

## The Return of the God of War [The Protector] Chapter 2818

“puff!”

“puff!”

...

But this wave of attacks is too strong!

Many of them were directly beaten out.

Suffered a lot of injuries!

Even Ye Wudao and the others were injured in varying degrees!

Fortunately, the divine weapon and armor blocked their power...

However, there is nothing wrong with the evil gods.

Because they had swallowed the blood of the race in Forbidden Land No. 76, their physique was against the sky.

It can be blocked.

It can also be immune to special substances!

In addition, the King Kong, the young master of Tiance, also blocked all this!

...

The laboratory of the gods on the remote island also analyzed and scanned the group of the evil gods in front...

This is a device specially given to them by the Dark Doctor to test whether it is the god of Forbidden Land 76!

“Wrong! They are the gods of Forbidden Land No. 76! The blood in their bodies has a reaction with Doctor Dark’s equipment! They are the gods of Forbidden Land No. 76!”

Before, it was judged by the artifact and the god armor!

Now it’s a real hammer! ! !

How do they know which race of the Underworld God they just swallowed, and they didn’t expect the blood of this race to be so overbearing, which directly changed the blood physique.

Created an illusion!

“Huh? This...”

Mr. X became more and more incredible.

what happened?

Forbidden Land No. 76, these guys are willing to help Daxia?

Shouldn't they take advantage of this good opportunity to swallow Daxia in one breath?

what happened?

Incredible!

There had been a change before, and he once suspected that it might not be the god of Forbidden Land No. 76, and that they had made a wrong judgment.

But now the evidence of the real hammer has come.

He was puzzled again.

More incomprehensible.

The head is about to explode!

...

the other side.

Leviathan concentrated energy waves after bombarding the front.

Most of the front was destroyed.

This wave of Daxia and reinforcements all over the world have suffered more and more damage!

This can't stop it at all.

Although they retreated or scattered in advance.

But after all, someone can't escape!

This is all destroyed...

The sea is in a mess, and the blood has dyed the sea red.

The wailing and screaming kept on.

"Continue withdrawing!"

Xiao Liejun and the others have no time to grieve!

Withdraw immediately.

Because the second wave of attacks is coming again.

“Buzzing...”

“Rumble...”

Sure enough, the Leviathan’s second wave of concentrated attacks came.

They are lined up, and the attack range is too wide.

There is no way to avoid it.

Heavy casualties!

There is no way!

There was no way to deal with this Leviathan for a while.

This is the horror of Doctor Dark.

It not only integrates the blood genes of various creatures and races, but also uses technology beyond the world.

Leviathan moved forward while conducting an indiscriminate coverage bombardment.

Daxia and the World Allied Forces have no way at all.

It’s not close at all.

Even if it gets closer, it won't help.

It is as strong as an artifact and cannot penetrate Leviathan's body to reach the core.

therefore.

They can only retreat again and again.

Soon came the landing on the coastline.

Everyone's face is as sinking as water.

They understood that this time Leviathan's attack was completely different from the last time.

Their so-called position and the so-called defensive line cannot stop Leviathan at all.

Once Leviathan landed, Daxia suffered.

Countless people will die.

Many city bases will disappear from the map.

"calm!"

“Be calm!”

“There must be a way!”
