

# The Return of the God of War [The Protector] Chapter 2716

A giant creature appeared.

...

Soon after, the island was trampled by giant creatures...

On the vast sea of Northern Continent.

Several 10,000-ton cargo ships were suddenly overturned by the emergence of giant creatures...

A behemoth suddenly appeared in the rainforest of a certain country in the Eastern Continent...

...

Soon, the emergence of the three giant creatures was agitated.

This time more people saw it.

There are news reports everywhere.

Even the Sky Shield and Agent Black Hawk were dumbfounded.

If these giants are to appear, shouldn't they come to yourself first?

what happened?

Came out by himself?

The Black Hawk agents were terrified.

I wondered if I had been exposed.

Why doesn't the Lab of the Gods find themselves to hide these Big Macs first?

He tempted Mr. X and them quickly.

Knowing that it was just an advance exercise, he also didn't care about it.

But when he wanted to tell Levi Garrison this message, he found that no one was found.

I can't find it anyway.

But it was not important to come to this information, he didn't continue to look for it.

After all, the real thing hasn't started yet.

...

now.

Yan Longwei's meeting room.

The four heads are all there.

The three of Xiao Liejun specifically asked Lu Xiong to also participate.

"The content of the meeting is the issue of Safety Island and Levi Garrison..."

"Up to now, Levi Garrison still hasn't found it. This is a big trouble!"

Xiao Liejun looked at Lu Xiong and said, "The content of today's meeting is whether the safe island project should continue..."

"Of course we have to continue! The King of Words is going to retreat! He hasn't disappeared! And the danger still exists, you all know about this!"

Lu Xiong said directly.

Jiang Ye said: "I think I need to reconsider! Let's stop for a while, and talk about it after I find Levi Garrison!"

"Yes! I think so too! He is now throwing this mess at us! Do we need to go on stupidly?"

Hong Qingcang also opposed this matter.

Lu Xiong directly rejected their thoughts: "No! The king gave me an explanation before the retreat! You can't stop! It won't work for a moment!"

“Lu Xiong is not your business alone, but the entire Yanlongwei’s business! Do you understand? There are some things that you can’t make a decision!”

...

The two parties quickly quarreled.

“The big thing is not good! The giant creature appeared! This time it really appeared...”

At this time, Cao Zhiguo of the intelligence team hurried over.

Pass the message you just received to everyone.

“Giant creatures appeared in three places...”

“After inflicting huge losses, I left. I am missing now! Many forces and strong men have been tracking them...”

...

After seeing the news.

Everyone’s complexion changed drastically.

Especially, Lu Xiong laughed loudly and said, “Look! You guys have to stop? It’s just ridiculous! The king has disappeared side by side! But these dangers are still there!”

“Now? Do you still have to stop? Do you have to find someone first?”

Everyone was speechless when Lu Xiong said this.

They can't even stop.

After all, the situation is different.

“This time we have no foresight! We are thinking too casually! Lao Lu, you have to continue! You even have to speed up a little bit! If this continues, something may really happen!”

Xiao Liejun frowned and said.

At the same time they sent someone to continue to stare at this matter.

Lu Xiong left and continued to take charge of the safety island.

...

And the whole world panicked because of the three giant creatures that suddenly appeared.
