

# The Return of the God of War [The Protector] Chapter 2785

The mecha legions all rushed to the forefront.

This time it was all large mechas and mechanical war beasts.

There are two hundred meters in height.

The rest are over one hundred meters.

Much stronger than the previous small and medium mecha!

After they pounced.

Fight with the Leviathans.

The rest of the ministries are cooperating with the Mecha Corps.

This time, at any rate, it was temporarily stalemate with Leviathan.

It's not as embarrassed as it was before, and it was torn when he went up.

The large mechas and mechanical beasts are still useful...

Coupled with the harassment and cooperation of various ministries.

For a time it really hindered the progress of Leviathans.

But everyone understands that it will not last long.

It will be captured soon.

Taking advantage of this time, everyone moved quickly.

Build a real position!

“Quickly, quickly! Seize the opportunity!”

Xiao Liejun personally supervised the work and began to build the base.

This is the only chance.

Must be grasped.

It is indeed a quick reaction team.

On this knot of bones, a position has really been built up.

This is not like a temporary position that has just been bombed.

It is a position built up with equipment and devices!

It is the real steel line of defense!

Can be used to resist!

Half an hour!

The steel line of defense is well cast!

“Withdraw! Let the Mecha Legion withdraw!”

Xiao Liejun gave the order immediately.

Soon, the Mecha Corps withdrew.

But after withdrawing, everyone was even more dumbfounded.

It's a quarter!

In a short period of time, the mecha legion would withdraw a quarter back?

The other three quarters have all been accounted for...

No matter how strong the mecha and mechanical beasts, they can't stop Leviathan.

It's all turned into scrap.

Even a quarter of the return was severely injured.

This is still in the case of the cooperation of the various ministries, otherwise, the Mecha Legion will be overthrown.

"I can see it! Our mechas and mechanical beasts are not at the same level as giant creatures! They have no flaws!"

"Our mecha legion can only delay their advancement, but cannot inflict damage on them! Let alone destruction!"

...

Faced with such a situation, Xiao Liejun was already in a cold sweat.

"Head Xiao! It is estimated that our weapons and all aspects of deployment, the enemy has long known clearly! Last time the smoke bomb detected everything about us!"

"So our weapons and various offensive methods are ineffective against them!"

Someone said.

Why doesn't Xiao Liejun understand this question?

Everything about them is now transparent to the Lab of the Gods!

People have thoroughly studied your weapons a long time ago.
