

The Return of the God of War [The Protector] Chapter 2781

Tiance is not here...

Tiance Mansion Baolong is a group of dragons without a leader...

There is turmoil inside again...

Everything is in chaos!

At this moment.

Xiao Liejun led the death squad, stormtrooper, and mecha legion to the forefront.

But the front line is already far, far away from the coast...

That shows that a large area has been captured and occupied.

All buildings have been flattened and everything has become messy.

Looking at the hellish scene before him.

Xiao Liejun and the others were shocked.

He was going crazy.

What kind of decision did I make everywhere!

This loss...

This is much bigger than the safe island...

"I'm coming....."

Waiting for them to be shocked.

The Leviathans came.

Regret!

Looking at the devastated world, Xiao Liejun really started to cry.

This is inseparable from him!

You can even blame him directly!

He has always insisted that speculation does not necessarily happen, and there is no evidence to prove the principle of never making a move.

In any case, he feels that he is right!

But now he was wrong.

Sometimes I really have to believe that small group of people!

They are the masters of truth! ! !

If you don't believe me, there is no way!

Don't believe it, it will hit you in the face with a bloody reality!

"hiss!"

See Leviathan coming from not far away!

He took a deep breath!

This is exactly what Levi Garrison described!

Especially the height is only 100 meters!

The defense wall of exactly 300 meters can block...

The body shape and even appearance are roughly the same.

They are mighty and domineering, and their scales refract light, which makes people unable to open their eyes.

And at a glance, it can be seen that this is a combination of ancient creatures and modern technology.

They seem to have various devices and weapons?

This is more similar to what Levi Garrison said!
