

The Return of the God of War [The Protector] Chapter 2809

He led the core members of the Lab of the Gods (except the main God Division) from the secret base in Beijing.

That is below Yanlongwei.

But at this time, there was a voice: "I finally came out. It's been a long time for you!" Wrong!

It was Levi Garrison who made the sound!

Why did he go during this time?

It's a mistake in retreat!

However, the location of his retreat is very particular, just near the base of the Gods Laboratory!

Below the Yanlongwei base!

Today's Levi Garrison has passed the level of superficial fist and kicks for this basic exercise, and has further penetrated into the realm of mind.

Therefore, he will not make any movement, and others will not be able to find him.

But on the contrary, if there is any movement in the laboratory of the gods.

He can still find out.

After all, it has always been.

The purpose he arranged for himself was to stare at the laboratories of the gods and use all his power to deal with the main gods.

In his opinion, the main divine division is definitely in the base of the capital.

So he arranged everything else to other people, and he only needed to stare at the base in the capital.

Therefore, he retreats here.

So no one can find Levi Garrison!

If you could find the location of Levi Garrison's retreat, then you would have found the base of the Gods Laboratory earlier.

This is actually a super difficult thing!

After the accident.

The gods of Tiance can't find it...

He explained everything before the retreat.

But where he could think of it, just a wave of trials in the Lab of the Gods disrupted all his plans...

The safety island stopped.

The defensive line was withdrawn.

Daxia was still slack throughout, and took his previous words and instructions as wind.

Lead to such serious consequences now!

However, Levi Garrison also expected to fail.

Originally, the plan for the Lab of the Gods was three months, but he moved the time forward to two months.

In his plan, no matter how soon it is, it will not be more than two months.

But where can I get the horror of Doctor Dark!

Exceeding everyone's expectations, even the main divine division.

It turned out to be one and a half months ahead of schedule.

The plan was opened in a month and a half.

In fact, when the Leviathans attacked aggressively, Levi Garrison felt it.

He woke up.

The retreat is over!

From that moment on, he knew that he had made a mistake.

The other party planned ahead.

However, in his vision, even if all the safety islands were not repaired, they would still be in trouble.

The other defenses are almost ready.

But he checked and found that he was very wrong.

Daxia is all messed up.

Those Big Macs all attacked and came in.

And the safety island stopped long ago...

After checking Levi Garrison, he knew everything.

I also knew that Agent Black Hawk had lost contact.

But he knew it too late at this time.

From the time he noticed the Big Mac, it had already entered the Great Summer...

All he can do is try to remedy it as much as possible.

However, he was already at the main base of the Gods Laboratory, and he couldn't leave.

He wants to stare at the true power of the Gods Lab.

So he can only think of other ways.

He has not been able to contact the Underworld God and Ye Wudao.

But he can still contact...

In other words, he can control it!

The thirteen variants on the thirteenth, there are four King Kong.

Although all of them are not together.

However, King Kong No.1 and Mutant No.1 happened to be in Daxia because they pretended to be the deputy chief.

Therefore, who solved the harassing dead men that everyone wondered...

Hong Qingcang's dark part was only solved a little bit.

Of course it is King Kong One and Variant One.

These two are in the category of super powers.

It's no problem to deal with some dead men's spies without knowing it.

No one even found out, even in the laboratories of the gods.

After all, it was originally used to deal with the laboratory of the gods.

As for the undercover army gathered in Jiangbei, it was the Huoyun Cthulhu that Levi Garrison had explained before the retreat.

Once there is a danger, it can be resolved appropriately.

Just as this group of undercover agents gathered in Jiangbei, Huoyun Cthulhu took action and solved them all. As for the support of the Bible Organization and Mayan Industry, etc., it is normal.

Before Levi Garrison retreat, he explained clearly.

It is for them to do their best to deal with this disaster.

Use all the cards that should be used.

The ancient Garrison Clan and Tiance Mansion are also normal here. The ambush of encircling and annihilating the enemy is their own strategy.

After all, the Kunlun Academy spies were aware of these people, except for the gods of Tiance, the Dragon Head God.

Their own decision!

As for the joint support forces of countries around the world, this was also arranged by Levi Garrison.

Temporarily arranged.

The Four King Kong are originally robots.

Intelligent!

Levi Garrison transmitted orders to them and asked them to use smart means to gather decision-makers from various countries for a meeting.

Briefly describe the matter clearly.

The general idea is that this group of giant creatures are of unknown origin, numerous in number, and powerful enough to be invincible.

Now they are dealing with Daxia, but after swallowing Daxia, it is inevitable that they will not cause threats and damage to other countries.

Maybe it will level all countries one by one!

And to put it bluntly, this group of giant creatures can even level off in Daxia, let alone other countries.
