

## The Return of the God of War [The Protector] Chapter 2821

Lu Xiong quickly transferred to this top-secret file.

Seeing the content of the “Atlantis” project took a deep breath.

But now is not the time to look at the plan.

He quickly determined the location.

It is matched with the current map again to determine the location accurately.

So as to plan the route and how to enter when the time comes.

After solving a series of problems.

It's been twenty minutes.

Even if the front is changed from desperate tactics to harassment tactics, there are still heavy casualties...

“Next, we need to go to this place together. The route has been planned. Let's escape together! Attract all these giant creatures here, and then trap them!”

Xiao Liejun and others immediately told Ye Qingtian ahead of him.

Then everyone started to flee towards the planned route.

Of course not inland, but at sea.

Except for Xiao Liejun and others who occupied the rear, everyone else began to flee to the designated place.

Especially Ye Qingtian, who took the lead, suddenly fled to the east.

The others followed immediately.

For a while, the Leviathans were all dumbfounded.

At a loss.

According to their combat position.

Why did this group of people run over to the right suddenly?

This is unreasonable.

Next, more and more people ran away.

shocked!

Soon, the Leviathans were empty.

No opponents.

Except for the coastline ahead.

It's not just that they are dumbfounded.

Together with Mr. X in the laboratory of the gods at the back, they were all dumbfounded.

"What's the situation? What is this doing?"

"Why did they all escape?"

"Is this their conspiracy? Want to distract Leviathan?"

"Yes! It's mostly a conspiracy!"

...

Everyone discussed.

"Huh! Even if it is a conspiracy? Now they have no way to deal with Leviathan. In the face of absolute crushing power, all conspiracies are useless!"

"Want to trap Leviathan? Is there any place in this world that can trap Leviathan? Or three thousand!"

The words came out.

Everyone feels reasonable.

“Yes, we should follow up and see!”

“Look at their conspiracy?”

“What’s more, I think the people who took the lead in the escape were the ancient people of the Garrison Clan and the Bible organization! I have reason to suspect that they are going to reunite with other gods in Forbidden Area No. 76!”

Mr. X’s eyes lit up: “It makes sense! Now their only way is the God of Forbidden Land No. 76! Even though we have seen them, the truly powerful ones still haven’t appeared! Now they are probably going to reunite!”

“Then we can’t let them go! Even if the Daxia coastline is close at hand! It’s already our Chinese food, and it’s not too late to eat again later!”

“Let all the Leviathans follow at full speed! Hurry, hurry! Don’t lose it!” “Remember! Keep up! But don’t attack! Don’t disturb them!”

“The goal of Leviathan’s army is to find out what they are going to do?”

Mr. X also specifically ordered.

Xiao Liejun and the others are actually betting.

Bet that the Leviathan army will follow.

If he can't keep up, Daxia will be miserable.

Saw the Leviathan army stopped there.

They were sweating nervously.

They were relieved to see the Leviathan army moving.

be cheated!

The fish is hooked!

They are half done!

The next step is to see if everyone can attract the Leviathan army to the designated position.

...

"What is this?"

Levi Garrison, who was not far away, was stunned.

He followed Mutant 13 and the Four King Kong all the way to the sea.

He let the others continue to find the Lab of the Gods.

He observed the situation in the dark.

As for him, he knew the power of Leviathan for a long time, and he swept the suppression all the way.

So he was looking for an opportunity to take action.

Everyone can't deal with this kind of knotty.

Then Levi Garrison also had no idea.

Can only be shot.

Expose is exposed, can't just watch this country be destroyed!

The future can only be said later!

Just when he was about to make a move.

The group of people suddenly fled in another direction, and all the Leviathans also chased up.

What's the situation?

He was dumbfounded.

What conspiracy and tricks are these people doing?

However, he can only follow.

See what's going on.

After escaping in the sea for a while.

Everyone began to use the underwater vehicle to sink into the sea and ran to the deep sea.

I have to say that the modern technology is superb.

This kind of underwater vehicle has no pressure in the deep sea.

The large forces in front are escaping desperately, following the planned route for improvement.

All Leviathan troops from the rear kept up.

The evolved Leviathan is also very fast, chasing in the deep sea.

Of course Levi Garrison followed last.

He became more and more curious about what the hell are these people doing?

Time passed by every minute and every second.

A sense of tension permeates everyone's heart.

But the Lab of the Gods is curious.

They are curious about where they went?

Although the Lab of the Gods has explored many places, the world is so big and there are still many unknown areas.

For example, they don't know where they are going now!

Xiao Liejun and the others are nervous!

I am nervous about whether this plan will succeed...

Levi Garrison followed all the way.

Soon after coming to an area, it was completely dim.

Obviously it has come to a particularly deep sea.
