

## The Return of the God of War [The Protector] Chapter 2849

Everyone understands the reason.

Mr. X suddenly realized: "I probably understand where the Lucifer four disappeared? It's impossible for us to look for them like that, and we can't find the slightest trace of them!"

"You mean they are all attracted to this place, like Leviathan, are all trapped?"

Mr. X nodded: "Yes, it's wrong! This is Daxia's unique trick, controlling an unknown sea area. I can't beat you, but I can trap you so that you can't get out anyway. !"

"It must be! How strong are the four Lucifer, now they have suddenly disappeared, and they can't be contacted, and can't be found. There is not even a trace! Obviously they are trapped in the place where Leviathan disappeared!"

...

Understood.

Everything is understood.

Why did Lucifer and the Clown the Great disappear?

That's because I was attracted to this sea by Levi Garrisonli and was trapped...

"It's over! Darkness devours God!"

“Hurry up and let the Dark Devouring God stop! This area should be where Leviathan will soon lose contact, and then we will not be able to contact the Dark Devouring God!”

“Hurry up and send a message to stop him!”

Mr. X urged.

Send out the message here.

But soon, the man said: “Because of the impact, and the speed of the Dark Devourer is too fast. So the messages and pictures sent to us are delayed! It’s almost a minute, according to the time, he should We have reached the area where Leviathan lost contact.”

“Boom!”

This bad news is like a heavy hammer, hitting everyone’s heart fiercely.

Everyone was shocked.

Sure enough, dozens of seconds later.

I can’t get in touch anymore.

The equipment on the Dark Devouring God is no longer compatible with the Gods Laboratory.

That means losing contact.

The situation is exactly the same as when Leviathan disappeared...

“Something has happened! A big deal has happened now!”

You must know that the Darkness Swallowing God is the super general that was activated when the Gods Lab attacked the world.

With his swallowing ability, he stands in the front, no one can beat him.

If so unclearly trapped.

It’s maddening.

This is a huge loss.

If Lucifer was included, the loss would be too great.

“What should I do now?”

Everyone asked.

No idea.

“For today’s plan, we still have to find out where this location is! We must increase our efforts! This place may become Daxia’s big killer!”

“Secondly, it is best to control this place! We can’t find a specific one, but Daxia don’t even want to use it!”

“As for the darkness devouring God, he has to rely on himself. I hope he can break this place and come out!” Mr. X told everyone.

This is also no way.

They can’t help anymore now.

“Well, well, I immediately send someone to take care of this place, and they don’t even want to use it!”

...
