

## The Return of the God of War [The Protector] Chapter 2732

He not only figured out Daxia's deployment, but also hid the real Big Mac, and stimulated the gods in Forbidden Land No. 76...

"Well, in the end Maya Industry and the Bible Organization have come to support!"

Lucifer said.

"It's a pity that Daxia's combat effectiveness is too strong, and it will be over when they arrive!"

"If Daxia is in a stalemate when they support it, maybe they might do it! Attack Daxia directly!"

Clown the Great, they really thought Maya Industry and the Bible Organization were the gods in Forbidden Land No. 76.

I thought it was really fake to support.

Actually want to do something against Daxia.

When Mr. X heard it, he smiled directly: "Hahaha... laughed to death, did Maya Industry and the Bible Organization really come to support it hypocritically?"

"But it's true?"

Mr. X is still more cautious, asked.

Several people nodded: "Of course! The Bible Organization and Maya Industry have taken out their hole cards! All the artifacts and armor are carried... I think they are ready to fight Daxia... But there is no chance to make a move... "

Mr. X nodded: "In fact, their purpose is the same as ours, to figure out Yanlongwei's hole cards and firepower allocation..."

"This is because Daxia won. If these giant creatures could pose a threat to Daxia, Maya Industry and the Bible Organization would have done it early!"

Others also said: "It is estimated that these guys in Forbidden Land No. 76 have already been gearing up in secret!"

"Although they don't do anything, it is good for them. At least they can figure out the firepower allocation of Daxia. It will be more beneficial to them when they next act!"

"Daxia is going to be over, hahahaha..."

...

The conspiracy succeeded.

Everyone in the Lab of the Gods was laughing.

"I heard that Daxia has started investigating the giant creatures! It will take a few days! However, I have already arranged it! Lead them in other directions!"

"As for you, just continue to prepare! Soon our real plan will begin!"

Mr. X sneered.

“Okay, got it!”

...

the other side.

After Lu Xiong received the notice.

He hurried back and joined Xia Liejun and the others.

“What? I’m halfway through the construction of the island, let me stop? I won’t do it!”

“After paying so much, it’s all about the bones! Has this stopped?”

“No! Resolutely not!”

When Lu Xiong heard that he wanted to abandon the safety island project, he firmly refused to agree.

“But you have to respect the facts! Judging from the current situation, there is no such thing as the powerful Big Mac that the king said side by side. We can solve the problems that have emerged right now!”

“In that case, do we still need to waste it? It’s already a big loss!”

Xiao Liejun's attitude was very hard.

Lu Xiong had a fiery temper, and he firmly believed in Levi Garrison.

Especially the plan is halfway through.

He is even more reluctant to give up.

The two sides quarreled violently.
