

The Return of the God of War [The Protector] Chapter 2812

The flames blazed into the sky, and the smoke enveloped most of the capital!

Shocked!

It was too shocking!

Everyone has never seen such a scene!

What is this doing?

It's messed up!

Everything is messed up!

There was noise everywhere in the capital, and everyone stood on the street, witnessing this shocking scene.

The day turns into night in an instant, and the smog is too exaggerated.

In an instant, most of the sky above the capital was enveloped, and it turned into night.

Except for the soaring flames, everyone can't see anything else.

"Rumble..."

But waiting for everyone's reaction, another round of bombardment came.

The earth shook more terribly, and I don't know how many people were overturned directly to the ground.

Everyone has experienced that kind of shaking.

It seems that the world is divided into two.

On the surface, it's okay, but in fact, the inside of the ground under the feet has been shattered.

That's how it feels!

Next, an exaggeration appeared, cracks appeared in countless places in the capital!

Below the surface of the capital seems to have suffered a devastating blow...

The evacuated Gods Laboratory saw scenes from the real-time feedback from the capital, and everyone couldn't help but smile strangely.

Wrong.

Now they are about to surface.

This base is going to be abandoned.

So they are going to be destroyed.

As for destroying the capital at the same time, it will be beneficial to the laboratories of the gods without any harm.

But Mr. X was surprised when he looked at the current state of the capital.

its not right!

It stands to reason that power is more than just this.

At least it can overturn the capital...

Is something wrong?

At the beginning, the destruction device was arranged according to the power of destroying the capital.

But at this time, Mr. X's mind was in other places, and he didn't think too much.

"The power is a bit small, but it has brought disasters to the capital and wiped out our traces!"

"Well, that's it! Our goal is achieved!"

The others are the same, seeing the capital exploded, they didn't want to think about it too much.

Wrong!

The explosive power that the capital now exhibits is far from what they expected.

It can't even be compared.

The power they estimated was to destroy the entire capital city from the inside to the outside, leaving no place where one inch was completed.

It is to erase the capital from the map!

But now only the base has been destroyed, and the surrounding area has been affected. The smoke has indeed enveloped more than half of the capital.

But this was a thousand miles away from what was expected.

Where is the problem?

Of course it was Levi Garrison!

Had it not been for Levi Garrison, the capital would have been wiped out...At a critical moment, Levi Garrison discovered the conspiracy of the Lab of the Gods.

It was too late for him to escape.

The destruction device has been activated.

Especially he knew that the power of destruction could wipe out the entire capital.

He can't retreat!

At the moment of the explosion, Levi Garrison showed the might of the gods!

With a terrifying punch, the power of the explosion was blasted into the earth.

Let the power of the explosion blast into the earth.

Despite this, it was still not completely offset, and a part of the power came out, destroying the base of the Gods Laboratory.

The entire capital city was shaken, and the sky was covered by smog.

But there is still no substantial power.

The disaster did not happen.

That's because most of the power was offset by Levi Garrison's punch, or broke into the earth.

This was the result of the second wave of tremors in the capital, which was more exaggerated than the first.

At least there were cracks in various parts of the capital...

That's because Levi Garrison blasted the energy released by the explosion into the earth, raging in the earth, and triggered the movement of the mountains and the tsunami.

Although the capital is now devastated.

But there are almost no casualties!

Levi Garrison saved the entire capital by his own power.

If Levi Garrison's retreat was elsewhere, the capital must be wiped out.

After all, the plan to erase the capital was arranged in advance.

As long as they abandon this base, they will immediately destroy the capital.

Fortunately, Levi Garrison was here.

Otherwise, Da Xia would really be stabbed with a severe knife.

Although the power of this explosion is terrifying.

But Levi Garrison came out like someone else.
