

The Return of the God of War [The Protector] Chapter 2833

“What information is there?”

Mr. X asked.

“Intelligence is here! Two-thirds of the powers of the major countries that have allied with Daxia have withdrawn! Many others are still waiting!”

Hearing the first piece of information, he sneered: “Don’t worry, there will be more next!”

“But Daxia has responded quickly! Levi Garrison has been appointed as the commander in command! Let him deploy all the defenses! The biggest change at present is that Levi Garrison has greatly extended the defense line forward, even covering the neighboring Star Country, East Island, etc.! “

As soon as I heard the name Levi Garrison.

Lucifer who was present was touched again.

In terms of strength, the current Levi Garrison is a soft persimmon.

But if you want to talk about strategy, many people have praised Levi Garrison.

I used to fight against Richard, and later against them.

This aspect alone will not let the wind fall.

It is indeed a very good choice for Daxia to let him be the commander-in-chief!

“Levi Garrison did have two tricks! This defensive extension is a wonderful trick! It not only prevents neighboring countries from surrendering to us, but also prevents us from using them as pedals...”

But then Mr. X changed his words: “But it’s not useful! No matter how long the line of defense is extended, it won’t work. If you can’t stop it, you can’t stop it! It’s too different from our strength!”

“So not to be afraid! What about other information?”

“This should be a bit scary! The Bible organization suddenly called forces scattered all over the world, and they are all gathering in Daxia! They are moving quickly and are already beginning...” After hearing this information, everyone’s expressions still changed.

The intentions of the gods in Forbidden Land No. 76 are still unclear to them.

What does it have to do with Daxia?

Why don’t you spare no effort to help Daxia?

Still give it all!

When dealing with Leviathan before, so many artifacts were taken out.

The Gods Lab does not know how many gods and equipment there are in the forbidden area No. 76.

I thought that those who came to support were almost all the main force.

Therefore, they will be so jealous.

“Are we going to block it?”

The man asked.

“No need! We are not afraid! But we just don’t understand what the God of Forbidden Land 76 has to do with Daxia? Where are the people like God of Darkness? How can they not take action?”

After mentioning these, everyone’s faces became gloomy.

And there is no joy just now.

In any case, they felt that this was impossible.

Daxia and the Lab of the Gods.

Lucifer and the Great Clown suffocated their anger: “Don’t worry, they will be forced out with absolute crushing strength this time!”

“No matter who it is, we must crawl before us! No matter how strong they are! We have the dark doctor behind us, and the chief priest!”

Everyone is completely fearless!

At this time, another decision of the chief priest came.

“Declare the world in the name of the Kingdom of God-all countries and forces are limited to surrender or join within seven days! Those who join first will be called the citizens of the Kingdom of God and enjoy the same conditions!

Those who surrender and join later will become ordinary people, and those who join later will become servants! The number of places is limited, so it should be arranged according to time! “

“After more than seven days! All enemies! There will be no more surrender at that time! Either enslave or kill without mercy!”

...

Soon, “the Kingdom of God” announced this decision to the world!

The whole world was shocked!

The seven-day period? ? ?

Talking long is not long, talking short is not short.

The key is that the sooner you surrender, the better the conditions you can enjoy.

If you surrender later, you will become a slave.

This is the most challenging one!

Seven days later, there is no chance of surrender!

Moreover, the Lab of the Gods does not show its strength first, just let you guess and make everyone panic.

This hand psychology is played very hard.

And before Leviathan was so powerful, everyone knew it.

Speaking of Leviathan.

The Lab of the Gods is still looking for it here.

Exhausted all means, sent a lot of machines and manpower to frantically search where Leviathan lost contact.

Almost telling the message to the chief priest, let the chief priest think of a solution.

But this is a trivial matter for the chief priest after all, and they dare not tell.

But where did Doctor Dark know.

He is always looking for.

The hope of the Gods Lab for Leviathan is also pinned on Doctor Dark.

He made this by himself, and he should have a way to find it.

“Mr. X! Doctor Dark, they are here!”

At this moment.

Suddenly a technologically-sound aircraft stopped on the platform outside the front window.

A few people walked down from above.

Came directly at the laboratory.

After hearing this, Mr. X immediately led everyone to greet him.

In terms of status, Doctor Dark is the chief priest.

Taller than him!
