"

...

"I want to hear your opinions!"

Levi Garrison looked at everyone.

“It’s impossible to build a national defense wall! I can only think about it from other aspects!”

“Use our existing power to create as many buildings as safe islands and the like! If there is a problem at that time, more ordinary people can be brought here!”

Upon hearing this, Levi Garrison nodded: “Yeah. This is in my plan!”

“Secondly, you and the super-powerful seedlings that you want to build must not be exposed before this incident. If the disaster you said is coming, and the Big Mac strikes! We will gather people to deal with it!”

“With our strength not to mention extinction, there should still be hope to resist, right?”

“Yes! Let’s be the defense wall at that time!”

The gods of Tiance said the plan.

“That’s all! I hope you can stop it!”

Levi Garrison sighed.
